

TABLE OF CONTENTS

Volume 1

Table of Contents	iii
Welcome from the 1998 Symposium Chairs	vii
1998 Symposium Steering Committee	xi
Message from the 1998 Technical Program Chairs	xvii
Technical Program Committee	xviii
MTT-S Administrative Committee	xxiii
Radio Frequency Integrated Circuits (RFIC) Symposium Committees	xxv
Automatic RF Techniques Group Conference Steering Committee	xxvi
1998 Awards	xxvii
Microwave Career Award	xxix
Pioneer Award	xxx
Microwave Application Award	xxxi
Microwave Prize	xxxiii
Distinguished Educator Award	xxxiv
Distinguished Service Award	xxxv
N. Walter Cox Award	xxxvi
IEEE Fellow Awards	xxxvii
Future IEEE MTT-S International Microwave Symposia	xli
Historical Exhibit	xlii
1998 Microwave Symposium Technical Program schedule	xliii
Technical Sessions	
TU1A Plenary Session: Progress Through Microwaves	1
TU2A Modeling and Optimization for Efficient CAD	7
TU2B Joint RFIC and IMS Session: Millimeter Wave MMICs for Receiver Applications	37
TU2C Focused Session: RF and Microwave Implications of Digital TV Broadcasting:	
European, USA, and Japanese Standards	59
TU2D Joint RFIC and IMS Session: ISM Cellular PCS ICs	75
TU2E Planar Components	97
TU3A Modeling and Characterization of FETs and HEMTs	135
TU3B Joint RFIC and IMS Session: Wireless ICs and Circuits	165
TU3C Wireless Components and Systems	187
TU3D Joint RFIC and IMS Session: Millimeter Wave MMIC Technology	209
TU3E Waveguide Components	231
TU4A Nonlinear Simulation and Modeling	261
TU4B Joint RFIC and IMS Session: Multifunction Millimeter Wave ICs	295
TU4C Focused Session: Low Power RF/Microwave and Millimeter Wave Wireless Techniques	317
TU4D Joint RFIC and IMS Session: Transceiver ICs	335
TU4E Wireless and Satellite Applications of Superconductivity	361
Focused Sessions	III
Panel Sessions	V
Workshops	VII
μ APS-Microwave Application and Product Seminars - Technical Program	XVI
1998 IEEE RFIC Symposium Schedule	XVIII
Automatic RF Techniques Group Conference Schedule	XX
Author Index	XXIII
Exhibition Guide	XXXVII

TABLE OF CONTENTS

Volume 2

Table of Contents	iii
1998 International Microwave Symposium Technical Program Schedule	vii
Technical Sessions	383
WE1A Millimeter and Sub Millimeter Wave Mixers and Multipliers	385
WE1B Focused Session: Historical Perspectives on Microwave Systems in the Baltimore Washington Area	411
WE1C Power Amplifier Technology for Wireless Applications	429
WE1D Time Domain Methods I	459
WE1E SAW Systems and Sensors	489
WE2A Millimeter Wave Technology and Applications	515
WE2B Focused Session: Microwave and Wireless Education in a Rapidly Changing Environment	541
WE2C Microwave Power Amplifiers	567
WE2D Nonlinear Device Modeling	593
WE2E Ferrite Devices: UHF to W-band	615
WE3A New Guided Wave Effects	641
WE3B Low Noise Techniques	667
WE3C High Power Low Distortion Amplifiers	697
WE3D Spectral Regrowth and Distortion of Modulated Signals	727
WE3E Biological Effects and Applications	753
WEIF Interactive Forum I	775
WE4A Properties of Substrates and Artificial Surfaces	1059
WE4B Packaging and Interconnects	1081
WE4C HF-VHF-UHF Power Amplifiers	1107
WE4D Nonlinear Modeling of Circuit Field Interaction	1129
WE4E High Power Generation, Amplification, and Control Components	1143
Focused Sessions	III
Panel Sessions	V
Workshops	VII
μAPS-Microwave Application and Product Seminars - Technical Program	XVI
1998 IEEE RFIC Symposium Schedule	XVIII
Automatic RF Techniques Group Conference Schedule	XX
Author Index	XXIII
Exhibition Guide	XXXVII

TABLE OF CONTENTS

Volume 3

Table of Contents	iii
1998 Microwave Symposium Technical Program Schedule	vii
Technical Sessions	1165
TH1A Active and Planar Filters	1167
TH1B Joint ARFTG and IMS Session: Commercial and Industrial Microwave Systems	1197
TH1C Devices for Microwave Photonic Systems	1219
TH1D Application Oriented Techniques in Field Theory	1249
TH1E Multilayer and 3D Hybrid Technology	1279
TH2A High Q Filters	1305
TH2B Microwave Measurements	1331
TH2C Focused Session: Optical Beam Forming for Phased Arrays	1361
TH2D Time Domain Methods II	1391
TH2E Frequency Conversion Technology	1421
TH3A Quasi-Optical Amplifier Arrays	1451
TH3B Network Measurements	1477
TH3C Photonics for Wireless and Radar Systems	1507
TH3D Frequency Domain Techniques	1533
TH3E Signal Generation and Control Devices	1567
THIF Interactive Forum II	1593
TH4A Active Antennas and Arrays	1877
TH4B Joint ARFTG and IMS Session: Digital Interconnection Techniques and Characterization at GHz Frequencies	1911
TH4C Microwave Systems and Applications	1933
Focused Sessions	III
Panel Sessions	V
Workshops	VII
μAPS-Microwave Application and Product Seminars - Technical Program	XVI
1998 IEEE RFIC Symposium Schedule	XVIII
Automatic RF Techniques Group Conference Schedule	XX
Author Index	XXIII
Exhibition Guide	XXXVII
