

Announcement

AS many of the residents in the United States are aware, a significant portion of the Los Angeles metropolitan area will change its telephone area code from the present (213) to (310) as of November 2, 1991. UCLA is included in this change. Therefore, the telephone and fax numbers of the Editor's Office of the IEEE MICROWAVE AND GUIDED WAVE LETTERS will be as follows:

Telephone (310) 206-4820
FAX (310) 206-4819.

There is a six-month transition period during which the old (213) area code may be accepted.
