

Session: TU3A
(Joint with MMWMC Symposium)

**Large Signal Generation
and Amplification**

Chair
N. Camilleri
AMD

TU
3A

Co-Chair
Z. Bardai
Hughes

This session focuses on large signal generation and amplification from consumer communications to military radar. Topics covered in the session include VCOs and switches for PCS as well as high power and high efficiency amplifiers for microwave and millimeter wave radars.

1:40 pm - 3:30 pm Tuesday, June 18, 1996
Room 135
