

## Erratum: Nestin Protects Mouse Podocytes Against High Glucose-Induced Apoptosis by a Cdk5-Dependent Mechanism

Wei Liu, Yue Zhang, Jun Hao, Shuxia Liu, Qingjuan Liu, Song Zhao, Yonghong Shi, and Huijun Duan

In Liu et al., 2012, due to errors in the process of arranging figures, the actin of Figure 3A was reused in Figure 4D. The correct version of Figure 4D is shown below.

The mistake regarding actin did not compromise the validity of the results or the integrity of the conclusion drawn upon them.

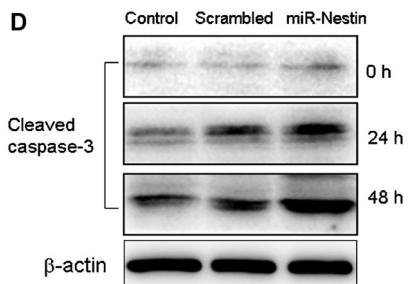

In order to ensure the reliability of the results of this experiment, the authors repeated the experiment involved in Figures 3A, 4D. Results of the repeated experiment were consistent with the original data in the article; these results are shown below.

The authors regret these errors.
