

Session B

(Joint with MMWMC Symposium)

Advanced MMIC Technology

Chairman:

M. Kumar

Paramax Systems Corp.
Great Neck, NY

Co-Chairman:

W. C. Niehaus

AT&T Bell Laboratories
Reading, PA

MMIC technologies are proceeding at a rapid pace on many fronts. This session covers such timely topics as: a) a high efficiency Ku-band power pseudomorphic HEMT amplifier; b) a rapid on-line extraction method of HBT's base resistance and correlation with minimum noise figure; c) an L-band linearized MMIC amplifier using active feedback.

11:00 a.m.–12:00 p.m., Tuesday, June 15, 1993
Auditorium
