

# Announcement

Professor Bernard Martin has retired from his position as an Editor-in-Chief of the *International Journal of Heat and Fluid Flow*. It is for me a great pleasure and privilege to recognize the sterling service he has given to the journal since its inception.

The journal was founded jointly by Professor Martin and Professor H. Marsh, and its establishment as a journal pre-eminent in its field could not have been achieved without their valuable contributions. A fuller appreciation will be published in a future issue of the journal.

In the meantime, and with immediate effect, contributors to the journal are asked to note the new arrangements for receipt of new submissions following Professor Martin's retirement. Full details are given in the Notes for Authors appearing in each issue of the journal.
