

## Erratum

K. Makino and I. Michiyoshi, The behavior of a water droplet on heated surfaces, *Int. J. Heat Mass Transfer* **27**, 781–791 (1984).  
In the last paragraph of the introduction (p. 781) the second sentence should be replaced by the following:

This note presents mainly the behavior of a water droplet in contact with a heated surface, whose initial temperature ranges from the atmospheric saturation temperature of water to 20–50° greater than the Leidenfrost temperature.
