

**Correction to Stereoselective Synthesis of MLN4924, an Inhibitor of NEDD8-Activating Enzyme** [*The Journal of Organic Chemistry* **2011**, ASAP DOI: 10.1021/jo2001897]. Hyuk Woo Lee, Soo Kyung Nam, Won Jun Choi, Hea Ok Kim, and Lak Shin Jeong\*

Pages B and C and Supporting Information. The purine structure in compounds **1**, **8**, **9**, **10**, and **11** was incorrectly drawn. The corrected structure is shown below. This correction applies to Scheme 1, Scheme 3, and the Supporting Information.

**1, 8, 9, 10, and 11**

Page B (left column, second line) and page D (left column, bottom paragraph). “*N*<sup>6</sup>-indanyl-7-deazaadenine” is revised to “(S)-(+)-4-(indan-1-yl)-amino-7*H*-pyrrolo[2,3-*d*]pyrimidine” to avoid the confusion in the nomenclature of compounds in the Experimental Section.

Page B (left column, fourth line). “...the desired *N*<sup>9</sup>-isomer **8**” is corrected as “...the desired *N*<sup>7</sup>-isomer **8**”.
