

CONTENTS LISTS

JOURNAL OF ENGINEERING PHYSICS

(Published in the U.S.S.R in Russian with English abstracts)

Volume XX, No. 4

April, 1971

	<i>Page</i>
V. P. BOBKOV, M. KH. IBRAGIMOV and V. I. SUBBOTIN: Statistic characteristics of a temperature field for a gas-water mixture flow in a tube	581
E. A. MAKSIMOV and M. V. STRADOMSKY: Some peculiarities of heat transfer in porous media	588
E. K. KALININ and S. A. YARKHO: The study of heat transfer intensification in gas and liquid flows in tubes	592
V. M. BORISHANSKY, I. I. PALEEY, K. M. AREFIEV, N. I. IVASHCHENKO, T. V. ZABLOTSKAYA, B. M. KHOMCHENKOV and N. M. FISHMAN: Cesium vapour condensation out of an argon flow	600
L. K. TSABEK and G. M. PANCHENKOV: Direct and reverse problems of sorption dynamics without equilibrium at phase interface	607
N. I. BASOV and I. I. PHELIPCHUK: Nonisothermal polymer flow with phase transition of the first kind	615
V. L. SERGEEV, G. M. BEZLADNOV and V. D. LYASHKEVICH: Experimental study of a blunt body beating by a plasma flow	622
A. S. SERGIENKO and A. G. SHASHKOV: Dynamic voltage-current characteristics of a linear plasma generator	628
A. F. CHUDNOVSKY and B. L. SHINDEROV: Semi-conductor film thermoelectric elements as radiation temperature probes	633
V. P. DUSHCHENKO, I. A. ROMANOVSKY, YA. V. OLENKO and I. I. POBEREZHETS: The influence of moisture bond form on dielectric properties of cellulose	642
L. E. GOLOVICH, YU. P. SANKO and A. G. SHASHKOV: Experimental study of thermal conductivity of aqueous solutions of nitric and sulphuric acids at low temperatures	647
E. A. BELSKAYA and A. S. TARABANOV: Experimental study of electric conductivity of highly porous carbon-graphite materials	654
R. M. YABLONIK and V. A. KHAIMOV: Determination of the initial velocity of film break-away in a two-phase flow by the method of drop-wise liquid indication	660
P. N. ROMANENKO and V. G. KALMYKOV: Shear stress distribution in an incompressible boundary layer	666
B. G. GANCHEV, V. M. KOZLOV and V. V. LOZOVETSKY: Study of nonoutflowing liquid film flow along a vertical surface and heat transfer to it	674
A. S. SHABOLTAS and O. I. YASKO: Study and generalization of current-voltage characteristics of electric arc moving under magnetic field action in an annular gap	683
B. A. KOLOVANDIN and I. A. VATUTIN: Statistical theory of scalar substance transfer at nonhomogeneous turbulence	690
P. A. NOVIKOV and E. A. VAGNER: The study of heat and mass transfer at sublimation in a forced rarefied gas flow	700
P. A. KRAMARENKO: Experimental study of heat transfer in narrow slit channels	706
L. M. VYAZMENSKAYA: Acoustic radiation of subsonic turbulent jets	711
V. I. VORONIN: Nonlinear liquid filtration through porous semispace with a groove at power-law resistance	717
V. P. SKRIPOV and E. N. DUBROVINA: Boiling crisis temperature at high pressures	725
A. G. FIKINA and I. K. FIKINA: Calculation of the time of cooling of the solids of various geometry	730

Abstracts of Deposited Papers

N. F. POTIENKO and V. A. TSYMARNYI: Thermal conductivity of benzene and toluene at various pressures and temperatures	733
A. A. VASSERMAN, E. A. GOLOVSKY and V. A. TSYMARNYI: State equation and thermodynamic properties of carbon dioxide below 2500 bar	734
M. A. PLOTNIKOV, A. A. ANTANOVICH, YU. A. SADKOV, V. V. POPOV and E. A. KEMNITS: Steady-operation equipment for investigation of thermophysical properties in gaseous medium at high pressure and temperature	734
P. M. KESSELMAN, V. R. KAMENETSKY and A. P. VOLOSHIN: Calculation of real gas viscosity on the basis of appropriate state principle	735
V. P. MARDANENKO, V. G. EMELIANCHENKO and V. G. BENKOVSKY: Dispersion of conducting liquid droplets in dielectric medium with recharging on electrodes in an electric field	736
V. M. BARANOV and YU. V. MILOSERDIN: Methods of determining elastic properties of small materials samples at high temperature	737

G. YA. BORODYANSKY: The flow of an axi-symmetric jet into semi-infinite space out of a turbulent region	738
SH. NURIDDINOV: Convective heat transfer in a prismatic triangular section tube	738
L. A. BROVKIN and L. S. KRYLOVA: The method of solving a heat conduction problem with non-linear heat transfer laws at body boundaries	739
S. V. DAVYDOV: The accuracy of boundary-value problem solution with combined models	740
D. V. GRILITSKY and I. N. OSIV: Basic boundary-value thermoelastic problems for a circular cylinder	741

Book Review

A. V. PRESNYAKOV and YU. V. CHIKHALOV: Review of the collected papers "Advances in Heat Transfer" edited by V. M. BORISHANSKY, Izd. "Mir", 1970	743
---	-----

Reader's Guide

Heat and Mass Transfer Bibliography	746
Contents List of the <i>International Journal of Heat and Mass Transfer</i> , Vol. 13, No. 78 (1970)	756

JOURNAL OF ENGINEERING PHYSICS*(Published in the U.S.S.R. in Russian with English abstracts)*

Volume XX, No. 5

May, 1971

Page

M. N. GAMREKELI and V. I. DAVYDOV: Determination of boundary temperatures and dimensions of evaporation region in spray dryer	773
M. S. PANCHENKO, A. L. PANASYUK and A. S. MOSIEVICH: Thermodynamics of moisture held by capillary-porous models	782
V. M. KAZANSKY: Equilibrium moisture content of disperse bodies at various temperatures	787
V. F. DUNSKY, N. V. NIKITIN and N. F. TONKACHEVA: Drop-satellites formed in liquid spraying by a rotating disc	792
A. S. NEVSKY and YU. M. ABZALOV: Radiation heat transfer in a piece layer	796
S. P. DETKOV: Gas absorption power in a complete spectrum	802
A. A. MEN: General case of mirror-diffusional reflection of radiation at flat layer boundaries under radiation-conduction heat transfer	809
I. I. KOCHANOVA: Kinds of motion at gravitational outflow of loose materials	815
P. N. PLATONOV and V. S. POLTORAK: Displacement of loose materials over surfaces	822
V. E. DAVIDSON, A. P. TOLSTOPYAT and N. P. FEDORIN: Effect of gas filtration on loose material flow rate from bunker	827
F. R. SHKLYAR, V. N. TIMOFEEV, V. S. SHVYDKY, YU. G. YAROSHENKO and B. A. BOKOVIKOV: Development of transient thermal processes in layer counter-flow apparatuses and heat exchangers	832
A. T. GRANIK: One-dimensional stability of normal gas burning in a constant magnetic field	841
V. M. POPOV and M. S. LAZAREV: Determination of contact thermal resistance of systems with wavy surfaces	846
V. P. DUSHCHENKO and YU. N. KRASNOBOKYI: Calorimetric study of molecular movability in filled plasticized epoxy resin	853
L. A. GORYAINOV: Admixture diffusion in melt when making crystals by Bridgeman method	859
G. A. AKSELUD and JA. M. GUMNITSKY: Effect of liquid pulsations on the efficiency of ionite layer application	867
B. S. CHURKIN: Analytic study of temperature variation in a metal alloy flow when filling sand molds	872
P. A. NOVIKOV and L. A. SHCHERBAKOV: Study of heat transfer in a flow of rarefied gas in narrow channels	879
A. M. GOLOVIN and E. D. SERGIEVSKY: Flow in a laminar boundary layer with intense injection and radiation heat transfer	884
I. A. BELOV, G. F. GORSHKOV, V. S. KOMAROV and V. S. TERPIGORIEV: Experimental study of heat transfer in a sub-sonic jet with a normally disposed flat obstacle	893
B. A. BALANIN: Some similarity parameters in supersonic jet propagation in a step channel	898
M. G. MOROZOV: Temperature of adiabatic surface at a vortex boundary layer	903
V. I. NEMCHENKO: Study of closing shock in a supersonic submerged underexpanded gas jet	909

Shorter Communications

V. I. POPOV: Visco-elastic liquid flows at higher shear stresses	918
V. N. KOZLOV: Solution of unsteady-state heat conduction problems with a variable heat conduction	921
A. D. VITOKHIN and E. M. VOLF: Simulation of temperature fields in vacuum	925

Abstracts of Deposited Papers

G. A. AKSELUD, A. D. MOLCHANOV and I. N. FIKLISTOV: Mass transfer between a solid particle and fluid in a fluctuation field excited by spark discharges	928
YU. D. BARULIN, YU. V. VIKHREV, B. V. DYADYAKIN, A. N. KOBLYAKOV, A. S. KONKOV, V. A. LOKSIN and I. T. SINITSYN: Heat transfer for a turbulent flow in vertical and horizontal tubes of water with supercritical state parameters	929
M. V. SUSHCHIKH and E. F. MOSIN: Free convection from a vertical plate with a prescribed heat flux in the medium with constant temperature gradient	930
P. M. KESSELMAN, A. P. VOLOSHIN and V. R. KAMENETSKY: Generalization and extrapolation of experimental data for rarefied gas thermal conductivity	931
N. V. PASHATSKY, B. A. LETNITSKY and I. A. TOLSTOV: Calculation of parameters of gas with particles in a plasma generator nozzle	932

V. P. GANIN: Experimental study of pressure gradients for thermal-moist concrete treatment	933
YU. A. NAPARIIN, A. N. PARSHAKOV, V. A. SIPAILOV and V. I. SHAKHURDIN: Calculation of temperature fields from movable sources in cylindrical bodies	934
A. M. BERMAN, V. A. TUMANOV and A. KH. FARUKSHIN: Temperature distribution in a two-round plates system	935
A. G. RAMM: Iterational methods of solving some problems of thermostatics	936
V. L. POKHORILER: Solution of heat conduction problems for a hollow cylinder on analog computers by the method of transmission function	938
A. V. EITUTIS: Calculation of cast temperature in a mold for pressure casting by electronic digital computer	938
P. I. KHRISTICHENKO, V. S. SEREBRO and N. V. NAUMENKO: Temperature stresses in metal guide of installation for low-pressure filling up	939
YU. V. BALASHOV: Unsteady-state temperature stresses in edges of holes in power-plants walls	940
E. A. NEPOMNYASHCHII and S. G. GUREVICH: Dense sedimentation of polydisperse particles in a centrifugal field	940

Prominent Soviet Scientists

International Max Jacson Prize Winner S. S. KUTATELADZE	952
---	-----

Letter to the Editor

B. A. KOLOVANDIN and I. A. VATUTIN: Addition to the paper "Static theory of scalar property transfer in non-homogeneous turbulence" (JEP, 20, No. 4, 1971)	944
--	-----

Reader's Guide

Content List of the <i>International Journal of Heat and Mass Transfer</i> , Vol. 13, Nos. 9 and 10 (1970)	946
--	-----

JOURNAL OF ENGINEERING PHYSICS*(Published in the U.S.S.R. in Russian with English abstracts)**Volume XX, No. 6**June, 1971**Page*

B. I. VERKIN, R. S. MIKHALCHENKO, V. A. PAVLYUK, YA. S. KOMISSAROV, A. G. GERZHIN and V. F. GETMANETS: Low-temperature heat insulation using diffraction	965
V. V. YAGOV and D. A. LABUNTSOV: Heat transfer intensification and boiling stabilization in very low pressure region	973
YU. A. KIRICHENKO and P. S. CHERNYAKOV: Determination of the first critical heat flux on flat heaters	982
I. G. MALENKOV: Break-off frequency of vapour bubbles depending on their sizes	988
L. G. VOLCHKOV, M. K. GORCHAKOV and F. A. KOZLOV: Effect of counter current combined convection on heat transfer in vertical liquid-metal heat exchangers	995
V. V. KASHIRNIKOV and A. A. RAYDNO: Calculation of unsteady heat transfer in laminar liquid flow along tubes of annular section	1003
V. V. SALOMATOV and E. M. PUZYREV: Effect of thermal radiation on a laminar boundary layer of nonabsorbing liquid	1008
V. E. NAKORYAKOV, A. P. BURDUKOV, A. I. GUVAKOV and G. P. KUZNETSOV: The study of local friction at initial section of a plane-parallel channel	1015
E. P. DYBAN, A. I. MAZUR and E. YA. EPIK: Flat air jet outflow into a blind pass	1020
V. YA. RIVKIND, G. M. RYSKIN and G. A. FISHBEIN: Spherical drop motion in a viscous flow	1027
YU. A. GOSTINTSEV, V. S. ILYUKHIN and P. F. POKHIL: Reverse stream regions in quickly-rotating supersonic gas flows and jets	1036
S. I. PROKOPETS: Generalized Couette flow with variable viscosity and mechanical energy dissipation	1042
L. B. GDALOVICH and B. M. KHUSID: Conjugated unsteady state heat transfer of a thin plate in an incompressible fluid flow	1045
I. POP: Development of a magnetohydrodynamic boundary layer	1053
A. N. KHOZE, A. P. BURDUKOV, V. E. NAKORYAKOV, B. G. POKUSAEV and V. A. KUZMIN: The study of convective heat transfer laws in a dynamic two-phase layer	1060
V. A. KALENDERIAN, V. V. KORNAKAKI and T. M. BATISHCHEVA: Local heat transfer of a moving layer with annular fins	1066
M. B. RIVKIN and V. A. SOROCHINSKY: Phase displacement at pneumatic transfer in a dense layer	1072
V. A. USPENSKY, V. I. SOLOVIEV and V. S. GURIEV: The study of velocity fields in a vortex dust collector	1078
I. A. DAVYDOV and S. S. BUDNEVICH: Study of equilibrium composition of nitrogen-helium mixture	1082
F. G. ELDAROV and T. I. ORLOVA: A compensational method of measuring thermal activity of fluids	1087
V. V. LEVDANSKY and N. V. PAVLYUKOVICH: Convective diffusion at evaporation in a macrocapillary	1093
V. S. NOVIKOV: Thermal conductivity of the contact between compressible rough surfaces	1096
E. M. KRAVCHUK and V. M. KRAVCHUK: Some approximate solutions of the Stefan problem	1100
I. F. BAKHAREVA: Variational principles of nonequilibrium thermodynamics	1105
A. A. SOLOVIEV: The study of nonuniform media state by acoustic methods	1111
K. D. VACHAGIN, M. G. SAIFULLIN, M. N. PERMINOV, N. I. KNYAZEV and G. V. VINOGRADOV: To the theory of non-Newtonian fluid filtration through porous media	1115

Letters to the Editor

A. S. GINEVSKY: To the publication of the book "Gas Dynamics of Diffusers and Exhaust Pipes of Turbo-Machines" by M. E. DEICH and A. E. ZARYANKIN	1119
M. E. DEICH and A. E. ZARYANKIN: On the letter of A. S. Ginevsky to the editorial office of the Journal of Engineering Physics	1121

Reader's Guide

Heat and Mass Transfer Bibliography	1124
Contents List of the <i>Journal of Engineering Physics</i> , Vol. 20 (1971).	1136
