

Subject Index of Volume 108

- Absorbance**
spectroscopic studies of the interaction of the dye safranine T with Brij micelles in aqueous medium, 267
- Absorption cross-sections**
 $\text{CF}_3\text{C}(\text{O})\text{Cl}$: Temperature-dependent (223–298 K) absorption cross-sections and quantum yields at 254 nm, 105
- Acetylene**
the photoreduction of acetylene by band-gap irradiation of TiO_2 using $\text{Mo}_2\text{O}_4(\text{diethyldithiocarbamate})_2$ as a catalyst, 215
- Activation energy**
spectral properties of coumarin derivatives substituted at position 3. Effect of polymer matrix, 283
- Adsorption**
inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37
a study on dye photoremoval in TiO_2 suspension solution, 235
- Aerosol OT reverse micelles**
luminescence behaviour of phenosafranin in reverse micelles of AOT in *n*-heptane, 261
- Alkyl naphthalenes**
photo-oxidation of 1-methylnaphthalene dissolved in seawater and exposed to sunlight under quasi-environmental conditions, 253
- Amino acid**
fate of amino acids upon exposure to aqueous titania irradiated with UV-A and UV-B radiation Photocatalyzed formation of NH_3 , NO_3^- , and CO_2 , 197
- Amino acids**
photocatalytic reduction of nicotinamide coenzymes in the presence of titanium dioxide: The influence of aliphatic amino acids, 207
- Ammonia**
photocatalytic reduction of nitrite and nitrate ions to ammonia on M/TiO_2 catalysts, 73
- Aqueous solution**
photocatalytic degradation of 1,4-dioxane in aqueous solution, 55
- Aqueous suspension**
photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45
- Atmosphere**
 $\text{CF}_3\text{C}(\text{O})\text{Cl}$: Temperature-dependent (223–298 K) absorption cross-sections and quantum yields at 254 nm, 105
- Band-gap irradiation**
the photoreduction of acetylene by band-gap irradiation of TiO_2 using $\text{Mo}_2\text{O}_4(\text{diethyldithiocarbamate})_2$ as a catalyst, 215
- Bioimprinting**
nitrospiropyran-modified α -chymotrypsin, a photostimulated biocatalyst in an organic solvent: effects of bioimprinting, 247
- Brij micelles**
spectroscopic studies of the interaction of the dye safranine T with Brij micelles in aqueous medium, 267
- Bromide ion**
flash-photolysis of di- μ -oxo-bis(oxomolybdate(V)) in the presence of bromide ion, 117
- Catalysis**
sensitized photocatalytic oxidation of herbicides using natural sunlight, 89
- Catalytic ability**
a study on dye photoremoval in TiO_2 suspension solution, 235
- Characterization**
synthesis, characterization and photocatalytic properties of iron-doped TiO_2 catalysts, 79
- Chlorophyllin**
a nanoporous solid-state photovoltaic cell sensitized with copper chlorophyllin, 175
- α -Chymotrypsin**
nitrospiropyran-modified α -chymotrypsin, a photostimulated biocatalyst in an organic solvent: effects of bioimprinting, 247
- CIDEP**
time-resolved ESR study of electron transfer process between phenothiazine and maleic anhydride, 155
- Collision-induced intramolecular energy transfer**
elastic scattering of Sm in collision with He, Ne, Ar, Kr and Xe and relative cross-sections for intramolecular electronic energy transfer in SmO, 99
- Coumarin**
spectral properties of coumarin derivatives substituted at position 3. Effect of polymer matrix, 283
- Crystalline form**
a study on dye photoremoval in TiO_2 suspension solution, 235
- Cyanidin**
nanoporous TiO_2 photoanode sensitized with the flower pigment cyanidin, 193
- 3,5-Dichloro-4-aminophenyl cation**
unusual features in the triplet state EPR spectrum of 3,5-dichloro-4-aminophenyl cation, 149
- 1,2-Dichloroethane**
inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37
- 2,4-Dihydroxybenzoic acid**
photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65
- Dimethyldiazirine**
fluorescence and radiationless decay pathways of dimethyldiazirine (S_1) in the gas phase, 123
- 1,4-Dioxane**
photocatalytic degradation of 1,4-dioxane in aqueous solution, 55
- Dissolved oil components**
photo-oxidation of 1-methylnaphthalene dissolved in seawater and exposed to sunlight under quasi-environmental conditions, 253
- Elsevier Science S.A.

- Distribution of products
 photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45
- Dithiolenes
 new catalysts in the photo-oxidation of water, 51
- Dye sensitization
 a nanoporous solid-state photovoltaic cell sensitized with copper chlorophyllin, 175
 nanoporous TiO₂ photoanode sensitized with the flower pigment cyanidin, 193
- Effect of solvents
 effect of solvents on photocatalytic reduction of carbon dioxide using TiO₂ nanocrystal photocatalyst embedded in SiO₂ matrices, 187
- Elastic scattering cross-sections
 elastic scattering of Sm in collision with He, Ne, Ar, Kr and Xe and relative cross-sections for intramolecular electronic energy transfer in SmO, 99
- Electron transfer
 time-resolved ESR study of electron transfer process between phenothiazine and maleic anhydride, 155
- Environment
 UV-photoassisted degradation of phenyltin(IV) chlorides in water, 59
- EPR
 EPR studies of the photodynamic action of mercapto-substituted hypocrellin B derivatives: formation of semiquinone radical anion and activated oxygen on illumination with visible light, 159
- Experimental design
 photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65
- Firing temperature
 a study on dye photoremoval in TiO₂ suspension solution, 235
- Flash-photolysis
 flash-photolysis of di- μ -oxo-bis(oxomolybdate(V)) in the presence of bromide ion, 117
- Fluorescence
 fluorescence and radiationless decay pathways of dimethyldiazirine (S₁) in the gas phase, 123
 spectroscopic studies of the interaction of the dye safranin T with Brij micelles in aqueous medium, 267
 phthalocyanines bound to insoluble polystyrene. Synthesis and properties as energy-transfer photosensitizers, 273
 spectral properties of coumarin derivatives substituted at position 3. Effect of polymer matrix, 283
- Fulgides
 comparison of the photochromic properties of fulgides and fulgimides, 239
- Fulgimides
 comparison of the photochromic properties of fulgides and fulgimides, 239
- Ground state prototropic equilibria
 ground and excited state prototropic behavior of 1-(purin-6-yl)-3-methylimidazolium chloride, 135
- H-Bonding
 ground- and excited-state interactions between the tris(2,2'-bipyridine)ruthenium(2+) ion and phenol in aqueous solution, 129
- Herbicide
 sensitized photocatalytic oxidation of herbicides using natural sunlight, 89
- Heterogeneous photocatalysis
 an overview of semiconductor photocatalysis, 1
- Hypocrellin A
 interaction between hypocrellin A and some biological substrates with emphasis on an electron transfer mechanism, 169
- Inert gases
 elastic scattering of Sm in collision with He, Ne, Ar, Kr and Xe and relative cross-sections for intramolecular electronic energy transfer in SmO, 99
- Inorganic ions
 inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO₂ by inorganic ions, 37
- Insoluble polymers
 phthalocyanines bound to insoluble polystyrene. Synthesis and properties as energy-transfer photosensitizers, 273
- Iron
 iron(III)-doped Q-sized TiO₂ coatings in a fiber-optic cable photochemical reactor, 221
- Iron-doped TiO₂ catalysts
 synthesis, characterization and photocatalytic properties of iron-doped TiO₂ catalysts, 79
- Kinetics
 inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO₂ by inorganic ions, 37
 a study on dye photoremoval in TiO₂ suspension solution, 235
- Light storage
 new catalysts in the photo-oxidation of water, 51
- Luminescence behavior
 luminescence behaviour of phenosafranin in reverse micelles of AOT in *n*-heptane, 261
- Mass spectrometry
 photo-oxidation of 1-methylnaphthalene dissolved in seawater and exposed to sunlight under quasi-environmental conditions, 253
- Mo₂O₄(dedtc)₂ catalyst
 the photoreduction of acetylene by band-gap irradiation of TiO₂ using Mo₂O₄(diethyldithiocarbamate)₂ as a catalyst, 215
- Modeling
 photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65
- Molecular beam chemiluminescence
 elastic scattering of Sm in collision with He, Ne, Ar, Kr and Xe and relative cross-sections for intramolecular electronic energy transfer in SmO, 99
- Molybdenum dimers
 flash-photolysis of di- μ -oxo-bis(oxomolybdate(V)) in the presence of bromide ion, 117
- Nanocrystallites
 nanoporous TiO₂ photoanode sensitized with the flower pigment cyanidin, 193
- Nano-porous films
 a nanoporous solid-state photovoltaic cell sensitized with copper chlorophyllin, 175
- Nicotinamide coenzymes
 photocatalytic reduction of nicotinamide coenzymes in the presence of titanium dioxide: The influence of aliphatic aminoacids, 207
- Nitro Blue Tetrazolium
 interaction between hypocrellin A and some biological substrates with emphasis on an electron transfer mechanism, 169
- Nitrospiropyran
 nitrospiropyran-modified α -chymotrypsin, a photostimulated biocatalyst in an organic solvent: effects of bioimprinting, 247
- NMR
 ground- and excited-state interactions between the tris(2,2'-bipyridine)ruthenium(2+) ion and phenol in aqueous solution, 129

- Noble metal loaded TiO₂
 photocatalytic reduction of nitrite and nitrate ions to ammonia on M/
 TiO₂ catalysts, 73
- Optical fiber reactor
 iron(III)-doped Q-sized TiO₂ coatings in a fiber-optic cable photo-
 chemical reactor, 221
- Phenosafranin
 luminescence behaviour of phenosafranin in reverse micelles of AOT
 in *n*-heptane, 261
- Phenyltins
 UV-photoassisted degradation of phenyltin(IV) chlorides in water, 59
- Photocatalysis
 inhibition of the adsorption and photocatalytic degradation of an
 organic contaminant in an aqueous suspension of TiO₂ by inor-
 ganic ions, 37
 photocatalytic transformation of aromatic compounds in aqueous zinc
 oxide suspensions: effect of substrate concentration on the distribu-
 tion of products, 45
 photocatalytic degradation of cetylpyridinium chloride over titanium
 dioxide powder, 85
 photoconductive and photocatalytic properties of ZrTiO₄. Comparison
 with the parent oxides TiO₂ and ZrO₂, 179
 fate of amino acids upon exposure to aqueous titania irradiated with
 UV-A and UV-B radiation Photocatalyzed formation of NH₃,
 NO₃⁻, and CO₂, 197
- Photocatalytic degradation
 photocatalytic degradation of 1,4-dioxane in aqueous solution, 55
 photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: effi-
 ciency optimization and mechanistic investigations, 65
- Photocatalytic killing effect
 the study of the photokilling effect and mechanism of ultrafine TiO₂
 particles on U937 cells, 229
- Photocatalytic properties
 synthesis, characterization and photocatalytic properties of iron-doped
 TiO₂ catalysts, 79
- Photocatalytic reduction
 photocatalytic reduction of nitrite and nitrate ions to ammonia on M/
 TiO₂ catalysts, 73
- Photocatalytic reduction of CO₂
 effect of solvents on photocatalytic reduction of carbon dioxide using
 TiO₂ nanocrystal photocatalyst embedded in SiO₂ matrices, 187
- Photochemistry
 fluorescence and radiationless decay pathways of dimethyldiazirine
 (S₁) in the gas phase, 123
- Photochromism
 comparison of the photochromic properties of fulgides and fulgimides,
 239
- Photoconductivity
 photoconductive and photocatalytic properties of ZrTiO₄. Comparison
 with the parent oxides TiO₂ and ZrO₂, 179
- Photodegradation
 UV-photoassisted degradation of phenyltin(IV) chlorides in water,
 59
 fate of amino acids upon exposure to aqueous titania irradiated with
 UV-A and UV-B radiation Photocatalyzed formation of NH₃,
 NO₃⁻, and CO₂, 197
- Photo dehydrogenation
 on the photochemical behaviour of some diarylpyrazolines, 143
- Photodynamic action
 EPR studies of the photodynamic action of mercapto-substituted hypo-
 crellin B derivatives: formation of semiquinone radical anion and
 activated oxygen on illumination with visible light, 159
- Photoelectrochemical cells
 nanoporous TiO₂ photoanode sensitized with the flower pigment
 cyanidin, 193
- Photoimaging system
 quantum yield determination for photolysis of photoimageable poly-
 mer in thin films, 289
- Photoisomerizable materials
 nitrospiropyran-modified α -chymotrypsin, a photostimulated biocata-
 lyst in an organic solvent: effects of bioimprinting, 247
- Photolysis
 quantum yield determination for photolysis of photoimageable poly-
 mer in thin films, 289
- Photolysis products
 CF₃C(O)Cl: Temperature-dependent (223–298 K) absorption cross-
 sections and quantum yields at 254 nm, 105
- Photo-oxidation
 on the photochemical behaviour of some diarylpyrazolines, 143
 fate of amino acids upon exposure to aqueous titania irradiated with
 UV-A and UV-B radiation Photocatalyzed formation of NH₃,
 NO₃⁻, and CO₂, 197
 iron(III)-doped Q-sized TiO₂ coatings in a fiber-optic cable photo-
 chemical reactor, 221
 photo-oxidation of 1-methylnaphthalene dissolved in seawater and
 exposed to sunlight under quasi-environmental conditions, 253
- Photo-oxidation of water
 new catalysts in the photo-oxidation of water, 51
- Photophysics
 ground- and excited-state interactions between the tris(2,2'-bipyri-
 dine)ruthenium(2+) ion and phenol in aqueous solution, 129
- Photoreduction
 the photoreduction of acetylene by band-gap irradiation of TiO₂ using
 Mo₂O₄(diethyldithiocarbamate)₂ as a catalyst, 215
- Photoremoval
 a study on dye photoremoval in TiO₂ suspension solution, 235
- Photosensitization
 EPR studies of the photodynamic action of mercapto-substituted hypo-
 crellin B derivatives: formation of semiquinone radical anion and
 activated oxygen on illumination with visible light, 159
 interaction between hypocrellin A and some biological substrates with
 emphasis on an electron transfer mechanism, 169
- Photoswitchable enzyme
 nitrospiropyran-modified α -chymotrypsin, a photostimulated biocata-
 lyst in an organic solvent: effects of bioimprinting, 247
- Phototautomerization
 ground and excited state prototropic behavior of 1-(purin-6-yl)-3-
 methylimidazolium chloride, 135
- Photovoltaics
 a nanoporous solid-state photovoltaic cell sensitized with copper
 chlorophyllin, 175
- Phthalocyanines
 phthalocyanines bound to insoluble polystyrene. Synthesis and proper-
 ties as energy-transfer photosensitizers, 273
- Polymeric amine
 quantum yield determination for photolysis of photoimageable poly-
 mer in thin films, 289
- Polymer matrix
 spectral properties of coumarin derivatives substituted at position 3.
 Effect of polymer matrix, 283
- Positive holes
 photocatalytic transformation of aromatic compounds in aqueous zinc
 oxide suspensions: effect of substrate concentration on the distribu-
 tion of products, 45
- 1-(Purin-6-yl)-3-methylimidazolium chloride
 ground and excited state prototropic behavior of 1-(purin-6-yl)-3-
 methylimidazolium chloride, 135
- Pyrazolines
 on the photochemical behaviour of some diarylpyrazolines, 143

- Q-particles**
effect of solvents on photocatalytic reduction of carbon dioxide using TiO₂ nanocrystal photocatalyst embedded in SiO₂ matrices, 187
- Quantum yield**
CF₃C(O)Cl: Temperature-dependent (223–298 K) absorption cross-sections and quantum yields at 254 nm, 105
quantum yield determination for photolysis of photoimageable polymer in thin films, 289
- Radiationless processes**
fluorescence and radiationless decay pathways of dimethyldiazirine (S₁) in the gas phase, 123
spectral properties of coumarin derivatives substituted at position 3. Effect of polymer matrix, 283
- Reactive oxygen species**
EPR studies of the photodynamic action of mercapto-substituted hypocrellin B derivatives: formation of semiquinone radical anion and activated oxygen on illumination with visible light, 159
the study of the photokilling effect and mechanism of ultrafine TiO₂ particles on U937 cells, 229
- Reduction of nitrite and nitrate ions**
photocatalytic reduction of nitrite and nitrate ions to ammonia on M/TiO₂ catalysts, 73
- Ring fragmentation**
photo-oxidation of 1-methylnaphthalene dissolved in seawater and exposed to sunlight under quasi-environmental conditions, 253
- Ruthenium(II) complexes**
sensitized photocatalytic oxidation of herbicides using natural sunlight, 89
- Safranine T**
spectroscopic studies of the interaction of the dye safranine T with Brij micelles in aqueous medium, 267
- Samarium**
elastic scattering of Sm in collision with He, Ne, Ar, Kr and Xe and relative cross-sections for intramolecular electronic energy transfer in SmO, 99
- Scintillators**
on the photochemical behaviour of some diarylpyrazolines, 143
- Semiconductor photocatalysis**
an overview of semiconductor photocatalysis, 1
- Semiquinone radical anion**
EPR studies of the photodynamic action of mercapto-substituted hypocrellin B derivatives: formation of semiquinone radical anion and activated oxygen on illumination with visible light, 159
- Sensitization**
sensitized photocatalytic oxidation of herbicides using natural sunlight, 89
- Singlet molecular oxygen**
phthalocyanines bound to insoluble polystyrene. Synthesis and properties as energy-transfer photosensitizers, 273
- Singlet oxygen**
on the photochemical behaviour of some diarylpyrazolines, 143
- Solvent effect**
spectral properties of coumarin derivatives substituted at position 3. Effect of polymer matrix, 283
- Solvent parameters**
spectroscopic studies of the interaction of the dye safranine T with Brij micelles in aqueous medium, 267
- Solvolytic resistance**
comparison of the photochromic properties of fulgides and fulgimides, 239
- π -Stacking**
ground- and excited-state interactions between the tris(2,2'-bipyridine)ruthenium(2+) ion and phenol in aqueous solution, 129
- Substituents at position 3**
spectral properties of coumarin derivatives substituted at position 3. Effect of polymer matrix, 283
- Superoxide radical anion**
interaction between hypocrellin A and some biological substrates with emphasis on an electron transfer mechanism, 169
- Surfactant degradation**
photocatalytic degradation of cetylpyridinium chloride over titanium dioxide powder, 85
- Synthesis**
synthesis, characterization and photocatalytic properties of iron-doped TiO₂ catalysts, 79
- Thin film**
quantum yield determination for photolysis of photoimageable polymer in thin films, 289
- TiO₂**
photocatalytic degradation of 2,4-dihydroxybenzoic acid in water: efficiency optimization and mechanistic investigations, 65
photoconductive and photocatalytic properties of ZrTiO₄. Comparison with the parent oxides TiO₂ and ZrO₂, 179
the photoreduction of acetylene by band-gap irradiation of TiO₂ using Mo₂O₄(diethyldithiocarbamate)₂ as a catalyst, 215
a study on dye photoremoval in TiO₂ suspension solution, 235
- TiO₂/SiO₂ photocatalyst**
effect of solvents on photocatalytic reduction of carbon dioxide using TiO₂ nanocrystal photocatalyst embedded in SiO₂ matrices, 187
- TiO₂ coatings**
iron(III)-doped Q-sized TiO₂ coatings in a fiber-optic cable photochemical reactor, 221
- Titanium dioxide**
inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO₂ by inorganic ions, 37
photocatalytic degradation of cetylpyridinium chloride over titanium dioxide powder, 85
sensitized photocatalytic oxidation of herbicides using natural sunlight, 89
a nanoporous solid-state photovoltaic cell sensitized with copper chlorophyllin, 175
nanoporous TiO₂ photoanode sensitized with the flower pigment cyanidin, 193
fate of amino acids upon exposure to aqueous titania irradiated with UV-A and UV-B radiation Photocatalyzed formation of NH₃, NO₃⁻ and CO₂, 197
photocatalytic reduction of nicotinamide coenzymes in the presence of titanium dioxide: The influence of aliphatic aminoacids, 207
- TRESR**
time-resolved ESR study of electron transfer process between phenothiazine and maleic anhydride, 155
- Triazine**
sensitized photocatalytic oxidation of herbicides using natural sunlight, 89
- Trichloroacetyl chloride**
CF₃C(O)Cl: Temperature-dependent (223–298 K) absorption cross-sections and quantum yields at 254 nm, 105
- Triplet state EPR spectroscopy**
unusual features in the triplet state EPR spectrum of 3,5-dichloro-4-aminophenyl cation, 149
- U937 cells**
the study of the photokilling effect and mechanism of ultrafine TiO₂ particles on U937 cells, 229
- Ultrafine TiO₂ particles**
the study of the photokilling effect and mechanism of ultrafine TiO₂ particles on U937 cells, 229

- UV spectroscopy
ground and excited state prototropic behavior of 1-(purin-6-yl)-3-methylimidazolium chloride, 135
- Wastewater
inhibition of the adsorption and photocatalytic degradation of an organic contaminant in an aqueous suspension of TiO_2 by inorganic ions, 37
- ZnO
photocatalytic transformation of aromatic compounds in aqueous zinc oxide suspensions: effect of substrate concentration on the distribution of products, 45
- ZrO_2
photoconductive and photocatalytic properties of ZrTiO_4 . Comparison with the parent oxides TiO_2 and ZrO_2 , 179
- ZrTiO_4
photoconductive and photocatalytic properties of ZrTiO_4 . Comparison with the parent oxides TiO_2 and ZrO_2 , 179
- Zwitterionic
ground and excited state prototropic behavior of 1-(purin-6-yl)-3-methylimidazolium chloride, 135
