

Session I

(Special Session)

Status of Microwave Ferrite Technology

Chairman:

J. E. Pippin

Electromagnetic Sciences, Inc.
Norcross, GA

A historical perspective on the initial steps and the subsequent rapid development of ferrite technology will be given by the founder of this area of activity, Dr. Lester Hogan. The following three papers will briefly review the current status of ferrite technology in Europe, the USA and Japan.

1:30 p.m.–3:00 p.m., Tuesday, June 15, 1993
Room 218/219
