A.N.Nesmeyanov's Institute of Organo-Element Compounds,
Academy of Sciences USSR, Vavilov Str.28, 117813 Moscow (U.S.S.R.)

A series of stable fluorinated diazomethanes $(\text{CF}_3)_2\text{CHC}(\text{N}_2)\text{C}_2\text{F}_5$, $(\text{CF}_3)_2\text{CHC}(\text{N}_2)\text{COCF}_3$, $(\text{CF}_3)_2\text{CHC}(\text{N}_2)\text{CH}(\text{CF}_3)_2$ have been prepared by oxidation of corresponded hydrazones and some chemistry of this compounds will be presented, E.g.

Reaction mechanism's are proposed.
