

Dedication to Sir Owen A. Saunders on his 80th birthday

IT IS WITH great pleasure that I dedicate this issue of the *International Journal of Heat and Mass Transfer* to Sir Owen Saunders in honour of his 80th birthday. I offer sincere congratulations on his remarkable career and achievements and join Sir Owen's friends and associates worldwide in wishing him continued good health.

During Sir Owen's long service as a Founder Editor, together with Ernst Eckert, the *International Journal of Heat and Mass Transfer* has grown from strength to strength and is one of the leading forums for the publication of research results of heat and mass transfer the world over. On behalf of Pergamon Press and the many thousands of readers and contributors, I should like to thank Sir Owen for his unstinting service to the Journal and to heat transfer and wish him all the best for the future.

ROBERT MAXWELL
