

# Editorial

THE 2000 Radio Frequency Integrated Circuits (RFIC) Conference and Automatic Radio Frequency Techniques Group (ARFTG) Meeting were held in Boston, MA, during the same week as the IEEE International Microwave Symposium, June 12–June 16. Extended papers related to the IEEE International Microwave Symposium were published last month in this TRANSACTIONS' Special Symposium Issue, with George Heiter and Mohammed Afsar as Guest Editors. Six extended papers from RFIC and ARFTG are included in this issue. David Lovelace was Guest Editor for RFIC and Roger Pollard was Guest Editor for ARFTG. We appreciate the conscientious work of the reviewers listed to the right.
