

ERRATUM

R. C. BIRKEBAK, J. P. DAWSON, B. A. McCULLOUGH and B. E. WOOD, Hemispherical reflectance of metal surfaces as a function of wavelength and surface roughness, *Int. J. Heat Mass Transfer* 10(9), 1225–1232 (1967).

Page 1230, column 2, the fourth paragraph should read:

A word of caution about using equation (1) for very

small values of wavelength compared to surface roughness. Porteus [11] has demonstrated the inadequacies of the RMS roughness σ , the RMS slope M , and the autocovariance length of a for describing the reflectance under these conditions.

Page 1231, column 2, after line 5 insert the words

normalized result. This technique thus gives a
