

## ANNOUNCEMENT

### FOURTH INTERNATIONAL HEAT TRANSFER CONFERENCE

THE Fourth International Heat Transfer Conference will be held from Monday 31 August until Saturday 5 September, 1970 (provisional date) in Paris, under the auspices of the Société Française des Thermiciens, the Verfahrenstechnische Gesellschaft in the VDI and the DECHEMA.

The problems treated will be in the field of Heat Transfer concerning the following subjects:

- Thermal radiation
- Conduction
- Forced convection
- Natural convection
- Boiling and condensation
- Combined heat transfer (also evaporation, granular beds, fluidized beds)
- Heat transfer in rheological systems
- Heat exchangers (also vibrations, extended surfaces, etc.)
- Measuring techniques

For the selection of contributions an abstract should be submitted, one typewritten page in length, in either English, French or German, before 1 March, 1969. Preference should be given to SI units. These abstracts should be sent to a member of the Scientific Committee, listed below, preferably to one with command of author's language.
