

CONTENTS LISTS

JOURNAL OF ENGINEERING PHYSICS

Volume V, No. 10

October, 1962

	<i>Page</i>
I. N. SADIKOV: Some exact solutions of the energy equation for a plane flow of a viscous incompressible fluid	3
V. F. MIRONOV: Heat and mass exchange of differently shaped bodies with a steady and pulsating air flow	9
V. Y. CHEKHOVSKY, B. Y. SHUMYATSKY and K. A. YAKIMOVICH: Experimental study of tungsten enthalpy in the temperature range from 350° to 2000°C	13
P. M. KESSEL'MAN and A. G. TABACHNIKOV: On determination of the equilibrium constant for the reaction of ammonia dissociation over wide temperature and pressure ranges	19
L. S. SLOBODKIN: Study of heat and mass transfer between a gas and isolated grains	26
Z. R. GORBIS: Differential equations of heat transfer in dispersed flows of the "moving bed" type	32
V. V. USTIMOV: Temperature and voltage fields in destruction of materials by means of thermal breakdown	40
Z. F. SLEZENKO: Local method for direct measurement of the boundary-layer velocity profile of a non-uniformly heated flat plate	47
I. I. SIDOROVA: Study of the feedback-reactor dynamics by means of electrical modelling	53
A. P. IVANOV, B. M. BERKOVSKY and I. L. KATSEV: Reflection and transmission of a plane layer within the limits of non-linear optics	58
K. I. STRAKHOVICH and Y. A. SOKOVISHIN: Laminar jet outflow of a conducting gas into the space with a magnetic field	65

Notes

V. D. ERMOLENKO: A new method for determining the moisture diffusion coefficient of moist materials	70
A. E. POTAPENKO and P. P. KOSTENKO: The effect of an electrical field on flame	73
R. G. GEINTS: On a semigraphical method for calculation of roots of performance equations with the Bessel functions of the first and second kind	77
M. A. GOL'DSHTIK: A Prandtl tube with a thermoclinometer	82
V. V. DIL'MAN: One-dimensional problem of non-stationary convective diffusion	86
I. S. ZHITOMIRSKY and S. B. KUZ'MINSKAYA: The effect of a cooled wall on the temperature of charge and gas in a counterflow	89
I. F. VOLOSHIN: An analytical solution for the transient process equation in a linear resistance-thermistor circuit	93

Discussion

E. S. SLOBODKINA: On heat transfer calculations for building constructions	97
I. P. ZHUK: Calculation of a temperature field in a multilayer wall	100
A. G. TEMKIN: A temperature field of a multilayer wall	104
A. A. TSID: Temperature measurements of white and black surfaces with various orientations	118

Chronicle

I. T. EL'PERIN: The Kaunas symposium on convective heat transfer in an incompressible liquid flow	125
---	-----

Criticism and Bibliography

G. N. DUL'NEV, M. A. KAGANOV and I. S. LISKER: Review on the monograph by A. G. Blokh <i>Fundamentals of Radiation Heat Transfer</i> , Gosenergoizdat, Moscow-Leningrad, 1962	130
---	-----

Reader's Guide

Contents list of the <i>International Journal of Heat and Mass Transfer</i>	132
---	-----

Letters to the Editor

S. I. KOSTERIN, Y. A. KOSHMAROV and Y. V. OSIPOV: Remarks on the paper published in the <i>Journal of Engineering Physics</i> No. 4, 1962	137
---	-----

Volume V, No. 11

November, 1962

	<i>Page</i>
V. A. MUKHIN, A. S. SUKOMEL and V. I. VELICHKO: Experiments on heat transfer of a supersonic gas flow in a circular tube with great temperature heads	3
Y. I. DANILOV and B. M. GALITSEISKY: Solution for an equation of gas motion in a rectangular channel with friction and heat transfer	8
A. V. LUIKOV: Heat and mass transfer with evaporation	12
I. R. MIKK: On calculation of an angular factor for radiant systems with a ray absorbing medium	25
B. M. SMOLSKY and P. A. NOVIKOV: On the mechanism of heat and mass transfer with sublimation in vacuum	41
M. P. SHATUNOV and V. F. SOVKIN: Definition of grinding temperatures based on natural boundary conditions for contact and non-contact periods	48
K. DRAMINSKA and B. STEPLEWSKI: Diagrammatical calculation of rectifying columns with additional lateral supply of binary mixtures	56
A. G. SHASHKOV: Self-oscillations in thermistor circuits	64
N. I. GAMAYUNOV: Some problems of heat and mass transfer	74

Notes

P. N. ROMANENKO and A. I. LEONTYEV: On the resistance law for diffuser flows with a turbulent boundary layer	87
V. A. NAYER and S. A. ROZHENTSEVA: On the design of semiconductor coolants and heaters for liquid flows	90
M. A. GOL'DSHTIK: A method for oscillogram interpretation	95
A. E. DOL'NIKOV: Determination of forces caused by vortices	97
V. A. BORODULYA and A. I. TAMARIN: The use of an instantaneous point heat source for studying particles agitation in a fluidized bed	101
M. D. MIKHAILOV: Asymmetric heating of an infinite plate	105

Survey

A. S. PREDVODITELEV: The state equation for condensed media (Part II, experimental)	110
---	-----

Prominent Soviet Scientists

VALENTIN SEMYONOVICH ZHUKOVSKY	131
--------------------------------	-----

Book Review

B. M. SMOLSKY: V. G. KAMENSKY's monograph <i>Lightened Wall Constructions in House Building</i>	133
---	-----

Reader's Guide

Contents list of the <i>International Journal of Heat and Mass Transfer</i> , Vol. 5, August 1962	135
New books	137

Volume V, No. 12

December, 1962

	<i>Page</i>
V. M. BORISHANSKY and A. P. KOZYREV: Generalization of experimental data on heat transfer with nuclear boiling on the basis of thermodynamic similarity	3
V. S. PELEVIN: Determination of the place of a maximum temperature and of flame velocity in a turbulent flow of a homogeneous mixture	9
S. I. KOSTERIN, N. I. YUSHCHENKOVA, N. T. BELOVA and B. D. KAMAEV: An investigation into the effect of supersonic-flow rarefaction on readings of impact-pressure probes	16
V. V. SKOBUNOV: Measurement of fluctuation velocity components by a unifilar hot-wire anemometer	23
I. I. PERELSHTEIN: Experimental study of thermal properties of an azeotrope mixture composed of Freon-124 and Freon-C318	27
M. V. LYKOV, B. I. LEONCHIK and O. L. DANILOV: The ways of intensification of atomizing drying	34
N. V. CHURAEV: Radioactive-tracer technique for investigation of moisture-transport mechanism of drying	41
A. P. BASKAKOV: Hydrodynamics of a fluidized bed in interstitial channels of a packing	48
B. M. DEGTYAREV: On filtration and capillary properties of grounds at vacuum	54
V. V. POMERANTSEV and G. K. EKIMOV: Approximate methods for estimating the conditions of slightly loose-materials conveyance by sleeves	59

Page

D. L. BRODER, A. A. KUTUZOV, V. V. LEVIN and V. V. FROLOV: An application of methods of yield cross-section to the calculation of defence without hydrogen	65
G. F. MUCHNIK and I. A. ZAIDENMAN: Non-stationary heat conduction in multilayer media. I. General solutions for plane systems	71

Notes

V. G. ABBAKUMOV: Convective heating of an unmovable layer of a plate	77
P. A. NOVIKOV: The effect of radiant component on heat transfer character with sublimation in vacuum	80
S. M. POKROVSKY: Calculation of heat transfer in furnace chambers of steam boilers working on a liquid fuel	84
G. F. SHAIDUROV: On measuring the wall temperature	86
A. V. AMITIN and A. M. YAKUBSON: Determination of fine-solids entrainment from a fluidized bed	91
M. I. SHCHEKOLDIN: Heat capacity of moist granular material	94
V. N. ZHILENKOV: On determination of water capillary pressure in concrete	96
N. A. FUKS, I. B. STECHKINA and V. A. STAROSEL'SKY: Determination of particle size distribution in aerosols by the diffusion method	100
I. R. KRICHEVSKY and Y. V. TSEKHANSKAYA: Photodissociation of iodine in carbon dioxide solutions at critical conditions	104
I. R. TAMUROV: Calculation of non-stationary temperature fields in a two-layer plate	108

Survey

G. D. BURDUN: International system of units and modern reference standards of initial measurement units	113
---	-----

Reader's Guide

Contents list of the <i>International Journal of Heat and Mass Transfer</i> , Vol. 5, September 1962	130
Contents list of the <i>Journal of Engineering Physics</i> for 1962	132
