

Session A

(Joint with MMWMC)

Receiver Circuits I

Co-chairmen:

Ho Huang

COMSAT Laboratories

Mahesh Kumar

AEL Inc.

This is a joint session with the Microwave and Millimeter Wave Monolithic Circuits Symposium. This session consists of four papers dealing with monolithic integrated circuit receivers. The first paper is an invited paper which deals with the commercial use of MMICs. The remaining papers present new designs and data on receiver components.

10:30 a.m.–12:00 p.m., Tuesday, June 11, 1991
