

# MTT-S Transactions and Letters On-Line

**T**HE IEEE Microwave Theory and Techniques Society (MTT-S) has joined a number of other IEEE societies in the IEEE Online Periodicals and Research Area (OPeRA, formerly known as JOLLY). As a result, the current volumes of MTT-S Transactions and Letters are now available on-line to MTT-S member subscribers. New issues become available electronically on the same day as the paper versions are published, thus permitting researchers with long delivery lags to become current electronically. OPeRA only retains issues for one year. Older articles must be obtained through bibliographic searching, as described below.

The on-line journals are identical in content and layout to the published paper journals. Members with access to a 600-dpi laser printer will probably find their downloaded hard copy version to be far superior to a photocopy made from the paper journal. Direct on-line viewing of articles is possible if your browser supports Adobe Acrobat Reader® plug-ins, but the result is not as clear on the screen as it is in subsequent hard copy.

## ON-LINE BIBLIOGRAPHIC SEARCHING

IEEE has made on-line bibliographic searching available for IEEE Periodicals, Conferences, and Standards produced since 1994. "IEEE Bibliographies On-Line," located on the main IEEE Web site under "Technical Societies" and "IEEE Publications," provides searching for all conventional publication criteria (author names, title terms, subject keywords, etc.) through either Boolean or free-form search interfaces. Using either interface, the search returns a list of article citations; clicking on a citation will yield the article abstract and a link to ASK\*IEEE—IEEE's official document delivery service. Bibliographic searching on-line is a free service for all IEEE members. Nonmembers access similar commercial search services for a fee.

Even though IEEE member subscribers have on-line access to a growing number of articles in full (via OPeRA), nonmembers or those wishing older articles will require the use of ASK\*IEEE. Prices for obtaining full documents vary according to membership, delivery location, and delivery speed. A price list is available from the ASK\*IEEE home page.

## REQUIREMENTS

*OPeRA*: You must be an IEEE Society member and/or member subscriber of that particular publication to have access to that journal's articles on-line. For more information regard-

ing access requirements for journals on-line, please visit the OPeRA site.

## *Bibliographies On-Line: Searching Is Available to All IEEE Members*

Since both services are an IEEE membership benefit, IEEE members have to register before being authorized to view articles or use the search system. Registration and membership validation are completed on-line and access authorization is immediate. As part of the registration process you will be given a user number. Do not lose this number, as you will need to use this for subsequent visits! You will require a password as well; this password is simply your member number. You need only register once; the same registration information is used for both bibliographic searching and OPeRA.

You will also need Internet access, a web browser such as Netscape Navigator® or Microsoft Internet Explorer®, and Adobe Acrobat Reader® software. Acrobat Reader® is available for free from Adobe's web site, which is accessible from the OPeRA/Bibliographies On-Line registration web page. Acrobat Reader® is required to view OPeRA's full-text articles, which have been stored using Adobe's PDF distilled Postscript image file format.

Once you have obtained Acrobat Reader®, you will have to configure it for use with your web browser. Alternatively, you can just download the article PDF file and view it separately with Acrobat Reader®.

The IEEE provides a free demonstration of OPeRA from the main OPeRA site. Membership and registration are not required to exercise this demonstration; the purpose is to let nonmembers gauge the quality of the product and benefits of membership.

## *Copyright and Reprint Permissions*

A society member is permitted to download and print articles an unlimited number of times for personal use. The official copyright statement for every paper posted on OPeRA is as follows.

Personal use of this material is permitted. However, permission to reprint/republish this material for advertising or promotional purposes or for creating new collective works for resale or redistribution to servers or lists, or to reuse any copyrighted component of this work in other works must be obtained from the IEEE. For permission to reprint/republish material write to IEEE Copyrights and Permissions Department, IEEE Publications Administration, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331 USA.

*URL's*

A list of URL's and a brief description of each is given below. This list is current as of April 1, 1998.

- <http://www.ieee.org>  
IEEE home page. Links to membership information, OPeRA, and on-line bibliographic searching.
- <http://www.mtt.org>  
MTT society home page. Links to both OPeRA and on-line bibliographic searching.
- <http://www.opera.ieee.org>  
OPeRA site.
- <http://www.opera.ieee.org/opdemo>  
OPeRA demonstration site.
- <http://www.biblio.ieee.org>  
Bibliographies On-Line.
- <http://ieee.uncoverco.com/ieeehome.htm>  
ASK\*IEEE document delivery site.
- <http://www.adobe.com/prodindex/acrobat/readstep.html>  
Site from which Adobe Acrobat Reader® may be downloaded.
