

Message from the MMWMC Chairman

On behalf of the Steering Committee, I invite you to attend the 10th annual Microwave and Millimeter-wave Monolithic Circuits Symposium held on June 10 and 11, 1991, at the Hynes Convention Center, Boston Massachusetts. As in past years, on Tuesday, June 11th, the sessions will be held jointly with the IEEE MTT-S International Microwave Symposium. All sessions will be held at the Hynes Convention Center.

The Technical Program Committee, under the Chairmanship of Mr. William Perkins, brings to you three invited papers and twenty-five contributed papers representing both trends and state-of-the-art work in microwave and millimeter-wave monolithic circuit technology.

The social program for Symposium registrants includes a reception for participants and their guests on the evening of Sunday, June 9th, as well as continental breakfast and beverage service during breaks in the technical program. There will also be a hospitality suite for guests during the Symposium. The Sunday evening reception will be held in the Grand Ballroom of the Marriott Hotel/Copley Place from 7 to 10 p.m. Please make use of the registration forms to make your reservations.

I would like to express my appreciation to members of the Steering and Technical Committees for their efforts in bringing to you an outstanding program for 1991.

Charles Huang
General Chairman
