

Subject Index of Volume 108, Issue 1

Adsorption

- inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37

Ammonia

- photocatalytic reduction of nitrite and nitrate ions to ammonia on M/TiO_2 catalysts, 73

Aqueous solution

- photocatalytic degradation of 1,4-dioxane in aqueous solution, 55

Aqueous suspension

- photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45

Catalysis

- sensitized photocatalytic oxidation of herbicides using natural sunlight, 89

Characterization

- synthesis, characterization and photocatalytic properties of iron-doped TiO_2 catalysts, 79

1,2-Dichloroethane

- inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37

2,4-Dihydroxybenzoic acid

- photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65

1,4-Dioxane

- photocatalytic degradation of 1,4-dioxane in aqueous solution, 55

Distribution of products

- photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45

Dithiolenes

- new catalysts in the photo-oxidation of water, 51

Environment

- UV-photoassisted degradation of phenyltin(IV) chlorides in water, 59

Experimental design

- photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65

Herbicide

- sensitized photocatalytic oxidation of herbicides using natural sunlight, 89

Heterogeneous photocatalysis

- an overview of semiconductor photocatalysis, 1

Inorganic ions

- inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37

Iron-doped TiO_2 catalysts

- synthesis, characterization and photocatalytic properties of iron-doped TiO_2 catalysts, 79

Kinetics

- inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37

Light storage

- new catalysts in the photo-oxidation of water, 51

Modeling

- photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65

Noble metal loaded TiO_2

- photocatalytic reduction of nitrite and nitrate ions to ammonia on M/TiO_2 catalysts, 73

Phenyltins

- UV-photoassisted degradation of phenyltin(IV) chlorides in water, 59

Photocatalysis

- inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37
- photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45
- photocatalytic degradation of cetylpyridinium chloride over titanium dioxide powder, 85

Photocatalytic degradation

- photocatalytic degradation of 1,4-dioxane in aqueous solution, 55
- photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65

Photocatalytic properties

- synthesis, characterization and photocatalytic properties of iron-doped TiO_2 catalysts, 79

Photocatalytic reduction

- photocatalytic reduction of nitrite and nitrate ions to ammonia on M/TiO_2 catalysts, 73

Photodegradation

- UV-photoassisted degradation of phenyltin(IV) chlorides in water, 59

Photo-oxidation of water

- new catalysts in the photo-oxidation of water, 51

Positive holes

- photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45

Reduction of nitrite and nitrate ions

- photocatalytic reduction of nitrite and nitrate ions to ammonia on M/TiO_2 catalysts, 73

Ruthenium(II) complexes

sensitized photocatalytic oxidation of herbicides using natural sunlight, 89

Semiconductor photocatalysis

an overview of semiconductor photocatalysis, 1

Sensitization

sensitized photocatalytic oxidation of herbicides using natural sunlight, 89

Surfactant degradation

photocatalytic degradation of cetylpyridinium chloride over titanium dioxide powder, 85

Synthesis

synthesis, characterization and photocatalytic properties of iron-doped TiO_2 catalysts, 79

 TiO_2

photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65

Titanium dioxide

inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37

photocatalytic degradation of cetylpyridinium chloride over titanium dioxide powder, 85

sensitized photocatalytic oxidation of herbicides using natural sunlight, 89

Triazine

sensitized photocatalytic oxidation of herbicides using natural sunlight, 89

Wastewater

inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37

ZnO

photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45
