

CONTENTS

| | |
|---|-----|
| Investigation of the influence of the Reynolds number on a plane jet using direct numerical simulation M. Klein, A. Sadiki and J. Janicka | 785 |
| The turbulent character and pressure loss produced by periodic symmetric ribs in a circular duct S.A. Jordan | 795 |
| Local heat transfer around a wall-mounted cube at 45° to flow in a turbulent boundary layer H. Nakamura, T. Igarashi and T. Tsutsui | 807 |
| Investigation of bed shear stresses subject to external turbulence N.-S. Cheng, B.M. Sumer and J. Fredsøe | 816 |
| Simulations of flow through open cell metal foams using an idealized periodic cell structure K. Boomsma, D. Poulikakos and Y. Ventikos | 825 |
| Non-linear dynamics and pattern formation in a vertical fluid layer heated from the side D.A. Bratsun, A.V. Zyuzgin and G.F. Putin | 835 |
| An analytical model for the determination of stability boundaries in a natural circulation single-phase thermosyphon loop M. Maiani, W.J.M. de Kruijf and W. Ambrosini | 853 |
| Transient numerical simulation of buoyancy driven flow adjacent to an elliptic tube F.M. Mahfouz and S. Kocabiyik | 864 |
| Combined forced and free flow in a vertical rectangular duct with prescribed wall heat flux A. Barletta, E.R. di Schio and E. Zanchini | 874 |
| Convection regimes and heat transfer characteristics along a continuously moving heated vertical plate S.A. Al-Sanea | 888 |
| Modeling of droplet entrainment phenomena at a quench front M.J. Holowach, L.E. Hochreiter, J.H. Mahaffy and F.B. Cheung | 902 |
| Absorption of thermal radiation in a semi-transparent spherical droplet: a simplified model L. Dombrovsky and S. Sazhin | 919 |
| Experimental investigations of an air curtain device subjected to external perturbations M. Havet, O. Rouaud and C. Solliec | 928 |
| Author index to volume 24 | 931 |
| Keyword index to volume 24 | 935 |
