

Erratum

Journal of Fluorine Chemistry, Vol. 14 No. 6, Contents.

The paper 'Monofluoration quantitative par le phenyltetrafluorophosphorane. Influence de la température'.

By mistake the names R. Nabet and D. Robert were included with those of the legitimate authors when in fact they did not participate in this work. They are therefore to be deleted. Their entries in the Author Index (page 523) should also be removed.
