

Session: WE2C

Filters II

Chair

R. Bonetti

COMSAT Laboratories

WE
2C

Co-Chair

C. Kudsia

COMDEV, Ltd.

The emerging markets in mobile, PCS and multi media communications continue to drive R&D for filters and multiplexing networks. This is driving research in dielectric loaded structures and multi-layer MMIC technology to higher and higher frequencies, for cost effective and compact filter realization. This session covers a range of filters in these areas.

10:20 am - 12:10 pm Wednesday, June 19, 1996
Room 133
