### **SYMPOSIUM ON HEAT AND MASS TRANSFER PROBLEMS IN FOOD ENGINEERING**

"The International Union of Food Science and Technology and the European Federation of Chemical Engineering are organizing a *symposium* on "*Heat and mass transfer problems in food engineering*", which will take place in Wageningen, the Netherlands, from 24–27 October 1972.

Papers will be presented in the following sections: steady

and non-steady state heating or cooling, steady and non-steady state mass transfer and simultaneous heat and mass transfer.

Write for more information to the International Agricultural Centre, P.O. Box 88, Wageningen, the Netherlands".
