Front Cover: Volume I

Archival photograph showing the construction of the south pier of the Golden Gate Bridge dated February 1935. Both piers were started at similar times, but as the north pier is on the headland, it was completed sooner than its southern twin. The complete project, which at the time was the largest bridge ever built, took only 4 years, a remarkable achievement even by today's standards.

Back Cover: All volumes.

Alamo Square Nights, photographer David Weintraub; Chinatown Roofscapes, photographer Carol Simowitz; Golden Gate Bridge from Marin Headlands, by Vano Photography and Hyde Street View, photographer Mark Snyder.

Cover designs by Richard Ranson, produced by Monte Graphics, Mountain View, California. Front cover photographs printed with permission from Golden Gate Bridge, Highway and Transportation District, back cover photographs courtesy of San Francisco Convention and Visitors Center.
