The publisher regrets that an error was introduced in the author's initials. The author's initials should be V.I. Fabrikant and not B.I. Fabrikant, as stated in the published article. Also the notation  $\eta \backslash \tau_1/1$  was published incorrectly, and should read as  ${}^n\tau_1$ , i.e.  $\eta$  is superscript and 1 is subscript.

The publisher also wishes the reader to note that the fax number printed at the bottom of the original article did not belong to that article and should have been replaced with the author's E-mail: [valery\\_fabrikant@hotmail.com](mailto:valery_fabrikant@hotmail.com).

The publisher apologises for any inconvenience or embarrassment caused.
