Corrections to "Microwave Power Applications"

John M. Osepchuk

The references in the above paper¹ to the work on SPS/MPT in Japan were incomplete and not completely accurate. They should include Mitsubishi Heavy Industries Ltd. (MHI), Mitsubishi Research Institute Inc. (not Mitsubishi Electric Corporation), as well as the National Space Development Agency of Japan, Radio Science Center for Space and Atmosphere (Kyoto University), Shimizu Corporation, and Sekisui Jushi Corporation. The precise name for Matsushita is the Matsushita Electric Instruments Corporation.

In the Acknowledgments section, only R. Fritts, T. Miller, J. Gugliuzza, C. Coon, and S. Sandersfeld are associated with Amana Appliances, Amana, IA.

Manuscript received May 21, 2002.

The author is with Full Spectrum Consulting, Concord, MA 01742 USA (e-mail: JMOsepchuk@cs.com).
