

HEAT TRANSFER BIBLIOGRAPHY—JAPANESE WORKS

YASUO MORI

Department of Physical Engineering, Tokyo Institute of Technology, Tokyo, Japan

APPLICATION AND OUTLOOK

- H. Akasaka, Study of heat load and energy consumption of a building, *Mem. Fac. Engng, Kagoshima Univ.* **17**, 107 (1975).
- R. Aoki, H. Tunakawa and T. Nishizawa, Effect of solids mixing on heat transfer in high density and low velocity pneumatic transportation of granular materials, *Kagaku Kogaku Ronbunshu (Trans. Chem. Engng, Japan)* **2** (5), 527 (1976).
- K. Fujikake, Study on air cooled heat exchanger with corrugated fin surfaces (1st report, Fin efficiency and overall efficiency of straight fin surfaces), *Trans. Japan. Soc. Mech. Engrs* **42** (356), 1224 (1976).
- Y. Hayashi, E. Hirai and N. Ito, An analysis of crossflow cooling towers—the change in the water flow rate is considered, *J. Chem. Engng, Japan (English)* **9** (6), 458 (1976).
- T. Ishimaru, N. Kokubo and R. Izumi, Performance of cross flow heat exchanger, *Trans. Japan. Soc. Mech. Engrs* **42** (355), 902 (1976).
- T. Kanki, S. Iuchi and Y. Kosugi, Flow of a rarefied gas induced by thermal gradient and thermo-molecular pressure effect in a circular tube, *J. Chem. Engng, Japan (English)* **9** (3), 186 (1976).
- K. Katayama, J. Shimazaki and H. Takemura, Researches on Simultaneous flow of heat and fluid through porous media (2nd report, experimental examination), *Trans. Japan. Soc. Mech. Engrs* **42** (364), 3948 (1976).
- M. Masubushi and A. Itoh, Dynamic analysis for a flat plate heat exchanger system, *Trans. Japan. Soc. Mech. Engrs* **42** (360), 2421 (1976).
- K. Soda, On-line simulation of thermal characteristics of nuclear fuel rod by electrically heated rod, *J. Nucl. Sci. Tech. (English)* **13** (9), 523 (1976).
- I. Sumita and K. Kotani, Fundamental experiment of potassium heat exchanger using principle of heat pipe, *J. Nucl. Sci. Tech. (English)* **13** (11), 648 (1976).
- T. Takahashi and G. Wakahama, A study on thermal stress in ice, *Low Temp. Sci. Hokkaido Univ. Ser. A* (33), 29 (1976).
- H. Yamashita, R. Izumi and S. Yamaguchi, Performance of cross flow heat exchanger with variable physical properties (1st report, in case where the overall heat-transfer coefficient is variable), *Trans. Japan. Soc. Mech. Engrs* **42** (364), 3954 (1976).

CHANGE OF PHASE

- Y. Bessho and H. Nishihara, Boiling acoustic emission and bubble dynamics in nucleate boiling, *J. Nucl. Sci. Tech. (English)* **13** (9), 520 (1976).
- T. Fujii, H. Honda, T. Nagata, M. Fujii and S. Nozu, Condensation of refrigerant 11 inside a horizontal tube (1st report, flow pattern and pressure drop), *Trans. Japan. Soc. Mech. Engrs* **42** (363), 3541 (1976).
- Y. Fujie, T. Okada, K. Miyazaki, S. Inoue and T. Suita, Incipient boiling of sodium in an annular channel heated by a single-pin with blockage, *J. Nucl. Sci. Tech. (English)* **13** (10), 596 (1976).
- Y. Fujita and K. Nishikawa, On the pressure correction term in the correlating equation of nucleate boiling heat transfer, *Trans. Japan. Soc. Mech. Engrs* **42** (361), 2871 (1976).
- T. Hashizume, S. Kawai and T. Machiyama, Some experimental investigations on the performance of heat exchanger with boiling, *Bull. Sci. Engng Res. Lab. Waseda Univ.* (75), 1 (1976).

- Y. Hayashi, H. Yuhara and K. Aoki, Researches on frost formation by forced convection (1st report, Experimental study), *Trans. Japan. Soc. Mech. Engrs* **42** (355), 885 (1976).
- Y. Hayashi, K. Aoki and H. Yuhara, Researches on frost formation by forced convection (2nd report, Theoretical study), *Trans. Japan. Soc. Mech. Engrs* **42** (355), 893 (1976).
