

# Heat transfer bibliography—Japanese works

YASUO MORI

Department of Mechanical Engineering, The University of Electro-Communications, Tokyo 182, Japan

and

RYOZO ECHIGO

Department of Mechanical Engineering, Tokyo Institute of Technology, Tokyo 152, Japan

(Received 8 May 1985)

## CONDUCTION

- F. Goto and R. Takahashi, An influence of thermal conductivity and heat transfer coefficient to the temperature distribution of piston model, *Trans. Japan Soc. mech. Engrs*, Series B 51(462), 624 (1985).
- Y. Kawashima and K. Nishimoto, A method for analyzing the thermal conduction problem by a dual difference equation, *Trans. Japan Soc. mech. Engrs*, Series B 50(455), 1727 (1984).
- K. Kawashimo, K. Morikawa and E. Nemoto, The mathematical analysis of nonlinear unsteady heat conduction (1st report, General fundamental idea), *Trans. Japan Soc. mech. Engrs*, Series B 51(462), 637 (1985).
- K. Kawashimo and K. Morikawa, Irreversible thermodynamical structure of heat conduction, *Bull. J.S.M.E.* (English) 27(231), 1932 (1984).
- K. Morikawa and K. Kawashimo, Analysis of heat conduction fields with moving boundary, *Bull. J.S.M.E.* (English) 27(231), 1938 (1984).
- E. Nemoto and K. Kawashimo, Unsteady state problems of nonlinear heat conduction materials (1st report, One-dimensional exponential models of  $\kappa = \text{constant}$ ), *Trans. Japan Soc. mech. Engrs*, Series B 50(459), 2639 (1984).
- Y. Niitsu, Analysis of temperature distributions in tubular specimen under high frequency induction heating, *Trans. Japan Soc. mech. Engrs*, Series B 51(462), 650 (1985).
- E. Ohmura, Y. Namba, S. Makinouchi and Y. Sekimoto, Temperature distribution of a two-layer disk composed of metal and coated film in laser irradiation, *Trans. Japan Soc. mech. Engrs*, Series B 50(458), 2436 (1984).
- M. Tajima, T. Maki and K. Katayama, Study on heat transfer phenomena in quenching of steel (Effect of latent heat of phase transformation), *Trans. Japan Soc. mech. Engrs*, Series B 50(460), 3033 (1984).
- F. Yoshikawa and M. Tanaka, A boundary element analysis of steady-state heat conduction problems in axisymmetric body, *Trans. Japan Soc. mech. Engrs*, Series B 50(453), 1310 (1984).

## FORCED CONVECTION

- M. Akiyama, M. Suzuki, K. C. Cheng, M. Suzuki and I. Nishiwaki, Mixed convection problems in the entrance region of curved circular tubes, *Trans. Japan Soc. mech. Engrs*, Series B 50(452), 1197 (1984).
- Y. Asako and H. Nakamura, Heat transfer in a parallelogram shaped enclosure (4th report, Combined free convection, radiation and conduction heat transfer), *Bull. J.S.M.E.* (English) 27(228), 1144 (1984).
- M. Fujii, T. Fujii and M. Inaishi, Effects of side wall and suction on laminar flow around a tube, *Trans. Japan Soc. mech. Engrs*, Series B 51(462), 470 (1985).
- T. Fujii, M. Inaishi and M. Fujii, Influence of side walls on laminar forced convection heat and mass transfer from a single tube, *Rep. Res. Inst. Ind. Sci. Kyushu Univ.* No. 76, 1 (1984).

- T. Igarashi, Fluid flow and heat transfer around a square prism, *Trans. Japan Soc. mech. Engrs*, Series B 50(452), 1173 (1984).
- T. Igarashi, Fluid flow and heat transfer in separated region of a circular cylinder, *Trans. Japan Soc. mech. Engrs*, Series B 50(460), 3008 (1984).
- T. Igarashi, Fluid flow and heat transfer around a circular cylinder with a slit, *Trans. Japan Soc. mech. Engrs*, Series B 51(462), 591 (1985).
- H. Inaba, T. Fukuda and M. Takahashi, Transient convective heat transfer in a horizontal cylinder packed with spherical particles, *Trans. Japan Soc. mech. Engrs*, Series B 50(455), 1799 (1984).
