

Additions and Corrections

2008, Volume 51

Sanjeev Kumar, William P. Malachowski,* James B. DuHadaway, Judith M. LaLonde,* Patrick J. Carroll, Daniel Jaller, Richard Metz, George C. Prendergast, and Alexander J. Muller*: Indoleamine 2,3-Dioxygenase Is the Anticancer Target for a Novel Series of Potent Naphthoquinone-Based Inhibitors.

Page 1712. The reference to compounds **34** and **39** as two of the three most potent inhibitors is incorrect. The compounds should be **36** and **41**.
