

## INFORMATION FOR AUTHORS

The JOURNAL OF LIGHTWAVE TECHNOLOGY is published monthly. It is comprised of original contributions covering work in all aspects of optical guided-wave science, technology, and engineering. Manuscripts are solicited that report original theoretical and/or experimental results that advance the technological base of guided-wave technology. Tutorial and review papers are by invitation only. Topics of interest include the following: fiber and cable technologies, active and passive guided-wave componentry (light sources, detectors, repeaters, switches, fiber sensors, etc.), integrated optics/optoelectronics, systems/subsystems, networks, switching, new applications, and unique field trials. System-oriented manuscripts should be concerned with systems that perform a function not previously available, out-perform previously established systems, or represent enhancements in the state of the art in general. "Information for IEEE Transactions and Journals Authors" is available on request from IEEE Publishing Services, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331.

**Submission instructions:** Manuscripts should be submitted electronically to Doug Hargis, JLT Publications Coordinator, at [d.hargis@ieee.org](mailto:d.hargis@ieee.org). Manuscripts may be sent in .pdf or Word format for review purposes; however, after a paper is accepted, the files must be formatted according to IEEE production requirements (text and art saved separately in approved applications). Please try to adhere to the accepted style of the JOURNAL as much as possible. The reference list is of particular importance.

Authors are reminded that changes to their paper version must also be incorporated into their disk version. Do not try to be overly fancy; you would be better off spending your time "fine-tuning" the content and leaving the format to the publisher. Please try to adhere to the accepted style of this JOURNAL as much as possible. The reference list is of particular importance:

*Paper:*

[1] D. L. Snyder, L. J. Thomas, Jr., and M. M. Ter-Pogossian, "A mathematical model for positron-emission tomography systems having time-of-flight measurement," *IEEE Trans. Nucl. Sci.*, vol. 28, pp. 3575-3583, Dec. 1981.

*Book:*

[2] W. A. Edson, *Vacuum Tube Oscillators*. New York: Wiley, 1948, pp. 170-171.

Please submit your paper for review in an electronic file containing 1) a cover letter stating that the paper includes new material that has not been previously published, 2) the complete manuscript, 3) up to eight Index Words or Keywords (a list of approved terms may be obtained by e-mailing [keywords@ieee.org](mailto:keywords@ieee.org)), 4) references, which must include full titles and first and last page numbers of articles, 5) short biographies of all authors (photographs are optional), and 6) the completed copyright release form.

**Preparing accepted papers for production:** Immediately after a manuscript has been accepted, the corresponding author must send Doug Hargis at the **J-LT Editorial Office** an e-mail, disk, or CD-ROM containing files in the required format: text saved separately, preferably in Word, Tex, or LaTex; figures and photos saved individually, in .eps, .ps, or .tif format.

The following is a list of general guidelines for submission of electronics media by prospective authors: 1) The operating system and word processing software used to produce your document should be noted on your disk, CD-ROM, or tape (e.g., DOS/WordPerfect). In the case of Unix media, the method of extraction (i.e., tar, bar, dump) should also be noted. 2) The disk/tape should be labeled with the file name(s) relating to the manuscript. 3) No program files should be included on the disk. 4) Package disks in such a way as to minimize possible damage in transit. 5) Include a flat ASCII version on the disk with the word-processed version, if possible.

While the list of processing programs acceptable is almost endless, there are preferred programs that, when used, enable the preservation of the greatest amounts of information. TeX and LaTeX are preferred. An IEEE LaTeX style file, *IEEE Trans. Sty.* is obtained by authors who e-mail a request to [help@ep.ieee.org](mailto:help@ep.ieee.org). The following points are important to remember when submitting electronic manuscripts (compuscripts) in TeX or LaTeX: 1) Include all macros (.def) that are required to produce your document. 2) IEEE JOURNAL style dictates a 21-pica (3.5-in.) column width. If mathematical phrases are produced with this in mind, they are apt to appear more aesthetically pleasing in the final version.

The IEEE will accept 1) any IBM-PC (or 100% compatible) disk format: 2.5-in./360k/1.2 MB—3.5-in./720k/1.44 MB (DS/DD, DS/HD, DS/QD, etc.); 2) Macintosh disk format (low and high density); 3) 0.25-in. magnetic tape cartridges (Unix: tar, bar, dump); 4) 3.5-in. floppy disk (Unix: tar, bar, dump); 5) 8-mm tape cartridges (Unix: tar, bar, dump). If in doubt, do not hesitate to inquire using [help@ep.ieee.org](mailto:help@ep.ieee.org).

**Copyright:** It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interest of the IEEE, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. To comply with IEEE policy under the U.S. Copyright Law, authors are required to sign an IEEE copyright transfer form before publication. This form, a copy of which appears in each January issue of this JOURNAL, returns to authors and their employers full right to reuse their material for their own purposes. Authors must submit a signed copy of this form with manuscripts. The form and further information can be found at: <http://www.ieee.org/copyright/cfrmlink.htm>

Complete information for submitting text and graphics electronically can be found at: <http://www.ieee.org/organizations/pubs/transactions/information.htm>. All correspondence must be sent to the **J-LT Editorial Office** at the address on the inside front cover of this JOURNAL.

**Page Charges:** After a manuscript has been accepted for publication, the author's company or institution will be asked to pay page charges of \$110 per page to cover part of the cost of publication. In addition, overlength page charges of \$260 per page are *mandatory* for each page in excess of eight printed pages and are required for publication. Page charges (first eight pages only) for this JOURNAL are not obligatory, nor is their payment a prerequisite for publication. The author will receive 100 free reprints without covers if the charge is honored. Detailed instructions will accompany the galley proof.

## Journal of Lightwave Technology 2003 SUBSCRIPTION ORDER FORM

*This JOURNAL is published monthly.*

2003 Subscription Prices (Surface Delivery)					† Optional (additional) Air Freight Charge
OSA Member					
<b>IEEE Member</b> \$35.00	<b>Print and Online</b>	<b>Print and Online</b>	<b>Online Only</b>		
<b>Nonmember</b> \$1025.00	<b>Regular Member:</b> USA/Canada/Mexico/PUAS    \$56.00	<b>Student Member:</b> USA/Canada/Mexico/PUAS    \$30.00	<b>Regular Member</b> \$42.00	<b>OSA Member</b> \$72.00	
	<b>Europe/Asia</b> \$143.00	<b>Europe/Asia</b> \$117.00	<b>Student Member</b> \$30.00	<b>IEEE</b> \$62.00	
				<b>Nonmember</b> \$87.00	

Member rates are restricted to members of OSA and/or members of one or more of seven IEEE Societies listed below.

† Available to all countries outside the U.S.A., Canada, and Mexico.

Contact the IEEE Service Center for the special rates for microfilm and microfiche editions, and other information.

Please enter my 2003 subscription. I hold the following Society membership(s):

OSA,  Aerospace and Electronic Systems,  Communications,  Electron Devices,  
 Instrumentation and Measurement,  Microwave Theory and Techniques,  Lasers and Electrooptics,  
 Ultrasonics, Ferroelectrics, and Frequency Control.

**To claim member rate, enter member number below:**

OSA Member No. \_\_\_\_\_ IEEE Member No. \_\_\_\_\_

Subscription Price \$ \_\_\_\_\_ Air Freight Charge \$ \_\_\_\_\_

**Total Amount Enclosed \$ \_\_\_\_\_**

Depending on your membership, make check to either OSA or IEEE in U.S. dollars drawn on a U.S. bank.

Name: \_\_\_\_\_

Street Address: \_\_\_\_\_

City: \_\_\_\_\_

State/Postal Code/Country: \_\_\_\_\_

*Photocopy this form and return with payment to either:*
