

Session KK:

CAD Techniques for Microwave Applications

Chairman: S. L. March

Tracor Aerospace
Austin, TX

As the session title implies, this session covers a range of CAD application to microwave components. The session contains six papers. Topics include:

- Filter designs
- E-plane waveguide discontinuities
- Feedback amplifiers
- Lossy transmission lines
- New network identities

1:30 p.m.–3:00 p.m., Thursday, May 10, 1990
West Ballroom A, B
