## Subject Index of Volume 85

### Activation energies

- activation energies in semiconductor photocatalysis for water purification: the 4-chlorophenol-TiO<sub>2</sub>-O<sub>2</sub> photosystem, 173

### Adsorption

- adsorption properties of TiO<sub>2</sub> related to the photocatalytic degradation of organic contaminants in water, 179

### Amines

- photophysical studies on charge transfer complexes of  $\gamma$ -cyclodextrin-C<sub>60</sub> with electron-rich amines and sulphur compounds, 63

### Anthracene

- fluorescence studies on a supramolecular porphyrin bearing anthracene donor moieties, 127

### Azidopentaammine cobalt(III) complex

- azidopentaammine cobalt(III) complex: a selective photo-oxidant of *ortho*-phenylphenol in aqueous solution, 231

### 2,3-Benzofuran

- the photodegradation of 2,3-benzofuran and its intermediates, 2-coumaranone and salicylaldehyde, in TiO<sub>2</sub> aqueous suspensions, 257

### Benzophenone

- new intermediates in the reaction of benzophenone photo-reduction by hydrogen donors, 39

### Charge transfer

- photophysical studies on charge transfer complexes of  $\gamma$ -cyclodextrin-C<sub>60</sub> with electron-rich amines and sulphur compounds, 63

### Charge transfer interaction

- studies of charge transfer interaction of nucleosides with pro-flavine, 91

### Chemiluminescence reaction

- degradation of rhodamine 6G in the peroxyoxalate chemiluminescent reaction, 281

### Chlorohydroquinone

- phototransformation of chlorohydroquinone in aqueous solution, 213

### Chlorophyll phytyl chain

- photodegradation of chlorophyll phytyl chain in dead phytoplanktonic cells, 137

### 2-Coumaranone

- the photodegradation of 2,3-benzofuran and its intermediates, 2-coumaranone and salicylaldehyde, in TiO<sub>2</sub> aqueous suspensions, 257

### Coumarins

- spectroscopic studies of 7-diethylamino-3-styryl coumarins, 263

### Coupled semiconductors

- exploiting the interparticle electron transfer process in the photocatalysed oxidation of phenol, 2-chlorophenol and pentachlorophenol: chemical evidence for electron and hole transfer between coupled semiconductors, 247

### Crystal violet

- electrophotographic photoreceptor devices incorporating polyphenylacetylene sensitized by crystal violet, 147

### Cyanobiphenyls

- excited state relaxation channels of liquid-crystalline cyanobiphenyls and a ring-bridged model compound. Comparison of bulk and dilute solution properties, 11

### $\gamma$ -Cyclodextrin-C<sub>60</sub>

- photophysical studies on charge transfer complexes of  $\gamma$ -cyclodextrin-C<sub>60</sub> with electron-rich amines and sulphur compounds, 63

### Deactivation

- deactivation of excited xanthene dye dimers, 275

### Degradation

- degradation of rhodamine 6G in the peroxyoxalate chemiluminescent reaction, 281

### Diazosulphonate group

- photolabile surfactants based on the diazosulphonate group 2. 4-(Acyloxy)benzenediazosulphonates and 4-(acylamino)-benzenediazosulphonates, 291

### Dihydroazulenes

- photoreaction of dihydroazulenes into vinylheptafulvenes: photochromism of nitrophenyl-substituted derivatives, 217

### 4,4'-Distyrylazobenzenes

- photokinetic examination of (Z,E,E)-4,4'-distyrylazobenzene, 207

### Electron transfer

- electron transfer and magnetic field effects in covalently linked pyrenyl-oligopeptide-dimethylaniline compounds, 77
- exploiting the interparticle electron transfer process in the photocatalysed oxidation of phenol, 2-chlorophenol and pentachlorophenol: chemical evidence for electron and hole transfer between coupled semiconductors, 247

### Electron transfer oxygenation

- triphenylpyrylium-salt-sensitized electron transfer oxygenation furan derivatives. Product isolation, fluorescence quenching and laser flash photolysis studies, 53

### Electron-transfer reaction

- electron transfer reactions between nucleic acid bases and tetracyanoethylene in acetonitrile, 85

### Electrophotographic photoreceptor

- electrophotographic photoreceptor devices incorporating polyphenylacetylene sensitized by crystal violet, 147

### Energetics

- photochemistry of the gaseous hydrogen peroxide-carbon monoxide system III. Calculated energetics for possible HO<sub>2</sub>-CO complexes, 201

### Excited state

- excited state properties of 10-phenyl-benzo[b][1,6]naphthridines in solution, 23
- solvent polarity and viscosity effect on the fluorescence spectrum and excited state lifetime of quinine dication, 33

- Excited xanthene dye dimers  
deactivation of excited xanthene dye dimers, 275
- Fluorescein  
temperature dependence of the photobleaching process of fluorescein in poly(vinyl alcohol), 285
- Fluorescence  
solvent polarity and viscosity effect on the fluorescence spectrum and excited state lifetime of quinine dication, 33  
fluorescence studies on a supramolecular porphyrin bearing anthracene donor moieties, 127
- Fluorescence quenching  
triphenylpyrylium-salt-sensitized electron transfer oxygenation furan derivatives. Product isolation, fluorescence quenching and laser flash photolysis studies, 53
- Furan derivatives  
triphenylpyrylium-salt-sensitized electron transfer oxygenation furan derivatives. Product isolation, fluorescence quenching and laser flash photolysis studies, 53
- HO<sub>2</sub>-CO complexes  
photochemistry of the gaseous hydrogen peroxide-carbon monoxide system III. Calculated energetics for possible HO<sub>2</sub>-CO complexes, 201
- Hydrogen donor  
new intermediates in the reaction of benzophenone photo-reduction by hydrogen donors, 39
- Hydrogen peroxide-carbon monoxide  
photochemistry of the gaseous hydrogen peroxide-carbon monoxide system III. Calculated energetics for possible HO<sub>2</sub>-CO complexes, 201
- Hydrogen photoproduction  
photochemical hydrogen evolution from alkaline solutions of xanthene dyes, 269
- Ketocyanine dye  
studies of solvation in homogeneous media by a spectroscopic method: a ketocyanine dye in neat and mixed binary solvents, 153
- Ketonization  
photoinduced ketonization of poly(ethylacrylate) in solution, 191
- Laser flash photolysis  
triphenylpyrylium-salt-sensitized electron transfer oxygenation furan derivatives. Product isolation, fluorescence quenching and laser flash photolysis studies, 53
- Laser photolysis  
selective laser photolysis of organic molecules in complex matrices, 165
- Magnetic field effects  
electron transfer and magnetic field effects in covalently linked pyrenyl-oligopeptide-dimethylaniline compounds, 77
- Merocyanine dye  
photoinduced changes in structure and function of hexadecyl merocyanine dyes incorporated into lipid membranes, 161
- Methyl orange  
photochemistry of semiconductor particles 3. Effects of surface charge on reduction rate of methyl orange photosensitized by ZnS sols, 239
- Mixed binary solvents  
studies of solvation in homogeneous media by a spectroscopic method: a ketocyanine dye in neat and mixed binary solvents, 153
- NH heteroaromatic compounds  
solid state photoaddition reactions in polycrystalline mixtures of NH heteroaromatic compounds and *trans*-stilbene, 225
- Nucleic acid bases  
electron transfer reactions between nucleic acid bases and tetracyanoethylene in acetonitrile, 85
- Nucleosides  
studies of charge transfer interaction of nucleosides with proflavine, 89
- Organic contaminants  
adsorption properties of TiO<sub>2</sub> related to the photocatalytic degradation of organic contaminants in water, 179
- Peroxyoxalate  
degradation of rhodamine 6G in the peroxyoxalate chemiluminescent reaction, 281
- Phenylalanine  
photolysis ( $\lambda=254$  nm) of phenylalanine in aqueous solution, 101
- 10-Phenyl-benzo[b][1,6]naphthyridines  
excited state properties of 10-phenyl-benzo[b][1,6]naphthyridines in solution, 23
- Phenylphenol  
Azidopentaammine cobalt(III) complex: a selective photo-oxidant of *ortho*-phenylphenol in aqueous solution, 231
- Photoacoustic calorimetry  
deactivation of excited xanthene dye dimers, 275
- Photobleaching  
temperature dependence of the photobleaching process of fluorescein in poly(vinyl alcohol), 285
- Photocatalytic degradation  
adsorption properties of TiO<sub>2</sub> related to the photocatalytic degradation of organic contaminants in water, 179  
photocatalytic degradation of sulfonated aromatics in aqueous TiO<sub>2</sub> suspension, 187
- Photocatalyzed oxidation  
exploiting the interparticle electron transfer process in the photocatalysed oxidation of phenol, 2-chlorophenol and pentachlorophenol: chemical evidence for electron and hole transfer between coupled semiconductors, 247
- Photochromism  
photoreaction of dihydroazulenes into vinylheptafulvenes: photochromism of nitrophenyl-substituted derivatives, 217
- Photodegradation  
photodegradation of chlorophyll *a* chain in dead phytoplanktonic cells, 137  
the photodegradation of 2,3-benzofuran and its intermediates, 2-coumaranone and salicylaldehyde, in TiO<sub>2</sub> aqueous suspensions, 257
- Photokinetic equilibrium  
photokinetic examination of (*Z,E,E*)-4,4'-distyrylazobenzene, 207
- Photolabile surfactants  
photolabile surfactants based on the diazosulphonate group 2. 4-(Acyloxy)benzenediazosulphonates and 4-(acylamino)-benzenediazosulphonates, 291
- Photolysis  
photolysis ( $\lambda=254$  nm) of tetrachloroethene in aqueous solutions, 1  
photolysis ( $\lambda=254$  nm) of phenylalanine in aqueous solution, 101  
photolysis of bis(methoxyphenyl) methylphosphonates, 111
- Photo-oxidants  
azidopentaammine cobalt(III) complex: a selective photo-oxidant of *ortho*-phenylphenol in aqueous solution, 231

- Photo-oxidation**  
photo-oxidation and photosensitized oxidations of vitamin A and its palmitate ester, 93
- Photophysical studies**  
photophysical studies on charge transfer complexes of  $\gamma$ -cyclodextrin- $C_{60}$  with electron-rich amines and sulphur compounds, 63
- Photoreduction**  
new intermediates in the reaction of benzophenone photo-reduction by hydrogen donors, 39  
photochemistry of semiconductor particles 3. Effects of surface charge on reduction rate of methyl orange photosensitized by ZnS sols, 239
- Photosensitized oxidation**  
photo-oxidation and photosensitized oxidations of vitamin A and its palmitate ester, 93
- Phototransformation**  
phototransformation of chlorohydroquinone in aqueous solution, 213
- Photovoltage**  
photoinduced changes in structure and function of hexadecyl merocyanine dyes incorporated into lipid membranes, 161
- Phytoplanktonic cells**  
photodegradation of chlorophyll phytyl chain in dead phytoplanktonic cells, 137
- Polyphenylacetylene**  
electrophotographic photoreceptor devices incorporating polyphenylacetylene sensitized by crystal violet, 147
- Poly(vinyl alcohol)**  
temperature dependence of the photobleaching process of fluorescein in poly(vinyl alcohol), 285
- Porphyrins**  
fluorescence studies on a supramolecular porphyrin bearing anthracene donor moieties, 127
- Proflavine**  
studies of charge transfer interaction of nucleosides with proflavine, 89
- Proteins**  
mechanism of proton transfer in proteins II. Relationship between local properties of solvent and rate of excited state proton transfer for 2-naphthol derivatives bound to selected sites of proteins, 69
- Proton transfer**  
mechanism of proton transfer in proteins II. Relationship between local properties of solvent and rate of excited state proton transfer for 2-naphthol derivatives bound to selected sites of proteins, 69
- Quinine dication**  
solvent polarity and viscosity effect on the fluorescence spectrum and excited state lifetime of quinine dication, 33
- Recombination reaction**  
electron transfer and magnetic field effects in covalently linked pyrenyl-oligopeptide-dimethylaniline compounds, 77
- Reductive luminescence quenching**  
 $Ru(bpy)_3^{2+}$  bound to an insoluble polymeric phase. Reductive luminescence quenching, 143
- Relaxation channels**  
excited state relaxation channels of liquid-crystalline cyanobiphenyls and a ring-bridged model compound. Comparison of bulk and dilute solution properties, 11
- Rhodamine 6G**  
degradation of rhodamine 6G in the peroxyoxalate chemiluminescent reaction, 281
- Ring-bridged model**  
excited state relaxation channels of liquid-crystalline cyanobiphenyls and a ring-bridged model compound. Comparison of bulk and dilute solution properties, 11
- Salicylaldehyde**  
the photodegradation of 2,3-benzofuran and its intermediates, 2-coumaranone and salicylaldehyde, in  $TiO_2$  aqueous suspensions, 257
- Semiconductor particles**  
photochemistry of semiconductor particles 3. Effects of surface charge on reduction rate of methyl orange photosensitized by ZnS sols, 239
- Semiconductor photocatalysis**  
activation energies in semiconductor photocatalysis for water purification: the 4-chlorophenol- $TiO_2$ - $O_2$  photosystem, 173
- Solid state photoaddition**  
solid state photoaddition reactions in polycrystalline mixtures of NH heteroaromatic compounds and *trans*-stilbene, 225
- Solvent polarity**  
solvent polarity and viscosity effect on the fluorescence spectrum and excited state lifetime of quinine dication, 33
- Spin dynamics**  
electron transfer and magnetic field effects in covalently linked pyrenyl-oligopeptide-dimethylaniline compounds, 77
- Sulfonated aromatics**  
photocatalytic degradation of sulfonated aromatics in aqueous  $TiO_2$  suspension, 187
- Sulphur compounds**  
photophysical studies on charge transfer complexes of  $\gamma$ -cyclodextrin- $C_{60}$  with electron-rich amines and sulphur compounds, 63
- Tetrachloroethane**  
photolysis ( $\lambda = 254$  nm) of tetrachloroethene in aqueous solutions, 1
- Tetracyanoethylene**  
electron transfer reactions between nucleic acid bases and tetracyanoethylene in acetonitrile, 85
- $TiO_2$**   
the photodegradation of 2,3-benzofuran and its intermediates, 2-coumaranone and salicylaldehyde, in  $TiO_2$  aqueous suspensions, 257
- Trans*-stilbene**  
solid state photoaddition reactions in polycrystalline mixtures of NH heteroaromatic compounds and *trans*-stilbene, 225
- Triphenylpyrylium-salt**  
triphenylpyrylium-salt-sensitized electron transfer oxygenation furan derivatives. Product isolation, fluorescence quenching and laser flash photolysis studies, 53
- UV/Vis spectra**  
UV-visible spectra of some nitro-substituted porphyrins, 119
- Vinylheptafulvenes**  
photoreaction of dihydroazulenes into vinylheptafulvenes: photochromism of nitrophenyl-substituted derivatives, 217
- Viscosity**  
solvent polarity and viscosity effect on the fluorescence spectrum and excited state lifetime of quinine dication, 33
- Vitamin A**  
photo-oxidation and photosensitized oxidations of vitamin A and its palmitate ester, 95
- Xanthene dyes**  
photochemical hydrogen evolution from alkaline solutions of xanthene dyes, 269
- X-ray diffraction**  
photoinduced changes in structure and function of hexadecyl merocyanine dyes incorporated into lipid membranes, 161
