

(Contents Continued from outside back cover)

Microwave activation of enzymatic catalysts for biodiesel production	
B.M. Nogueira, C. Carretoni (Rio de Janeiro, Brazil), R. Cruz (Rio de Janeiro, Brazil and Duque de Caxias, Brazil), S. Freitas, P.A. Melo Jr. (Rio de Janeiro, Brazil), R. Costa-Félix (Duque de Caxias, Brazil), J.C. Pinto and M. Nele (Rio de Janeiro, Brazil)	117
Enhanced biomimetic sequestration of CO ₂ into CaCO ₃ using purified carbonic anhydrase from indigenous bacterial strains	
A. Sharma and A. Bhattacharya (Jabalpur, India)	122
Supported ionic liquids in <i>Burkholderia cepacia</i> lipase-catalyzed asymmetric acylation	
P. Hara (Turku, Finland), J.-P. Mikkola (Turku, Finland and Umeå, Sweden), D.Y. Murzin and L.T. Kanerva (Turku, Finland)	129
Lipase-mediated preparation of optically active isomers of Rosaphen®	
M. Kawasaki (Toyama-Ken, Japan), N. Toyooka, T. Saka, M. Goto, Y. Matsuya and T. Kometani (Toyama, Japan)	135
Lipase-catalyzed syntheses of linear and hyperbranched polyesters using compressed fluids as solvent media	
A. López-Luna, J.L. Gallegos, M. Gimeno, E. Vivaldo-Lima and E. Bárzana (Mexico, Mexico)	143
A highly sensitive enzymatic assay for D- and total serine detection using D-serine dehydratase from <i>Saccharomyces cerevisiae</i>	
T. Naka, T. Ito, H. Hemmi and T. Yoshimura (Nagoya, Japan)	150
Enhancement of the enzymatic activity of <i>Escherichia coli</i> acetyl esterase by random mutagenesis	
R. Kobayashi, N. Hirano (Fukushima, Japan), S. Kanaya (Osaka, Japan), I. Saito and M. Haruki (Fukushima, Japan)	155
