

Subject Index

A

- Acetate. Catalytic and electrocatalytic oxidation of, R. WOODS, 267
- Acetic acid on chromia. II. Studies on the ketonization of, R. SWAMINATHAN AND J. C. KURIACOSE, 357
- Acid sites in rare-earth exchanged Y-zeolites. I. MOSCOU AND M. LAKEMAN, 173
- Activation energies on catalysts with heterogeneous surfaces. I. General derivation. J. BAGG, 370
- Activation energies on catalysts with heterogeneous surfaces. II. Dual-site catalysts and compensation effect. J. BAGG, 377
- Alkylation of toluene with methanol, on synthetic zeolites. I. TATSUAKI YASHIMA, HABIB AHMAD, KAORU YAMAZAKI, MASATOSHI KATSUTA, 273
- Alumina. *n*-Butene isomerization on HCl-treated, MASAKO TANAKA AND SADA O OGASAWARA, 164
- Alumina and chlorinated aluminas. *cis*-2-Butene isomerization over, J. BASSET, F. FIGUERAS, M. V. MATHIEU, AND M. PRETTRE, 53
- Alumina and on silica. Infrared studies of the adsorption and the catalysis of hydrogen chloride on, MASAKO TANAKA AND SADA O OGASAWARA, 157
- Alumina ESR spectra of, A. A. MONTAGNA, D. P. JOHNSON, C. R. HARE, AND S. W. WELLER, 391
- Aluminas. Amorphous for oxidation of carbon monoxide I. C. HOANG-VAN AND S. J. TEICHNER, 69
- Aluminas for oxidation of carbon monoxide. II. C. HOANG-VAN AND S. J. TEICHNER, 75
- Ammonia. Rate equation for the synthesis of, R. BRILL, 16
- Ammonia synthesis over ruthenium. Kinetics and isotope effect of. KEN-ICHI AIKA AND ATSUMU OZAKI, 97
- Aromatic compounds. Hydroalkylation of, JAMES J. LOUVAR AND ALFONSO FRANCOY, 62
- Aromatization of lower olefins over bismuth phosphate catalyst. M. SAKAMOTO, M. EGASHIRA, AND T. SEIYAMA, 410
- Autoxidation I. Catalysis in liquid-phase, WILLIAM F. TAYLOR, 20

B

- Benzene and C_6 hydrocarbons over supported metal catalysts. Hydrogen transfer, G. PARAVANO, 1
- Bismuth phosphate catalyst. New catalytic aromatization of lower olefins over, M. SAKAMOTO, M. EGASHIRA, AND T. SEIYAMA, 410

- Book review, "Concepts in Catalysis" by ERIC K. RIDEAL, reviewed by J. H. DE BOER, 407
- Book review, "Fourth International Congress on Catalysis. Preprints of," reviewed by P. W. SELWOOD, 132
- n*-Butene isomerization on HCl-treated alumina. MASAKO TANAKA AND SADA O OGASAWARA, 164
- 1-Butene isomerization over alumina at high temperatures. Comment on, EDUARDO A. LOMBARDO AND W. KEITH HALL, 129
- cis*-2-Butene isomerization over alumina and chlorinated aluminas. J. BASSET, F. FIGUERAS, M. V. MATHIEU, AND M. PRETTRE, 53

C

- Carbon monoxide. Activity of amorphous aluminas for oxidation of, I. C. HOANG-VAN AND S. J. TEICHNER, 69
- Chemisorption of xenon and fluorine on nickel and palladium. B. G. BAKER AND A. LAWSON, 108
- Chlorinated aluminas. V. *cis*-2 butene isomerization over alumina and chlorinated aluminas. J. BASSET, F. FIGUERAS, M. V. MATHIEU, AND M. PRETTRE, 53
- 1-(*o*-chlorophenyl)ethyl alcohol on γ - Al_2O_3 . Infrared study of the surface dehydration of, RONALD O. KAGEL, 316
- Cumene-cracking activity on type-Y molecular sieve catalysts. Quinoline titration of, M. S. GOLDSTEIN AND T. R. MORGAN, 232
- Cyclohexene hydrogenation over platinum. Mechanistic study. F. NAGY, D. MOGER, G. MINK, AND I. NEMES, 27
- Cyclopropane over supported nickel catalysts. The hydrogenation of. T. S. SRIDHAR AND D. M. RUTHVEN, 363

D

- Dehydration of 1-(*o*-chlorophenyl)ethyl alcohol on γ - Al_2O_3 . Infrared study of, RONALD O. KAGEL, 316
- Dehydration of propanols over a molecular sieve 13X. J. D. BUTLER, T. C. POLES, AND B. T. WOOD, 239
- Dimerization of propene to 2,3-dimethylbutene catalyzed by a nickel complex in solution. Selective. G. G. EBERHARDT AND W. P. GRIFFIN, 245

E

- Effectiveness factor for gas-solid reactions. A. CALVELO AND R. E. CUNNINGHAM, 397
- Electron microprobe studies. Structure of Raney nickel. II. J. FREEL, W. J. M. PIETERS, AND R. B. ANDERSON, 281

- Elovich equation. I. S. McLINTOCK, 126
- Epoxidation of maleic acid. Kinetic study of tungstate, molybdate and vanadate ions as catalysts for, G. G. ALLAN AND A. N. NEOGI, 197
- ESR spectra of alumina. A. A. MONTAGNA, D. P. JOHNSON, C. R. HARE, AND S. W. WELLER, 391
- ESR of electrical conductivity parameters of zinc oxide during surface reactions. MORIO SETAKA, KENNETH M. SANCIER, AND TAKAO KWAN, 44
- Ethylene over evaporated palladium-rhodium alloy films. Oxidation of I. R. L. MOSS, H. R. GIBBENS, AND D. H. THOMAS, 117
- Ethylene over evaporated palladium-rhodium alloy films. The oxidation of, R. L. MOSS, H. R. GIBBENS, AND D. H. THOMAS, 180
- Ethylene over Pd-Au alloys. Oxidation of, H. R. GERBERICH, NOEL W. CANT, AND W. KEITH HALL, 204
- Ethylene and propylene. Oxidation of over silica supported noble metals. NOEL W. CANT AND W. KEITH HALL, 220

F

- Ferric oxide. Mössbauer effect study of crystallites of supported, M. C. HOBSON, JR. AND H. M. GAGER, 254
- Fluorine on nickel and palladium. Chemisorption of xenon and, B. G. BAKER AND A. LAWSON, 108
- Formaldehyde condensation to carbohydrates. Homogeneously catalyzed, ALVIN H. WEISS AND RENE B. LAPIERRE, 332

G

- Gadolinium-doped silver carbonate. Thermal decomposition of, T. WYDEVEN, 82
- Gas-solid reactions. Overall effectiveness factor for, A. CALVELO AND R. E. CUNNINGHAM, 397

H

- Homogeneously catalyzed formaldehyde condensation to carbohydrates. ALVIN H. WEISS AND RENE B. LAPIERRE, 332
- Hydroalkylation of aromatic compounds. JAMES J. LOUVAR AND ALFONSO FRANCOY, 62
- Hydrogen chemisorption and phase composition of silica-supported rhodium-silver alloys. JAMES H. ANDERSON, JR., PAUL J. CONN, AND STANLEY BRANDENBERGER, 404
- Hydrogen chemisorption and surface composition of silica-supported platinum-copper alloys. JAMES H. ANDERSON, JR., PAUL J. CONN, AND STANLEY G. BRANDENBERGER, 326

- Hydrogen chloride on alumina and on silica. Infrared studies of the adsorption and the catalysis of, MASAKO TANAKA AND SADA OOGASAWARA, 157
- Hydrogen transfer between benzene and C₆ hydrocarbons over supported metal catalysts. G. PARRAVANO, 1
- Hydrogenation of cyclopropane over supported nickel catalysts. T. S. SRIDHAR AND D. M. RUTHVEN, 363

I

- Infrared study of the surface dehydration of 1-(o-chlorophenyl)ethyl alcohol on γ -Al₂O₃. RONALD O. KAGEL, 316
- Infrared studies of the adsorption and the catalysis of hydrogen chloride on alumina and on silica. MASAKO TANAKA AND SADA OOGASAWARA, 157
- Iron catalyst. Mössbauer spectral observation on the supported, T. YOSHIOKA, J. KOEZUKA, AND H. IKOMA, 264
- Isomerization on HCl-treated alumina. *n*-Butene, MASAKO TANAKA AND SADA OOGASAWARA, 164

K

- Ketonization of acetic acid on chromia. II. R. SWAMINATHAN AND J. C. KURIAKOSE, 357
- Kinetic data. New approach in treating, GEORGI BLIZNAKOV, IVAN BAKARDJIEV, AND OGNAN PESHEV, 148
- Kinetic study of tungstate, molybdate, and vanadate ions for the epoxidation of maleic acid. G. G. ALLAN AND A. N. NEOGI, 197
- Kinetics and isotope effect of ammonia synthesis over ruthenium. KEN-ICHI AIKA AND ATSUMU OZAKI, 97

L

- Liquid-phase autoxidation I. Effect of polymeric surfaces. WILLIAM F. TAYLOR, 20

M

- Maleic acid at pH 5. Kinetic study of tungstate, molybdate, and vanadate ions as catalysts for the epoxidation of, G. G. ALLAN AND A. N. NEOGI, 197
- Manganese. Surface species on, GEORGE BLYHOLDER AND MARVIN C. ALLEN, 189
- Methanol oxidation catalyst. Structural study. G. FAGHERAZZI AND N. PERNICONE, 321
- Molecular sieve 5A and containing neodymium. Parahydrogen conversion on, D. E. BROWN, D. D. ELEY, AND R. RUDHAM, 292
- Molecular sieve catalysts (Y). Quinoline titration of cumene-cracking activity on, M. S. GOLDSTEIN AND T. R. MORGAN, 232

- Molybdate, tungstate, and vanadate ions as catalysts for the epoxidation of maleic acid. G. G. ALLAN AND A. N. NEOGI, 197
- Mössbauer effect study of crystallites of supported ferric oxide. M. C. HOBSON, JR. AND H. M. GAGER, 254
- Mössbauer spectral observation on the supported iron catalyst. T. YOSHIOKA, J. KOEZUKA, AND H. IKOMA, 264

N

- Neodymium ions. Parahydrogen conversion of 5A molecular sieve containing. D. E. BROWN, D. D. ELEY, AND R. RUDHAM, 292
- Neopentane on transition metals. Reaction of, M. BOUDART AND L. D. PTAK, 90
- Nickel and palladium. Chemisorption of xenon and fluorine on, B. G. BAKER AND A. LAWSON, 108
- Nickel catalysts. The hydrogenation of cyclopropane over supported, T. S. SRIDHAR AND D. M. RUTHVEN, 363
- Nickel complex in solution. Selective dimerization of propene to 2,3-dimethylbutene catalyzed by a, G. G. EBERHARDT AND W. P. GRIFFIN, 245
- Noble metals for the oxidation of ethylene and propylene. Silica supported, NOEL W. CANT AND W. KEITH HALL, 220

O

- Oxidation of acetate. Catalytic and electrocatalytic, R. WOODS, 267
- Oxidation of ethylene and propylene over silica supported noble metals. NOEL W. CANT AND W. KEITH HALL, 220
- Oxidation of ethylene over Pd-Au alloys. H. R. GERBERICH, NOEL W. CANT, AND W. KEITH HALL, 204
- Oxidation of ethylene over evaporated palladium-rhodium alloy films. I. R. L. MOSS, H. R. GIBBENS, AND D. H. THOMAS, 117
- Oxidation of ethylene over evaporated palladium-rhodium alloy films. R. L. MOSS, H. R. GIBBENS, AND D. H. THOMAS, 180

P

- Palladium. Chemisorption of xenon and fluorine on nickel and, B. G. BAKER AND A. LAWSON, 108
- Palladium complexes. VI. Studies on the palladium(II)-catalyzed decomposition of vinyl acetate. ROBERT G. SCHULTZ AND PETER R. RONY, 133
- Palladium-gold alloys. Oxidation of ethylene over, H. R. GERBERICH, NOEL W. CANT, AND W. KEITH HALL, 204

- Palladium-rhodium alloy films. The oxidation of ethylene over evaporated. I. R. L. MOSS, H. R. GIBBENS, AND D. H. THOMAS, 117
- Parahydrogen conversion on 5A molecular sieve and 5A molecular sieve containing neodymium ions. D. E. BROWN, D. D. ELEY, AND R. RUDHAM, 292
- Platinum. Determination of surface area by chemisorption: unsupported, M. A. VANNICE, J. E. BENSON, AND M. BOUDART, 348
- Platinum catalyst. Mechanistic study of cyclohexene hydrogenation over, F. NAGY, D. MOGER, G. MINK, AND I. NEMES, 27
- Platinum-copper alloys. Hydrogen chemisorption and surface composition of silica-supported, JAMES H. ANDERSON, JR., PAUL J. CONN, AND STANLEY G. BRANDENBERGER, 326
- Platinum film progressively poisoned with arsine. Catalytic activity of an evaporated. R. D. CLAY AND E. E. PETERSON, 32
- 1- and 2-propanol over a molecular sieve 13X. Dehydration of, J. D. BUTLER, T. C. POLES, AND B. T. WOOD, 239
- Propylene. Oxidation of ethylene and over silica supported noble metals, NOEL W. CANT AND W. KEITH HALL, 220

Q

- Quinoline titration of cumene-cracking activity on type-Y molecular sieve catalysts. M. S. GOLDSTEIN AND T. R. MORGAN, 232

R

- Raney nickel. II. Electron microprobe studies. J. FREEL, W. J. M. PIETERS, AND R. B. ANDERSON, 281
- Rare-earth exchanged Y-zeolites. Acid sites in, L. MOSCOU AND M. LAKEMAN, 173
- Rate equation for the catalytic synthesis of ammonia. R. BRILL, 16
- Rhodium-silver alloys. Hydrogen chemisorption and phase composition of silica-supported, JAMES H. ANDERSON, JR., PAUL J. CONN, AND STANLEY BRANDENBERGER, 404
- Ruthenium. Kinetics and isotope effect of ammonia synthesis over, KEN-ICHI AIKA AND ATSUMU OZAKI, 97

S

- Selective dimerization of propene to 2,3-dimethylbutene catalyzed by a nickel complex in solution. G. G. EBERHARDT AND W. P. GRIFFIN, 245
- Silica. Infrared studies of the adsorption and the catalysis of hydrogen chloride on alumina and on, MASAKO TANAKA AND SADA OOGASAWARA, 157

- Silver carbonate. Thermal decomposition of gadolinium-doped, T. WYDEVEN, 82
- Spectroscopic study of the surface of Y zeolite. III. JOHN W. WARD, 386
- Sulfiding of tungsten oxide supported on silica-alumina. F. E. MASSOTH AND D. L. BIDLACK, 303
- Surface area by chemisorption: unsupported platinum. M. A. VANNICE, J. E. BENSON, AND M. BOUDART, 348
- Surface species on manganese. GEORGE BLYHOLDER AND MARVIN C. ALLEN, 189

T

- Toluene with methanol on synthetic zeolites. I. Alkylation of, TATSUAKI YASHIMA, HABIB AHMAD, KAORU YAMAZAKI, MASATOSHI KATSUTA, 273
- Tungstate, molybdate, and vanadate ions for the epoxidation of maleic acid. G. G. ALLAN AND A. N. NEOGI, 197
- Tungsten oxide supported on silica-alumina. Sulfiding of, F. E. MASSOTH AND D. L. BIDLACK, 303

V

- Vanadate, tungstate, and molybdate ions for the epoxidation of maleic acid. G. G. ALLAN AND A. N. NEOGI, 197

- Vinyl acetate. Palladium(II)-catalyzed decomposition of, ROBERT G. SCHULTZ AND PETER R. RONY, 133

X

- Xenon and fluorine on nickel and palladium. Chemisorption of, B. G. BAKER AND A. LAWSON, 108
- Xenon difluoride. The catalytic formation of, B. G. BAKER AND P. G. FOX, 102

Y

- Y Zeolite spectroscopic study of the surface of III. JOHN W. WARD, 386

Z

- Zeolites. I. Alkylation of toluene on, TATSUAKI YASHIMA, HABIB AHMAD, KAORU YAMAZAKI, AND MASATOSHI KATSUTA, 273
- (Zeolites) dehydration of 1- and 2-propanol over a molecular sieve 13X. J. D. BUTLER, T. C. POLES, AND B. T. WOOD, 239
- Zeolites (Y). Acid sites in rare-earth exchanged, L. MOSCOU AND M. LAKEMAN, 173
- (Zeolites) quinoline titration of cumene-cracking activity on type-Y. M. S. GOLDSTEIN AND T. R. MORGAN, 232
- Zinc oxide. ESR resonance of electrical conductivity parameters. MORIO SETAKA, KENNETH M. SANCER, AND TAKAO KWAN, 44
