

# **Session TH1B**

## **Digital Signal Processing**

**Chairman:**

**J. Tsui**

Wright Laboratory

The activities of digital signal processing are developed along two areas—hardware and software. In this session, papers in the hardware area concern with different aspects of digital communication. Software papers deal with improvements of measurement methods and simplifying computations.

**8:30 a.m.–10:00 a.m., Thursday, May 18, 1995**  
**Room A2**
