# MICROWAVE THEORY AND TECHNIQUES

A PUBLICATION OF THE IEEE MICROWAVE THEORY AND TECHNIQUES SOCIETY

APRIL 1995

VOLUME 43

NUMBER 4

IETMAB

(ISSN 0018-9480)

## PART II OF TWO PARTS

### SPECIAL ISSUE ON SPACE TERAHERTZ TECHNOLOGY

|                                    |                                       |     |
|------------------------------------|---------------------------------------|-----|
| Introduction to Special Issue..... | <i>M. J. Wengler and G. M. Rebeiz</i> | 921 |
|------------------------------------|---------------------------------------|-----|

#### PAPERS

|                                                                                                                |                                                                                                                                                                     |     |
|----------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| On the Modeling and Optimization of Schottky Varactor Frequency Multipliers at Submillimeter Wavelengths ..... | <i>J. T. Louhi and A. V. Räisänen</i>                                                                                                                               | 922 |
| 155- and 213-GHz AlInAs/GaInAs/InP HEMT MMIC Oscillators.....                                                  | <i>S. E. Rosenbaum, B. K. Kormanyos, L. M. Jelloian, M. Matloubian, A. S. Brown, L. E. Larson, L. D. Nguyen, M. A. Thompson, L. P. B. Katehi, and G. M. Rebeiz.</i> | 927 |
| A Wideband Fixed-Tuned SIS Receiver for 200-GHz Operation.....                                                 | <i>R. Blundell, C.-Y. E. Tong, D. C. Papa, R. L. Leombruno, X. Zhang, S. Paine, J. A. Stern, H. G. LeDuc, and B. Bumble</i>                                         | 933 |
| Conversion Gain and Noise of Niobium Superconducting Hot-Electron-Mixers .....                                 | <i>H. Ekström, B. Karasik, E. Kollberg, and K. S. Yngvesson</i>                                                                                                     | 938 |
| Integrated Back to Back Barrier-N-N <sup>+</sup> Varactor Diode Tripler Using a Split-Waveguide Block.....     | <i>D. Choudhury, P. H. Siegel, R. P. Smith, A. V. Räisänen, S. C. Martin, and M. A. Frerking</i>                                                                    | 948 |
| Simulation of 100–300 GHz Solid-State Harmonic Sources .....                                                   | <i>M. F. Zybura, J. R. Jones, S. H. Jones, and G. B. Tait</i>                                                                                                       | 955 |
| Analysis of a 170-GHz Frequency Doubler with an Array of Planar Diodes .....                                   | <i>J. Tuovinen and N. R. Erickson</i>                                                                                                                               | 962 |
| Fundamental and Subharmonic Excitation for an Oscillator with Several Tunneling Diodes in Series .....         | <i>O. Boric-Lubecke, D.-S. Pan, and T. Itoh</i>                                                                                                                     | 969 |
| Measurements of Noise in Josephson-Effect Mixers .....                                                         | <i>R. J. Schoelkopf, J. Zmuidzinas, T. G. Phillips, H. G. LeDuc, and J. A. Stern</i>                                                                                | 977 |
| 190-GHz Radiation from a Quasioptical Josephson Junction Array .....                                           | <i>M. J. Wengler, B. Guan, and E. K. Track</i>                                                                                                                      | 984 |
| A Low-Cost 20–22 GHz MIC Active Receiver/Radiometer .....                                                      | <i>S. Mollenkopf, L. P. B. Katehi, and G. M. Rebeiz</i>                                                                                                             | 989 |

## IEEE MICROWAVE THEORY AND TECHNIQUES SOCIETY

The Microwave Theory and Techniques Society is an organization, within the framework of the IEEE, of members with principal professional interests in the field of microwave theory and techniques. All members of the IEEE are eligible for membership in the Society and will receive this TRANSACTIONS upon payment of the annual Society membership fee of \$28.00. For information on joining, write to the IEEE at the address below. *Member copies of Transactions/Journals are for personal use only.*

### ADMINISTRATIVE COMMITTEE

|                              |                                       |                               |                                |
|------------------------------|---------------------------------------|-------------------------------|--------------------------------|
| E. D. COHEN <i>President</i> | M. A. MAURY JR. <i>Vice President</i> | R. W. BIERIG <i>Secretary</i> | D. G. SWANSON <i>Treasurer</i> |
| J. T. BARR                   | M. GOLIO                              | T. KEMERLEY                   | J. W. WASSEL                   |
| R. E. BRYAN                  | D. HORNBuckle                         | R. POLLARD                    | D. WEBB                        |
| S. J. FIEDZIUSZKO            | R. H. JANSEN                          | E. A. REZEK                   | E. YAMASHITA                   |

### Honorary Life Members

|              |             |
|--------------|-------------|
| A. C. BECK   | T. S. SAAD  |
| S. B. COHN   | K. TOMIYASU |
| T. ITOH      | L. YOUNG    |
| A. A. OLINER |             |

### Distinguished Lecturers

|              |                |
|--------------|----------------|
| W. CURTICE   | V. RIZZOLI     |
| P. GOLDSMITH | J. R. WHINNERY |
| F. IVANEK    |                |

### Past Presidents

|                        |
|------------------------|
| E. J. CRESCENZI (1994) |
| P. W. STAECKER (1993)  |
| R. S. KAGIWADA (1992)  |

### S-MTT Chapter Chairmen

|                                        |                                       |                                             |
