

# Welcome to the new Proceedings

If you haven't seen the *Proceedings of the IEEE* lately, it's time to take another look. We've taken one of the IEEE's best journals — designed especially for serious readers who are not specialists in the subjects being treated — and added these new features:

## Broader Subject Scope

In addition to our in-depth papers on technical subjects, you'll also get occasional coverage of areas like engineering management, economics and ethics.

## Concise Introductory Prologs

A feature unique to the *Proceedings!* Professionally written one-page prologs to each regular-issue paper help you determine its significance to you and your job assignment.

## Two New Types of Tutorial Papers

We've added an associate editor to increase our coverage of important and timely subjects... including two new types of tutorials: "career boosters" (fundamentals tutorials) and "curiosity satisfiers" (overview tutorials).

## We Also Report On History

We now publish features on the history of engineering and its impact on culture, highlighting seminal events ranging from 10 to 200 years ago.

## Original Book Reviews

We're enhancing our book-review section to inform you about the best reading in the field of electrotechnology.

**Would you like to subscribe to the *Proceedings*? IEEE members pay only \$20.00 (nonmembers \$200.00). Call 1-800-678-IEEE or 908-981-1393 outside of the U.S. Interested in a complimentary issue? Call the above number and mention this ad.**
