

### Corrigendum

## Corrigendum to “Photophysics of 8-anilinonaphthalene-1-sulphonate” [J. Photochem. Photobiol. A: Chem., 89 (1995) 201–207] <sup>1</sup>

Ashutosh Upadhyay, T. Bhatt, H.B. Tripathi, D.D. Pant

Received 20 October 1994; accepted 7 February 1995

The authors regret that Figs. 1, 2, 4(a), 4(b) and 5 in this article were generated on the basis of distorted spectra produced by a standard fluorometer (JASCO model FP 777). The distortions are due to Wood's anomaly produced by the grating and other distortions. However, the conclusions reached are not vitiated.
