

# IEEE TRANSACTIONS ON MICROWAVE THEORY AND TECHNIQUES

A PUBLICATION OF THE IEEE MICROWAVE THEORY AND TECHNIQUES SOCIETY

FEBRUARY 2000

VOLUME 48

NUMBER 2

IETMAB

(ISSN 0018-9480)

## MINI-SPECIAL ISSUE ON RESEARCH REPORTED AT THE 1999 RADIO FREQUENCY INTEGRATED CIRCUITS (RFIC) SYMPOSIUM

---

Guest Editor's Overview ..... *J. P. Mondal* 169

---

### MINI-SPECIAL ISSUE PAPERS

5-GHz SiGe HBT Monolithic Radio Transceiver with Tunable Filtering .....  
..... *M. A. Copeland, S. P. Voinigescu, D. Marchesan, P. Popescu, and M. C. Maliepaard* 170

A New GaAs Variable-Gain Amplifier MMIC with a Wide-Dynamic-Range and Low-Voltage-Operation Linear  
Attenuation Circuit ..... *M. Inamori, K. Motoyoshi, T. Kitazawa, K. Tara, and M. Hagio* 182

Balanced Monolithic Oscillators at *K*- and *Ka*-Band ..... *K. S. Ang, M. J. Underhill, and I. D. Robertson* 187

A DC-20-GHz InP HBT Balanced Analog Multiplier for High-Data-Rate Direct-Digital Modulation and Fiber-Optic  
Receiver Applications ..... *K. W. Kobayashi,  
R. M. Desrosiers, A. Gutierrez-Aitken, J. C. Cowles, B. Tang, L. T. Tran, T. R. Block, A. K. Oki, and D. C. Streit* 194

---

### MINI-SPECIAL ISSUE SHORT PAPERS

A Single-Chip SI-Bipolar 1.6-GHz VCO with Integrated-Bias Network .....  
..... *M. Zannoth, J. Fenk, A. Springer, and R. Weigel* 203

A Low-Power 15-GHz Frequency Divider in a 0.8- $\mu$ m Silicon Bipolar Technology .....  
..... *H. Knapp, W. Wilhelm, and M. Wurzer* 205

A Plastic Package GaAs MESFET 5.8-GHz Receiver Front-End with On-Chip Matching for ETC System .....  
..... *E. C. Low, K. Yan, H. Nakamura, and H. I. Fujishiro* 209

---

(Contents Continued on Back Cover)

CONTRIBUTED PAPERS

|                                                                                                                                    |                                                                                             |     |
|------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|-----|
| Eigenvalues for Waveguides Containing Re-Entrant Corners by a Finite-Element Method with Superelements .....                       | <i>B. Schiff and Z. Yosibash</i>                                                            | 214 |
| Reduction of Intermodulation Distortion in Microwave Active Bandpass Filters—Theory and Experiments .....                          | <i>K.-K. M. Cheng and S.-C. Chan</i>                                                        | 221 |
| A Full-Wave Electromagnetic Model for the Waveguide-to-Strip-Line Coupler Using Vias for Confinement of Parallel-Plate Modes ..... | <i>A. Østergaard</i>                                                                        | 226 |
| Magnetostatic-Wave Envelope Soliton in Microstrip Line Using YIG-Film Substrate.....                                               | <i>M. Tsutsumi, T. Ueda, and K. Okubo</i>                                                   | 239 |
| Characterization of Flicker Noise in GaAs MESFET's for Oscillator Applications....                                                 | <i>P. A. Dallas and J. K. A. Everard</i>                                                    | 245 |
| Characteristics of Generalized Rectangular and Circular Ridge Waveguides.....                                                      | <i>Y. Rong and K. A. Zaki</i>                                                               | 258 |
| On RF Material Characterization in the Stripline Cavity .....                                                                      | <i>C. M. Weil, C. A. Jones, Y. Kantor, and J. H. Grosvenor, Jr.</i>                         | 266 |
| A CPW-Fed Microstrip Patch Quasi-Optical Amplifier Array .....                                                                     | <i>S. C. Ortiz, T. Ivanov, and A. Mortazawi</i>                                             | 276 |
| A PEEC with a New Capacitance Model for Circuit Simulation of Interconnects and Packaging Structures.....                          | <i>Y. Cao, Z.-F. Li, J.-F. Mao, and J.-F. Mao</i>                                           | 281 |
| Electrooptic Mapping and Finite-Element Modeling of the Near-Field Pattern of a Microstrip Patch Antenna .....                     | <i>K. Yang, G. David, J.-G. Yook, I. Papapolymerou, L. P. B. Katehi, and J. F. Whitaker</i> | 288 |
| Accurate and Efficient Numerical Method for the Analysis of Multimode Waveguide Discontinuities .....                              | <i>P. Pannier, L. Kadri, C. Sequinot, P. Kennis, and F. Huret</i>                           | 295 |

---

CONTRIBUTED SHORT PAPERS

|                                                                                                                                        |                                                      |     |
|----------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|-----|
| Numerical Analysis of Complicated Waveguide Circuits on the Basis of Generalized Scattering Matrices and Domain Product Technique..... | <i>V. P. Chumachenko and V. P. Pyankov</i>           | 305 |
| Efficient Evaluation of Spatial-Domain MoM Matrix Entries in the Analysis of Planar Stratified Geometries .....                        | <i>N. Kinayman and M. I. Aksun</i>                   | 309 |
| CAD Models for Asymmetrical, Elliptical, Cylindrical, and Elliptical Cone Coplanar Strip Lines .....                                   | <i>Z. Du, K. Gong, J. S. Fu, Z. Feng, and B. Gao</i> | 312 |
| Power and Noise Limitations of Active Circulators.....                                                                                 | <i>G. Carchon and B. Nauwelaers</i>                  | 316 |
| Analysis of Elliptical Waveguides by Differential Quadrature Method.....                                                               | <i>C. Shu</i>                                        | 319 |
| Time-Domain Modeling of High-Speed Interconnects by Modified Method of Characteristics .....                                           | <i>Q. Xu, Z.-F. Li, P. Mazumder, and J.-F. Mao</i>   | 323 |

---
