

## Subject Index

- Adipic ester
  - Enzyme catalysed synthesis of some adipic esters 9
- Adsorption
  - Immobilization of catalase via adsorption onto L-histidine grafted functional PHEMA based membrane 197
- Aggregates
  - Experimental validation of a model for  $\alpha$ -chymotrypsin activity in aqueous solutions of surfactant aggregates 1
- Alcoholysis
  - Enzyme catalysed synthesis of some adipic esters 9
- Allyl alcohol
  - Effect of additives on the bioreduction of 2-chloro-1-phenyl-2-propen-1-one by baker's yeast 23
- Araujia hortorum*
  - Isolation and purification of cysteine peptidases from the latex of *Araujia hortorum* fruits. Study of their esterase activities using partial least-squares (PLS) modeling 177
- Asclepiadaceae*
  - Isolation and purification of cysteine peptidases from the latex of *Araujia hortorum* fruits. Study of their esterase activities using partial least-squares (PLS) modeling 177
- Bacillus megaterium*
  - Modification of the fatty acid specificity of cytochrome P450 BM-3 from *Bacillus megaterium* by directed evolution: a validated assay 123
- Benzoylpyridine
  - Synthesis of optically active  $\alpha$ -phenylpyridylmethanols by *Camellia sinensis* cell culture 173
- Biocatalyst
  - Stereoselective reduction of keto esters with marine micro algae 101
- Bioreduction
  - Synthesis of optically active  $\alpha$ -phenylpyridylmethanols by *Camellia sinensis* cell culture 173
- Biotransformation
  - Synthesis of optically active  $\alpha$ -phenylpyridylmethanols by *Camellia sinensis* cell culture 173
- p*-Bromo mandelic acid amide
  - Substrate spectrum of mandelate racemase. Part 1: Variation of the  $\alpha$ -hydroxy acid moiety 207
- Camellia sinensis*
  - Synthesis of optically active  $\alpha$ -phenylpyridylmethanols by *Camellia sinensis* cell culture 173
- Catalase
  - Immobilization of catalase via adsorption onto L-histidine grafted functional PHEMA based membrane 197
- Cephalexin
  - Cephalexin synthesis by immobilised penicillin G acylase under non-isothermal conditions: reduction of diffusion limitation 163
- Charge transfer interaction
  - Studies on the reaction mechanism of RNase T1 with quantum chemical reactivity indexes 29
- Chirality
  - Design, synthesis and evaluation of two diastereoisomeric phosphonate inhibitors of lamb pregastric lipase 15
- $\alpha$ -Chloropropiophenone
  - Effect of additives on the bioreduction of 2-chloro-1-phenyl-2-propen-1-one by baker's yeast 23
- Cinnamic acid
  - Alternative substrates of 2,4-dichlorophenoxyacetate/ $\alpha$ -ketoglutarate dioxygenase 155
- Colorimetric assay system
  - Modification of the fatty acid specificity of cytochrome P450 BM-3 from *Bacillus megaterium* by directed evolution: a validated assay 123
- Covalent bond
  - Catalytic activity of immobilized fumarase 93
- Cultured cells
  - Synthesis of optically active  $\alpha$ -phenylpyridylmethanols by *Camellia sinensis* cell culture 173
- Cyanohydrins
  - Mass transfer limitation as a tool to enhance the enantiomeric excess in the enzymatic synthesis of chiral cyanohydrins 111
- Cytochrome P450 CYP102
  - Modification of the fatty acid specificity of cytochrome P450 BM-3 from *Bacillus megaterium* by directed evolution: a validated assay 123
- 2,4-Dichlorophenoxyacetic acid
  - Alternative substrates of 2,4-dichlorophenoxyacetate/ $\alpha$ -ketoglutarate dioxygenase 155
- Dimethyl sulfoxide
  - Stability of free and immobilised peroxidase in aqueous–organic solvents mixtures 147
- Diocanoyl glycerol
  - Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135

- Dioxygenase  
Alternative substrates of 2,4-dichlorophenoxyacetate/ $\alpha$ -ketoglutarate dioxygenase 155
- Directed evolution  
Modification of the fatty acid specificity of cytochrome P450 BM-3 from *Bacillus megaterium* by directed evolution: a validated assay 123
- Enantio-selective bioreduction  
Effect of additives on the bioreduction of 2-chloro-1-phenyl-2-propen-1-one by baker's yeast 23
- Enantioselective transesterification  
Resolution of racemic *trans*-2-methyl-1-cyclohexanol by lipase-catalysed transesterification in a membrane reactor 71
- Enantioselectivity  
Enzyme catalysed synthesis of some adipic esters 9
- Entrapment  
Catalytic activity of immobilized fumarase 93
- Enzymatic nitration  
Enzymatic nitration of phenols 55
- Enzymatic peptide synthesis  
SDS-subtilisin catalyzed synthesis of tetra-peptides containing multifunctional amino acid residues in ethanol 105
- Enzymatic racemization  
Substrate spectrum of mandelate racemase. Part 2. (Hetero)-aryl-substituted mandelate derivatives and modulation of activity 213
- Enzymatic synthesis  
Enzymatic synthesis of 3-*O*-methyl-4-*O*- $\beta$ -D-galactopyranosyl-D-glucose (3-*O*-methyl-lactose); a potential agent for the assessment of intestinal lactase activity 191
- Enzyme catalysis  
Experimental validation of a model for  $\alpha$ -chymotrypsin activity in aqueous solutions of surfactant aggregates 1  
Studies on the reaction mechanism of RNase T1 with quantum chemical reactivity indexes 29
- Enzyme immobilisation  
Enzyme immobilisation using SBA-15 mesoporous molecular sieves with functionalised surfaces 81
- Enzyme membrane reactor  
Resolution of racemic *trans*-2-methyl-1-cyclohexanol by lipase-catalysed transesterification in a membrane reactor 71
- Epoxide  
Alternative substrates of 2,4-dichlorophenoxyacetate/ $\alpha$ -ketoglutarate dioxygenase 155
- Equilibrium constants  
Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135
- Esterification  
Enhancement of activity of sol-gel immobilized lipase in organic media by pretreatment with substrate analogues 65  
Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135
- Fatty acid hydroxylation  
Modification of the fatty acid specificity of cytochrome P450 BM-3 from *Bacillus megaterium* by directed evolution: a validated assay 123
- Fukui function  
Studies on the reaction mechanism of RNase T1 with quantum chemical reactivity indexes 29
- Functionalisation  
Enzyme immobilisation using SBA-15 mesoporous molecular sieves with functionalised surfaces 81
- $\beta$ -Galactosidase  
Enzymatic synthesis of 3-*O*-methyl-4-*O*- $\beta$ -D-galactopyranosyl-D-glucose (3-*O*-methyl-lactose); a potential agent for the assessment of intestinal lactase activity 191
- Galactosyltransferase  
Enzymatic synthesis of 3-*O*-methyl-4-*O*- $\beta$ -D-galactopyranosyl-D-glucose (3-*O*-methyl-lactose); a potential agent for the assessment of intestinal lactase activity 191
- $\beta$ -Glucosidase  
Characterization of a thermostable  $\beta$ -glucosidase (BglB) from *Thermotoga maritima* showing transglycosylation activity 45
- Glycerol  
Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135
- Grafted membranes  
Cephalexin synthesis by immobilised penicillin G acylase under non-isothermal conditions: reduction of diffusion limitation 163
- HCN  
Mass transfer limitation as a tool to enhance the enantiomeric excess in the enzymatic synthesis of chiral cyanohydrins 111
- High-throughput screening  
Modification of the fatty acid specificity of cytochrome P450 BM-3 from *Bacillus megaterium* by directed evolution: a validated assay 123
- L-Histidine  
Immobilization of catalase via adsorption onto L-histidine grafted functional pHEMA based membrane 197
- Horseradish peroxidase  
Stability of free and immobilised peroxidase in aqueous-organic solvents mixtures 147
- $\alpha$ -Hydroxy heteroarylacetic acid  
Substrate spectrum of mandelate racemase. Part 2. (Hetero)-aryl-substituted mandelate derivatives and modulation of activity 213
- R-Hydroxynitrile lyase  
Mass transfer limitation as a tool to enhance the enantiomeric excess in the enzymatic synthesis of chiral cyanohydrins 111
- Immobilisation  
Stability of free and immobilised peroxidase in aqueous-organic solvents mixtures 147

- Cephalexin synthesis by immobilised penicillin G acylase under non-isothermal conditions: reduction of diffusion limitation 163
- Immobilised lipase  
Resolution of racemic *trans*-2-methyl-1-cyclohexanol by lipase-catalysed transesterification in a membrane reactor 71
- Immobilization  
Immobilization of catalase via adsorption onto L-histidine grafted functional pHEMA based membrane 197
- Immobilized fumarase  
Catalytic activity of immobilized fumarase 93
- Inhibition  
Design, synthesis and evaluation of two diastereoisomeric phosphonate inhibitors of lamb pregastric lipase 15
- Keto ester  
Stereoselective reduction of keto esters with marine microalgae 101
- $\alpha$ -Ketoglutarate  
Alternative substrates of 2,4-dichlorophenoxyacetate/ $\alpha$ -ketoglutarate dioxygenase 155
- Kinetic resolution  
Resolution of racemic *trans*-2-methyl-1-cyclohexanol by lipase-catalysed transesterification in a membrane reactor 71
- Kinetics  
Experimental validation of a model for  $\alpha$ -chymotrypsin activity in aqueous solutions of surfactant aggregates 1
- Lactasia  
Enzymatic synthesis of 3-*O*-methyl-4-*O*- $\beta$ -D-galactopyranosyl-D-glucose (3-*O*-methyl-lactose); a potential agent for the assessment of intestinal lactase activity 191
- Lipase  
Enzyme catalysed synthesis of some adipic esters 9  
Enhancement of activity of sol-gel immobilized lipase in organic media by pretreatment with substrate analogues 65  
Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135
- Mandelate racemase  
Substrate spectrum of mandelate racemase. Part 1: Variation of the  $\alpha$ -hydroxy acid moiety 207
- Mandelate racemase [EC 5.1.2.2]  
Substrate spectrum of mandelate racemase. Part 2. (Hetero)-aryl-substituted mandelate derivatives and modulation of activity 213
- Mandelic acid  
Substrate spectrum of mandelate racemase. Part 2. (Hetero)-aryl-substituted mandelate derivatives and modulation of activity 213
- Mandelic acid amide  
Substrate spectrum of mandelate racemase. Part 1: Variation of the  $\alpha$ -hydroxy acid moiety 207
- Marine micro algae  
Stereoselective reduction of keto esters with marine microalgae 101
- Mass transfer limitation model  
Mass transfer limitation as a tool to enhance the enantiomeric excess in the enzymatic synthesis of chiral cyanohydrins 111
- Mass transfer limiting enzyme concentration  
Mass transfer limitation as a tool to enhance the enantiomeric excess in the enzymatic synthesis of chiral cyanohydrins 111
- Mesoporous molecular sieve  
Enzyme immobilisation using SBA-15 mesoporous molecular sieves with functionalised surfaces 81
- $\alpha$ -Methylene ketone  
Effect of additives on the bioreduction of 2-chloro-1-phenyl-2-propen-1-one by baker's yeast 23
- 3-*O*-methyl-lactose  
Enzymatic synthesis of 3-*O*-methyl-4-*O*- $\beta$ -D-galactopyranosyl-D-glucose (3-*O*-methyl-lactose); a potential agent for the assessment of intestinal lactase activity 191
- Models  
Experimental validation of a model for  $\alpha$ -chymotrypsin activity in aqueous solutions of surfactant aggregates 1
- Monooctanoyl glycerol  
Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135
- Multifunctional amino acids  
SDS-subtilisin catalyzed synthesis of tetra-peptides containing multifunctional amino acid residues in ethanol 105
- NBO analysis  
Studies on the reaction mechanism of RNase T1 with quantum chemical reactivity indexes 29
- 4-Nitrophenylacetate  
Design, synthesis and evaluation of two diastereoisomeric phosphonate inhibitors of lamb pregastric lipase 15
- n*-Octanoic acid  
Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135
- Organic solvent  
Enzymatic nitration of phenols 55  
SDS-subtilisin catalyzed synthesis of tetra-peptides containing multifunctional amino acid residues in ethanol 105
- Organic-inorganic hybrid silicate  
Enhancement of activity of sol-gel immobilized lipase in organic media by pretreatment with substrate analogues 65
- OSC-PLS  
Isolation and purification of cysteine peptidases from the latex of *Araujia hortorum* fruits. Study of their esterase activities using partial least-squares (PLS) modeling 177
- Penicillin G acylase  
Cephalexin synthesis by immobilised penicillin G acylase under non-isothermal conditions: reduction of diffusion limitation 163
- pHEMA membrane  
Immobilization of catalase via adsorption onto L-histidine grafted functional pHEMA based membrane 197

## Phenols

Enzymatic nitration of phenols 55

(S)-(+)- $\alpha$ -phenyl-2-pyridylmethanol

Synthesis of optically active  $\alpha$ -phenylpyridylmethanols by *Camellia sinensis* cell culture 173

## Phosphonate

Design, synthesis and evaluation of two diastereoisomeric phosphonate inhibitors of lamb pregastric lipase 15

## Phytoplankton

Stereoselective reduction of keto esters with marine microalgae 101

## Plant peptidases

Isolation and purification of cysteine peptidases from the latex of *Araujia hortorum* fruits. Study of their esterase activities using partial least-squares (PLS) modeling 177

## Poly(acrylamide) gel

Catalytic activity of immobilized fumarase 93

## Pregastric lipase

Design, synthesis and evaluation of two diastereoisomeric phosphonate inhibitors of lamb pregastric lipase 15

*Pseudomonas putida* ATCC 12633

Substrate spectrum of mandelate racemase. Part 1: Variation of the  $\alpha$ -hydroxy acid moiety 207

Substrate spectrum of mandelate racemase. Part 2. (Hetero)-aryl-substituted mandelate derivatives and modulation of activity 213

## QSAR

Isolation and purification of cysteine peptidases from the latex of *Araujia hortorum* fruits. Study of their esterase activities using partial least-squares (PLS) modeling 177

## Racemization

Substrate spectrum of mandelate racemase. Part 1: Variation of the  $\alpha$ -hydroxy acid moiety 207

## RNAse T1

Studies on the reaction mechanism of RNAse T1 with quantum chemical reactivity indexes 29

*Saccharomyces cerevisiae*

Effect of additives on the bioreduction of 2-chloro-1-phenyl-2-propen-1-one by baker's yeast 23

## SBA-15

Enzyme immobilisation using SBA-15 mesoporous molecular sieves with functionalised surfaces 81

## SDS-subtilisin

SDS-subtilisin catalyzed synthesis of tetra-peptides containing multifunctional amino acid residues in ethanol 105

## Silica

Stability of free and immobilised peroxidase in aqueous-organic solvents mixtures 147

## Sol-gel method

Enhancement of activity of sol-gel immobilized lipase in organic media by pretreatment with substrate analogues 65

## Soybean peroxidase

Enzymatic nitration of phenols 55

## Stability

Enzymatic nitration of phenols 55

## Stereoselective reduction

Stereoselective reduction of keto esters with marine microalgae 101

## Substrate analogue

Enhancement of activity of sol-gel immobilized lipase in organic media by pretreatment with substrate analogues 65

## Subtilisin

SDS-subtilisin catalyzed synthesis of tetra-peptides containing multifunctional amino acid residues in ethanol 105

## Surfactants

Experimental validation of a model for  $\alpha$ -chymotrypsin activity in aqueous solutions of surfactant aggregates 1

## Thermodialysis reactor

Cephalexin synthesis by immobilised penicillin G acylase under non-isothermal conditions: reduction of diffusion limitation 163

## Thermostability

Stability of free and immobilised peroxidase in aqueous-organic solvents mixtures 147

## Thermostable

Characterization of a thermostable  $\beta$ -glucosidase (BglB) from *Thermotoga maritima* showing transglycosylation activity 45

*Thermotoga maritima*

Characterization of a thermostable  $\beta$ -glucosidase (BglB) from *Thermotoga maritima* showing transglycosylation activity 45

## Transglycosylation

Characterization of a thermostable  $\beta$ -glucosidase (BglB) from *Thermotoga maritima* showing transglycosylation activity 45

*trans*-2-Methyl-1-cyclohexanol

Resolution of racemic *trans*-2-methyl-1-cyclohexanol by lipase-catalysed transesterification in a membrane reactor 71

## Triacylglycerol

Design, synthesis and evaluation of two diastereoisomeric phosphonate inhibitors of lamb pregastric lipase 15

## Trioctanoyl glycerol

Thermodynamics of the lipase-catalyzed esterification of glycerol and *n*-octanoic acid in organic solvents and in the neat reaction mixture 135

## Trypsin

Enzyme immobilisation using SBA-15 mesoporous molecular sieves with functionalised surfaces 81
