

# 1995 SBMO/IEEE MTT-S INTERNATIONAL MICROWAVE AND OPTOELECTRONICS CONFERENCE

Rio de Janeiro, Brazil, July 24-27, 1995.

## CALL FOR PAPERS

The "1995 SBMO/IEEE MTT-S International Microwave and Optoelectronics Conference", organized by the Brazilian Microwave and Optoelectronics Society (SBMO), and co-sponsored by the IEEE Microwave Theory and Technology Society (IEEE MTT-S), will be held in July 24-27, 1995, in Rio de Janeiro, Brazil.

This Conference will provide a major international forum for the exchange of information on research and recent developments in the fields of RF, Microwaves, Millimeter Waves, Antennas, Radio Propagation, Optics and Optoelectronics.

Papers are invited for consideration by the Technical Program Committee describing original work on the following suggested topics:

- |  |   |
|--|---|
| 1. Medical and Industrial Applications               | 12. Microwave and Optical Education       |
| 2. Microwave and Optical Materials                   | 13. Field Theory and Guided Waves         |
| 3. Microwave and Millimeter Wave Integrated Circuits | 14. Numerical Methods in Electromagnetics |
| 4. Monolithic Integrated Circuits                    | 15. Antennas and Arrays                   |
| 5. Optical and SAW Devices and Techniques            | 16. Scattering and Diffraction            |
| 6. Active and Passive Devices and Components         | 17. Radio Propagation and Remote Sensing  |
| 7. Microwave/Optical Integration                     | 18. Radio and Radar Meteorology           |
| 8. Packaging Techniques                              | 19. Wireless and Mobile Communications    |
| 9. Computer Aided Design and Modelling               | 20. Digital Radio Systems                 |
| 10. Microwave and Optical Measurements               | 21. Optical and Satellite Communications  |
| 11. Microwave Techniques in Radar and ECM            | 22. Others                                |

A selection of invited speakers will highlight important and developing areas.

Authors are asked to submit five copies of their summaries, which should be typed single-spaced and occupy two A4 pages (including graphs, diagrams, and references). The summary should include an abstract, and should emphasize what is new in the area. The summary should also include a brief conclusion.

### **DEADLINE FOR SUMMARY SUBMISSION: October 31, 1994.**

The title of the paper, author's name, affiliation, full address, telephone/FAX numbers, and e. mail address should be given in a separate A4 page, together with the topic reference number that seems most appropriate to the work. Number 22 should be used for topics not listed above.

Authors will be notified of the decision of the Technical Program Committee by early December 1994. Authors of selected summaries will be asked to provide a full typescript, in camera ready form, of no more than six A4 pages. Instructions for the preparation of papers will be mailed with the notification letter.

The papers will be assessed by an international review board. Acceptance for inclusion in the Book of Proceedings and presentation at the Conference will be based on the full typescripts.

English will be the official language of the Conference.
