## TABLE OF CONTENTS

|                                          |     |
|------------------------------------------|-----|
| Administrative Committee, 1959-1960..... | 272 |
|------------------------------------------|-----|

## CONTRIBUTIONS

|                                                                                                                     |                                                    |     |
|---------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|-----|
| An Analysis of Four-Frequency Nonlinear Reactance Circuits.....                                                     | David K. Adams                                     | 274 |
| Some Properties of Three Coupled Waves.....                                                                         | Laszlo Solymar                                     | 284 |
| Noise Figures of Reflex Klystron Amplifiers.....                                                                    | Koryu Ishii                                        | 291 |
| On Measurements of Microwave $\vec{E}$ and $\vec{H}$ Field Distributions by Using Modulated Scattering Methods..... | Ming-Kuei Hu                                       | 295 |
| Analysis of Certain Transmission-Line Networks in the Time Domain.....                                              | W. J. Getsinger                                    | 301 |
| Sets of Eigenvectors for Volumes of Revolution.....                                                                 | J. Van Bladel                                      | 309 |
| A Printed Circuit Balun for Use with Spiral Antennas.....                                                           | R. Bawer and J. J. Wolfe                           | 319 |
| The $P$ - $I$ - $N$ Modulator, an Electrically Controlled Attenuator for MM and Sub-MM Waves.....                   | F. C. de Ronde, H. J. G. Meyer, and O. W. Memelink | 325 |
| Discontinuities in the Center Conductor of Symmetric Strip Transmission Line.....                                   | H. M. Altschuler and A. A. Oliner                  | 328 |
| A Variational Integral for Propagation Constant of Lossy Transmission Lines.....                                    | Robert E. Collin                                   | 339 |
| Measurement of Bandwidth of Microwave Resonator by Phase Shift of Signal Modulation.....                            | D. S. Lerner and H. A. Wheeler                     | 343 |
| A $Y$ -Junction Strip-Line Circulator.....                                                                          | U. Milano, J. H. Saunders, and L. Davis, Jr.       | 346 |
| A Wide-Band UHF Traveling-Wave Variable Reactance Amplifier.....                                                    | R. C. Honey and E. M. T. Jones                     | 351 |
| On the Theory of Strongly Coupled Cavity Chains.....                                                                | M. A. Allen and G. S. Kino                         | 362 |
| Microphony in Waveguide.....                                                                                        | I. Goldstein and S. Soorsoorian                    | 372 |

## CORRESPONDENCE

|                                                             |                    |     |
|-------------------------------------------------------------|--------------------|-----|
| Discussion of Line Width and Gyromagnetic Ratio.....        | Isidore Bady       | 376 |
| Plotting Impedances with Negative Resistive Components..... | R. L. Kyhl         | 377 |
| Comments on "The Design of Ridged Waveguide".....           | Richard M. Kurzrok | 377 |
| Contributors.....                                           |                    | 378 |
