

# Session BB

## Time-Resolved Spectroscopy and Imaging of Tissues (Special Session)

### Co-chairmen:

**Norman F. Ramsey**  
Harvard University  
Lyman Laboratory  
Cambridge, MA

**Roger Powell**  
National Institute of Health  
Bethesda, MD

Optical radar ranging technology originally developed for DoD is being applied as a medical diagnostic technique. Speakers will address various aspects of radar ranging inside the body, including simulation, time and frequency domain measurements and imaging considerations.

**3:30 p.m.-5:00 p.m., Wednesday, June 12, 1991**  
**Room 302**
