

Subject Index

A

- Acetone in a mass spectrometer. Transient species produced by the catalytic decomposition of. CHARLES E. MELTON, 234
- Acetylene. II. The reaction of acetylene with hydrogen catalyzed by alumina-supported palladium. The hydrogenation of. G. C. BOND AND P. B. WELLS, 65
- Acetylene with hydrogen catalyzed by alumina-supported rhodium and iridium. The reaction of. G. C. BOND AND P. B. WELLS, 419
- Acid sites by infrared spectroscopy. Determination of the nature of catalyst. M. VAN TONGELEN, 535
- Adsorbed hydrogen in the catalytic hydrogenation of cyclohexene. The role of. BERNARD J. WOOD AND HENRY WISE, 135
- Adsorption behavior between fluorocarbons and fluorocarbon derivatives on zinc oxide. Contrasting physical. THEODORE A. GENS, RICHARD D. DRESNER, AND JOHN A. WETHINGTON, JR., 146
- Adsorption of formic acid on evaporated nickel film. KOSAKU KISHI, TEIICHIRO OGAWA, AND KOZO HIROTA, 464
- Adsorption of hydrogen on molybdenum films. Calorimetric heats of. S. ČERNÝ, V. PONEC, AND L. HLÁDEK, 27
- Adsorption of triphenylmethane and perylene on silica-alumina. A comparative spectrophotometric study of the. RAYMOND P. PORTER AND W. KEITH HALL, 366
- Alcohols over alumina. The dehydration of. HELMUT KNÖZINGER AND RAINER KÖHNE, 264
- Aliphatic amines over evaporated metal films. Reactions of. J. R. ANDERSON AND N. J. CLARK, 250
- Aliphatic hydrocarbons over evaporated films of platinum and palladium. The isomerization of. J. R. ANDERSON AND N. R. AVERY, 446
- Alkylation reactions catalyzed by crystalline aluminosilicates. P. B. VENUTO, L. A. HAMILTON, AND P. S. LANDIS, 484
- Alkylation reactions. Organic reactions catalyzed by crystalline aluminosilicates. I., P. B. VENUTO, L. A. HAMILTON, P. S. LANDIS, AND J. J. WISE, 81
- Alumina. Physical and catalytic properties of nickel and platinum impregnated eta and gamma. HAROLD E. SWIFT, FRANK E. LUTINSKI, AND HUGH H. TOBIN, 285
- Alumina. The dehydration of alcohols over. HELMUT KNÖZINGER AND RAINER KÖHNE, 264

- Alumina and silica-alumina as sites for the isomerization of butene. Studies of the hydrogen held by solids. IX. The hydroxyl groups of. H. R. GERBERICH AND W. KEITH HALL, 99
- Alumina-supported rhodium and iridium. The reaction of acetylene with hydrogen catalyzed by. G. C. BOND AND P. B. WELLS, 419
- Aluminosilicates. I. Alkylation reactions. Organic reactions catalyzed by crystalline. P. B. VENUTO, L. A. HAMILTON, P. S. LANDIS, AND J. J. WISE, 81
- Aluminosilicates. Organic reactions catalyzed by. P. B. VENUTO, L. A. HAMILTON, AND P. S. LANDIS, 484
- Aluminosilicates. Protein acids as electron acceptors on. ALFRED E. HIRSCHLER, 196
- Amines over evaporated metal films. Reactions of aliphatic. J. R. ANDERSON AND N. J. CLARK, 250
- Ammonia from silica gel. On the desorption of. GEORGI BLIZNAKOV AND ROSA POLIKAROVA, 18
- Ammonia. Semiconductivity and catalytic behavior of doped nickel oxides in the low-temperature oxidation of. N. GIORDANO, E. CAVATERRA, AND D. ZEMA, 325
- Aromatics. Platinum-catalyzed exchange reactions between normal and deuterated. J. L. GARNETT AND W. A. SOLLICH-BAUMGARTNER, 244
- Author Index, 556

B

- Benzene hydrogenation of platinum/silica catalysts. Crystallite size and specific activity for. T. A. DORLING AND R. L. MOSS, 111
- Bismuth molybdate catalysts. II. The catalytic oxidation of 1-butene over. PH. A. BATIST, B. C. LIPPENS, AND G. C. A. SCHUTT, 55
- Butene. Studies of the hydrogen held by solids. IX. The hydroxyl groups of alumina and silica-alumina as sites for the isomerization of. H. R. GERBERICH AND W. KEITH HALL, 99
- n*-Butenes over a deuterated ion exchange resin. The isomerization of. ATSUMU OZAKI AND SUSUMU TSUCHIYA, 537
- 1-Butene over bismuth molybdate catalysts. II. Catalytic oxidation of. PH. A. BATIST, B. C. LIPPENS, AND G. C. A. SCHUTT, 55

C

- Calorimetric heats of adsorption of hydrogen on molybdenum films. S. ČERNÝ, V. PONEC, AND L. HLÁDEK, 27
- Carbonium ions by electrophilic sites as proposed

- by Porter and Hall. On the generation of. ALFRED E. HIRSCHLER, 390
- Chemisorption and catalytic properties of supported platinum. J. A. CUSUMANO, G. W. DEMBINSKI, AND J. H. SINFELT, 471
- Chemisorption and hydrogenation. Direct observation of ethylene-C¹⁴ behavior on nickel, rhodium, palladium, iridium, and platinum during. D. CORMACK, S. J. THOMPSON, AND G. WEBB, 224
- Chromia-alumina catalysts. The decomposition of nitrous oxide on. A. G. KEENAN AND R. D. IYENGAR, 301
- cis*- and *trans*-cyclodecene. Hydrogenation and Isomerization of. GERARD V. SMITH, 152
- Coloquio sobre química física de procesos en superficies solidas (book review) distributed by Libreria científica medinaceli, Duque de Medinaceli, 4, Madrid-14, Spain; reviewed by P. W. SELWOOD, 548
- Combustion of hydrocarbons. A study of the ionization produced by the catalytic. MERLE E. UMSTEAD, FOSTER J. WOODS, AND J. ENOCH JOHNSON, 293
- Conjugated dienes in relation to the crystal structure of TiCl₃ (α , β). The stereospecificity in the polymerization of olefins and. E. J. ARLMAN, 178
- Copper chromite catalyst by the water-gas reaction. Increase in the activity of. B. MIYA, F. HOSHINO, AND I. IWASA, 401
- Cracking of propane, isobutane, and *n*-butane. The formation and influence of methyl carbonium ions in the catalytic. PAL FEJES AND P. H. EMMETT, 193
- Crystallite size and specific activity for benzene hydrogenation of platinum/silica catalysts. T. A. DORLING AND R. L. MOSS, 111
- Cyclohexene. Selectivity of gold for hydrogenation and dehydrogenation of. ROBERT P. CHAMBERS AND MICHEL BOUDART, 517
- Cyclohexene. The role of adsorbed hydrogen in the catalytic hydrogenation of. BERNARD J. WOOD AND HENRY WISE, 135
- Cysteine and other mercaptans by ferricyanide. Inhibition and catalysis in the oxidation of. GEORGE GORIN AND WALTER E. GODWIN, 279
- D**
- Dehydration of alcohols over alumina. HELMUT KNÖZINGER AND RAINER KÖHNE, 264
- Dehydrogenation of cyclohexene. Selectivity of gold for hydrogenation and. ROBERT P. CHAMBERS AND MICHEL BOUDART, 517
- Diborane with silica gels and silicoalumina hydroxylic surfaces. Mechanisms of the reaction of. J. J. FRIPIAT AND M. VAN TONGELEEN, 158
- Diffusivities of catalysts by gas chromatography. Determination of effective. AMOS J. LEFFLER, 22
- E**
- Effective diffusivities of catalysts by gas chromatography. Determination of. AMOS J. LEFFLER, 22
- Effectiveness of large catalyst pellets—an experimental study. SEIYA OTANI AND J. M. SMITH, 332
- Electric field effect on the catalytic activity. The catalytic decomposition of ammonia. D. VLADOV, VL. DYAKOVITCH, AND SH. DINKOV, 412
- Electron acceptors on aluminosilicates. Proton acids as. ALFRED E. HIRSCHLER, 196
- ESR investigation of gas-solid interactions. The oxygen-zinc oxide systems. K. M. SANCER, 314
- Ethylene-C¹⁴ behavior on nickel, rhodium, palladium, iridium, and platinum during chemisorption and hydrogenation. D. CORMACK, S. J. THOMPSON, AND G. WEBB, 224
- Exchange reactions between normal and deuterated aromatics. Platinum-catalyzed. J. L. GARNETT AND W. A. SOLLICH-BAUMGARTNER, 244
- Exchange resin. The isomerization of *n*-butenes over a deuterated ion. ATSUMU OZAKI AND SUSUMU TSUCHIYA, 537
- External surface on the reaction rate and selectivity of isothermal catalyst particles. Effect of the. SHELDON J. KRAMER, 190
- F**
- Ferricyanide. Inhibition and catalysis in the oxidation of cysteine and other mercaptans by. GEORGE GORIN AND WALTER E. GODWIN, 279
- Films of platinum and palladium. The isomerization of aliphatic hydrocarbons over evaporated. J. R. ANDERSON AND N. R. AVERY, 446
- Fluorocarbons and fluorocarbon derivatives on zinc oxide. Contrasting physical adsorption behavior between. THEODORE A. GENS, RICHARD D. DRESDNER, AND JOHN A. WETHINGTON, JR., 146
- Formic acid at palladium electrodes. The formation of palladium hydride by reaction of. L. D. BURKE, F. A. LEWIS, AND C. KEMBALL, 539
- Formic acid on evaporated nickel film. Infrared study. KOSAKU KISHI, TEIICHIRO OGAWA, AND KOZO HIROTA, 464
- G**
- Gas chromatography. Determination of effective diffusivities of catalysts by. AMOS J. LEFFLER, 22
- Gas-phase reactions in porous catalyst. Combined

- effect of volume change and internal heat and mass transfer on. VERN W. WEEKMAN, JR., 44
- Gas-solid interactions. The oxygen-zinc oxide system. ESR investigation of. K. M. SANCER, 314
- Germanium. Catalytic and chemical reaction rates of hydrogen atoms with. K. M. SANCER, S. R. MORRISON, AND H. U. D. WIESENDANGER, 361
- Gold for hydrogenation and dehydrogenation of cyclohexene. Selectivity of. ROBERT P. CHAMBERS AND MICHEL BOUDART, 517
- ### H
- H₂O, HD₂O, and D₂O. Mass spectrometric evidence for. CHARLES E. MELTON AND P. S. RUDOLPH, 387
- Heats of adsorption of hydrogen on molybdenum films. Calorimetric. S. ČERNÝ, V. PONEC, AND L. HLÁDEK, 27
- Helium beams on platinum. The reflection and thermal accommodation of. GEORGE E. MOORE, SHELDON DATZ, AND ELLISON H. TAYLOR, 218
- Hirschler. In answer to. W. KEITH HALL AND R. P. PORTER, 544
- Hydrocarbons. A study of the ionization produced by the catalytic combustion of. MERLE E. UMSTEAD, FOSTER J. WOODS, AND J. ENOCH JOHNSON, 293
- Hydrocarbons on metals. The mechanisms of hydrogenolysis and isomerization of. Y. BARRON, G. MAIRE, J. M. MULLER, AND F. G. GAULT, 428
- Hydrocarbons over evaporated films of platinum and palladium. The isomerization of aliphatic. J. R. ANDERSON AND N. R. AVERY, 446
- Hydrogen atoms with germanium. Catalytic and chemical reaction rates of. K. M. SANCER, S. R. MORRISON, AND H. U. D. WIESENDANGER, 361
- Hydrogen held by solids. IX. The hydroxyl groups of alumina and silica-alumina as sites for the isomerization of butene. Studies of the. H. R. GERBERICH AND W. KEITH HALL, 99
- Hydrogen on molybdenum films. Calorimetric heats of adsorption of. S. ČERNÝ, V. PONEC, AND L. HLÁDEK, 27
- Hydrogen-deuterium equilibration and parahydrogen and orthodeuterium conversion over palladium. J. J. F. SCHOLTEN AND J. A. KONVALINKA, 1
- Hydrogenation and dehydrogenation of cyclohexene. Selectivity of gold for. ROBERT P. CHAMBERS AND MICHEL BOUDART, 517
- Hydrogenation and isomerization of *cis*- and *trans*-cyclodecene. GERARD V. SMITH, 152
- Hydrogenation in aqueous solution. I. Gas Absorption. Rate-determining steps in contact catalytic. F. NAGY, Á. PÉTHÓ, AND D. MÓGER, 348
- Hydrogenation of acetylene. G. C. BOND AND P. B. WELLS, 419
- Hydrogenation of acetylene. II. The reaction of acetylene with hydrogen catalyzed by alumina-supported palladium. G. C. BOND AND P. B. WELLS, 65
- Hydrogenation of cyclohexene. The role of adsorbed hydrogen in the catalytic. BERNARD J. WOOS AND HENRY WISE, 135
- Hydrogenolysis and isomerization of hydrocarbons on metals. The mechanisms of. Y. BARRON, G. MAIRE, J. M. MULLER, AND F. G. GAULT, 428
- Hydroxyl groups of alumina and silica-alumina as sites for the isomerization of butene. Studies of the hydrogen held by solids. IX. The. H. R. GERBERICH AND W. KEITH HALL, 99
- ### I
- Infrared spectroscopy. Determination of the nature of catalyst acid sites by. M. VAN TONGELEN, 535
- Infrared spectrum of methyl oleate adsorbed on silica. J. ERKELENS AND TH. J. LIEFKENS, 542
- Infrared study of the adsorption of formic acid on evaporated nickel film and interaction of the chemisorbed species with formic acid. KOSAKU KISHI, TEIICHIRO OGAWA, AND KOZO HIROTA, 464
- Internal heat and mass transfer on gas-phase reactions in porous catalysts. Combined effect of volume change and. VERN W. WEEKMAN, JR., 44
- Ionization produced by the catalytic combustion of hydrocarbons. MERLE E. UMSTEAD, FOSTER J. WOODS, AND J. ENOCH JOHNSON, 293
- Iridium. The reaction of acetylene with hydrogen catalyzed by alumina-supported rhodium and. G. C. BOND AND P. B. WELLS, 419
- Iridium, and platinum during chemisorption and hydrogenation. Direct observation of ethylene-C¹⁴ behavior on, nickel, rhodium, palladium. D. CORMACK, S. J. THOMSON, AND G. WEBB, 224
- Irradiation on catalysts for the *ortho*-parahydrogen reaction. Effect of neutron. AMOS J. LEFFLER AND BRUCE OSTAR, 74
- Isomerization of aliphatic hydrocarbons over evaporated films of platinum and palladium. J. R. ANDERSON AND N. R. AVERY, 446
- Isomerization of butene. Studies of the hydrogen held by solids. IX. The hydroxyl groups of alumina and silica-alumina as sites for the. H. R. GERBERICH AND W. KEITH HALL, 99
- Isomerization of *n*-butenes over a deuterated ion exchange resin. ATSUMU OZAKI AND SUSUMU TSUCHIYA, 537

- Isomerization of *cis*- and *trans*-cyclodecene. Hydrogenation and. GERARD V. SMITH, 152
- Isomerization of hydrocarbons on metals. The mechanisms of hydrogenolysis and. Y. BARRON, G. MAIRE, J. M. MULLER, AND F. G. GAULT, 428
