

Session E:

(Joint with the MMIC Symposium)

Mixers and VCOs

Chairman: D. Dawson
Westinghouse ESG
Baltimore, MD

This session contains four papers which deal with mixers and VCOs. The first three papers deal with such circuits at frequencies ranging from Ku-Band through 94 GHz. The final paper describes an X-Band double balanced mixer for high dynamic-receiver applications.

10:00 a.m.–11:30 a.m., Tuesday, May 8, 1990
West Ballroom A, B
