Subject Index of Volume 141

Abstraction

Reactions of ground state atomic calcium, $\text{Ca}[4s^2(^1S_0)]$, investigated by time-resolved atomic resonance absorption spectroscopy at elevated temperature, 93

Acridine(1,8)dione

Electron-transfer and excited-state properties of radiolytically generated transients of acridine(1,8)dione dyes in an organic matrix, 25

Advanced oxidation processes (AOPs)

Photochemical and heterogeneous photocatalytic degradation of waste vinylsulphone dyes: a case study with hydrolysed Reactive Black 5, 247

Analysis of products

Analysis of products from breakdown of liquid benzene, toluene and cyclohexane caused by Nd^{3+} :YAG pulsed laser irradiation, 9

Anthracene

Decay kinetics of photosensitized triplet crystal violet in acetonitrile, 33

Azaferrocene

Formation and quenching of the photoexcited triplet state of tetrasulfonated zinc phthalocyanine, ZnPcS_4^{4-} by azaferrocene and ferrocene, 169

Benzyl ester

Mechanistic study of the photolysis of ring-substituted benzyl alkanoates in methanol, 139

Biradicaloid structure

Multiple emission of *N*-(1-naphthyl)-pyridinium, 127

BiVO_4

Overall water splitting by sonophotocatalytic reaction: the role of powdered photocatalyst and an attempt to decompose water using a visible-light sensitive photocatalyst, 219

Cadmium sulfide

Subpicosecond spectroscopy of thioglycerol-capped CdS colloidal solutions: influences of the solvent composition and the pump pulse intensity, 193

Calcium

Reactions of ground state atomic calcium, $\text{Ca}[4s^2(^1S_0)]$, investigated by time-resolved atomic resonance absorption spectroscopy at elevated temperature, 93

Carotenoids

One-electron transfer product of quinone addition to carotenoids. EPR and optical absorption studies, 117

Cationic starch

Selective interaction in solution between ammonium groups of a cationic starch and aromatic probes revealed by fluorescence emission, 183

$\text{Ca}[4s^2(^1S_0)]$

Reactions of ground state atomic calcium, $\text{Ca}[4s^2(^1S_0)]$, investigated by time-resolved atomic resonance absorption spectroscopy at elevated temperature, 93

Cell performance

Use of reductant and photosensitizer in photogalvanic cells for solar energy conversion and storage: oxalic acid–methylene blue system, 175

Channel flow method

Photomineralisation kinetics of aqueous chlorophenols at a supported TiO_2 surface studied by the channel-flow method with electrochemical detection, 69

Charge transfer processes

Photooxidation of nickel(II) macrocyclic complexes on excitation in the charge-transfer-to-solvent band in aqueous solution and in the presence of oxygen, 17

Multiple emission of *N*-(1-naphthyl)-pyridinium, 127

Charge-transfer complex

One-electron transfer product of quinone addition to carotenoids. EPR and optical absorption studies, 117

Chlorophenol

Photomineralisation kinetics of aqueous chlorophenols at a supported TiO_2 surface studied by the channel-flow method with electrochemical detection, 69

Conversion efficiency

Use of reductant and photosensitizer in photogalvanic cells for solar energy conversion and storage: oxalic acid–methylene blue system, 175

Coumarin derivative

Photophysical/quantum mechanical characterization of the compound 3-benzoxazol-2-yl-7-hydroxy-chromen-2-one, 109

Crystal violet

Decay kinetics of photosensitized triplet crystal violet in acetonitrile, 33

Crystallization

Layer-by-layer self-assembled multilayer film of cationic oligo(phenylene vinylene) and polyelectrolytes based on electrostatic interaction, 179

Cyromazine

Photocatalysed degradation of cyromazine in aqueous titanium dioxide suspensions: comparison with photolysis, 79

Dealkylation

Solar and ultraviolet *N*-dealkylation of *N,N*-dimethylaminobenzylidene malonic acid derivatives via photoexcited polycyclic nitroaromatic compounds, 241

Delayed fluorescence

Photosensitized processes in dicarbocyanine dyes induced by energy transfer: delayed fluorescence, *trans* \rightarrow *cis* isomerization and electron transfer, 39

Dicarbocyanine dyes

Photosensitized processes in dicarbocyanine dyes induced by energy transfer: delayed fluorescence, *trans* \rightarrow *cis* isomerization and electron transfer, 39

N,N-Dimethylaminobenzylidene malonic acid

Solar and ultraviolet *N*-dealkylation of *N,N*-dimethylaminobenzylidene malonic acid derivatives via photoexcited polycyclic nitroaromatic compounds, 241

Dimethylaminopyridines

Dual fluorescence of 4-dimethylaminopyridine and its derivatives. Effects of methyl substitution at the pyridine ring, 153

- Dual fluorescence
 - Dual fluorescence of 4-dimethylaminopyridine and its derivatives. Effects of methyl substitution at the pyridine ring, 153
- Electrochemical detection
 - Photomineralisation kinetics of aqueous chlorophenols at a supported TiO₂ surface studied by the channel-flow method with electrochemical detection, 69
- Electron transfer
 - Decay kinetics of photosensitized triplet crystal violet in acetonitrile, 33
 - Multiple emission of *N*-(1-naphthyl)-pyridinium, 127
- Electrostatic interactions
 - Layer-by-layer self-assembled multilayer film of cationic oligo-(phenylene vinylene) and polyelectrolytes based on electrostatic interaction, 179
- Energy transfer
 - Decay kinetics of photosensitized triplet crystal violet in acetonitrile, 33
- EPR
 - One-electron transfer product of quinone addition to carotenoids. EPR and optical absorption studies, 117
- Fill factor
 - Use of reductant and photosensitizer in photogalvanic cells for solar energy conversion and storage: oxalic acid–methylene blue system, 175
- Fluorescence
 - Yield of intersystem (singlet–triplet) crossing in phthalocyanines evaluated on the basis of a time in resolved photothermal method, 101
- Fluorescent sensors
 - Selective interaction in solution between ammonium groups of a cationic starch and aromatic probes revealed by fluorescence emission, 183
- Fluorescent whitening agent
 - Selective interaction in solution between ammonium groups of a cationic starch and aromatic probes revealed by fluorescence emission, 183
- FTIR
 - Using linear and branched polysilanes for the photoinitiated polymerization of a commercial silicone-acrylate resin.. A real time FTIR study, 85
- Fullerenes
 - Photoinduced electron transfer between fullerenes (C₆₀/C₇₀) and disubstituted naphthalenes using laser flash photolysis, 1
- ¹H-NMR
 - One-electron transfer product of quinone addition to carotenoids. EPR and optical absorption studies, 117
- H₂O₂/UV-C treatment
 - Photochemical and heterogeneous photocatalytic degradation of waste vinylsulphone dyes: a case study with hydrolysed Reactive Black 5, 247
- Hydrated electrons
 - Subpicosecond spectroscopy of thioglycerol-capped CdS colloidal solutions: influences of the solvent composition and the pump pulse intensity, 193
- Indigoid dye
 - Photochemical and photocatalytic degradation of an indigoid dye: a case study of acid blue 74 (AB74), 47
- Intramolecular charge transfer
 - Dual fluorescence of 4-dimethylaminopyridine and its derivatives. Effects of methyl substitution at the pyridine ring, 153
- Kinetics
 - Photochemical and photocatalytic degradation of an indigoid dye: a case study of acid blue 74 (AB74), 47
- Kinetics and mechanism
 - Photochemistry of *fac*-Pt(NO₂)₃Cl₃²⁻ complexes in water solutions, 159
- Langmuir–Hinshelwood type kinetic equation
 - Photochemical and heterogeneous photocatalytic degradation of waste vinylsulphone dyes: a case study with hydrolysed Reactive Black 5, 247
- Laser dyes
 - Electron-transfer and excited-state properties of radiolytically generated transients of acridine(1,8)dione dyes in an organic matrix, 25
- Liquid benzene
 - Analysis of products from breakdown of liquid benzene, toluene and cyclohexane caused by Nd³⁺:YAG pulsed laser irradiation, 9
- Luminescent
 - Layer-by-layer self-assembled multilayer film of cationic oligo-(phenylene vinylene) and polyelectrolytes based on electrostatic interaction, 179
- Macromolecular photoinitiators
 - Using linear and branched polysilanes for the photoinitiated polymerization of a commercial silicone-acrylate resin.. A real time FTIR study, 85
- Mass transfer
 - Photomineralisation kinetics of aqueous chlorophenols at a supported TiO₂ surface studied by the channel-flow method with electrochemical detection, 69
- Merocyanine–pyrrole adduct
 - Novel compounds producing a photochromic spiropyran on heating, 57
- Meta-effect
 - Mechanistic study of the photolysis of ring-substituted benzyl alkanates in methanol, 139
- Methylene blue
 - Photocatalytic activity of WO_x-TiO₂ under visible light irradiation, 209
- 2-Methylthiophene
 - Photocatalytic oxidative degradation of 2-methylthiophene in suspensions of TiO₂: identification of intermediates and degradation pathways, 63
- Mixed nitrito-chloride Pt(IV) complexes
 - Photochemistry of *fac*-Pt(NO₂)₃Cl₃²⁻ complexes in water solutions, 159
- Multilayer
 - Layer-by-layer self-assembled multilayer film of cationic oligo-(phenylene vinylene) and polyelectrolytes based on electrostatic interaction, 179
- Multiple fluorescence
 - Multiple emission of *N*-(1-naphthyl)-pyridinium, 127
- Naphthalene diimide
 - Photosynthesis of rose oxide by concentrated sunlight in the absence of singlet oxygen, 147
- Naphthalenes
 - Photoinduced electron transfer between fullerenes (C₆₀/C₇₀) and disubstituted naphthalenes using laser flash photolysis, 1
- Near-infrared laser breakdown
 - Analysis of products from breakdown of liquid benzene, toluene and cyclohexane caused by Nd³⁺:YAG pulsed laser irradiation, 9
- Ni(II) macrocyclic complexes
 - Photooxidation of nickel(II) macrocyclic complexes on excitation in the charge-transfer-to-solvent band in aqueous solution and in the presence of oxygen, 17
- Ni(III) macrocyclic complexes
 - Photooxidation of nickel(II) macrocyclic complexes on excitation in the charge-transfer-to-solvent band in aqueous solution and in the presence of oxygen, 17

- 2-Oxyallyl
The photochemistry of 1-cyclohexenyl-2,4,6-trimethylphenyl-methanone (1-mesityl-cyclohexene), 133
- Perylene diimide
Photosynthesis of rose oxide by concentrated sunlight in the absence of singlet oxygen, 147
- 2-Phenylphenol
Photocatalytic degradation of 2-phenylphenol on TiO_2 and ZnO in aqueous suspensions, 231
- Photocatalysis
Photochemical and photocatalytic degradation of an indigoid dye: a case study of acid blue 74 (AB74), 47
Photocatalysed degradation of cyromazine in aqueous titanium dioxide suspensions: comparison with photolysis, 79
Overall water splitting by sonophotocatalytic reaction: the role of powdered photocatalyst and an attempt to decompose water using a visible-light sensitive photocatalyst, 219
- Photocatalytic properties
Photocatalytic activity of $\text{WO}_x\text{-TiO}_2$ under visible light irradiation, 209
- Photochemistry
Photochemistry of $\text{fac-Pt}(\text{NO}_2)_3\text{Cl}_3^{2-}$ complexes in water solutions, 159
- Photochromic pattern
Novel compounds producing a photochromic spiropyran on heating, 57
- Photodegradation
Photocatalytic oxidative degradation of 2-methylthiophene in suspensions of TiO_2 : identification of intermediates and degradation pathways, 63
Photocatalysed degradation of cyromazine in aqueous titanium dioxide suspensions: comparison with photolysis, 79
Photodegradation mechanism of heterocyclic two-nitrogen containing compounds in aqueous TiO_2 dispersions by computer simulation, 201
Photocatalytic degradation of 2-phenylphenol on TiO_2 and ZnO in aqueous suspensions, 231
- Photoinduced electron transfer
Photoinduced electron transfer between fullerenes ($\text{C}_{60}/\text{C}_{70}$) and disubstituted naphthalenes using laser flash photolysis, 1
- Photoisomerisation
Photosensitized processes in dicarbocyanine dyes induced by energy transfer: delayed fluorescence, *trans* \rightarrow *cis* isomerization and electron transfer, 39
The photochemistry of 1-cyclohexenyl-2,4,6-trimethylphenyl-methanone (1-mesityl-cyclohexene), 133
- Photoluminescence spectra
Photocatalytic activity of $\text{WO}_x\text{-TiO}_2$ under visible light irradiation, 209
- Photolysis
Photocatalysed degradation of cyromazine in aqueous titanium dioxide suspensions: comparison with photolysis, 79
Reactions of ground state atomic calcium, $\text{Ca}[4s^2(^1\text{S}_0)]$, investigated by time-resolved atomic resonance absorption spectroscopy at elevated temperature, 93
Mechanistic study of the photolysis of ring-substituted benzyl alkanoates in methanol, 139
- Photomineralisation
Photomineralisation kinetics of aqueous chlorophenols at a supported TiO_2 surface studied by the channel-flow method with electrochemical detection, 69
- Photooxidation
Photooxidation of nickel(II) macrocyclic complexes on excitation in the charge-transfer-to-solvent band in aqueous solution and in the presence of oxygen, 17
Photodegradation mechanism of heterocyclic two-nitrogen containing compounds in aqueous TiO_2 dispersions by computer simulation, 201
- Photophysics
Photophysical/quantum mechanical characterization of the compound 3-benzoxazol-2-yl-7-hydroxy-chromen-2-one, 109
- Photothermal spectroscopy
Yield of intersystem (singlet-triplet) crossing in phthalocyanines evaluated on the basis of a time in resolved photothermal method, 101
- Phthalocyanines
Yield of intersystem (singlet-triplet) crossing in phthalocyanines evaluated on the basis of a time in resolved photothermal method, 101
- Polycyclic nitroaromatic compounds
Solar and ultraviolet *N*-dealkylation of *N,N*-dimethylaminobenzylidene malonic acid derivatives via photoexcited polycyclic nitroaromatic compounds, 241
- Polysilanes
Using linear and branched polysilanes for the photoinitiated polymerization of a commercial silicone-acrylate resin. A real time FTIR study, 85
- Positive holes h^+
Photocatalytic degradation of 2-phenylphenol on TiO_2 and ZnO in aqueous suspensions, 231
- Pulse radiolysis
Electron-transfer and excited-state properties of radiolytically generated transients of acridine(1,8)dione dyes in an organic matrix, 25
- Pyrazine
Photodegradation mechanism of heterocyclic two-nitrogen containing compounds in aqueous TiO_2 dispersions by computer simulation, 201
- Pyridazine
Photodegradation mechanism of heterocyclic two-nitrogen containing compounds in aqueous TiO_2 dispersions by computer simulation, 201
- Pyridinium cation
Multiple emission of *N*-(1-naphthyl)-pyridinium, 127
- Pyrimidine
Photodegradation mechanism of heterocyclic two-nitrogen containing compounds in aqueous TiO_2 dispersions by computer simulation, 201
- Pyrimidine dimer
Protective effect of TiO_2 particles on UV light induced pyrimidine dimer formation, 225
- Pyrrole
Novel compounds producing a photochromic spiropyran on heating, 57
- Quenching
Formation and quenching of the photoexcited triplet state of tetrasulfonated zinc phthalocyanine, ZnPcS_4^{4-} by azaferrocene and ferrocene, 169
- Quinones
One-electron transfer product of quinone addition to carotenoids. EPR and optical absorption studies, 117
- Radicals
One-electron transfer product of quinone addition to carotenoids. EPR and optical absorption studies, 117
- Reaction mechanism
Decay kinetics of photosensitized triplet crystal violet in acetonitrile, 33
- Reactive Black 5
Photochemical and heterogeneous photocatalytic degradation of waste vinylsulphone dyes: a case study with hydrolysed Reactive Black 5, 247
- Semiempirical MO calculation
Mechanistic study of the photolysis of ring-substituted benzyl alkanoates in methanol, 139
- Sensitization
Photosensitized processes in dicarbocyanine dyes induced by energy transfer: delayed fluorescence, *trans* \rightarrow *cis* isomerization and electron transfer, 39

- Silicone-acrylate resins
Using linear and branched polysilanes for the photoinitiated polymerization of a commercial silicone-acrylate resin.. A real time FTIR study, 85
- Singlet oxygen
Yield of intersystem (singlet-triplet) crossing in phthalocyanines evaluated on the basis of a time in resolved photothermal method, 101
- Solar concentrator
Photosynthesis of rose oxide by concentrated sunlight in the absence of singlet oxygen, 147
- Solvent effect
Dual fluorescence of 4-dimethylaminopyridine and its derivatives. Effects of methyl substitution at the pyridine ring, 153
Subpicosecond spectroscopy of thioglycerol-capped CdS colloidal solutions: influences of the solvent composition and the pump pulse intensity, 193
- Sonophotocatalysis
Overall water splitting by sonophotocatalytic reaction: the role of powdered photocatalyst and an attempt to decompose water using a visible-light sensitive photocatalyst, 219
- Spiropyran
Novel compounds producing a photochromic spiropyran on heating, 57
- Subpicosecond spectroscopy
Subpicosecond spectroscopy of thioglycerol-capped CdS colloidal solutions: influences of the solvent composition and the pump pulse intensity, 193
- Substituent effect
Mechanistic study of the photolysis of ring-substituted benzyl alkanoates in methanol, 139
- Super oxide anion radical
Photosynthesis of rose oxide by concentrated sunlight in the absence of singlet oxygen, 147
- Surface photovoltage spectra
Photocatalytic activity of $\text{WO}_x\text{-TiO}_2$ under visible light irradiation, 209
- Textile dyestuffs
Photochemical and heterogeneous photocatalytic degradation of waste vinylsulphone dyes: a case study with hydrolysed Reactive Black 5, 247
- Thin-film reactor
Photomineralisation kinetics of aqueous chlorophenols at a supported TiO_2 surface studied by the channel-flow method with electrochemical detection, 69
- Thioglycerol-capped CdS
Subpicosecond spectroscopy of thioglycerol-capped CdS colloidal solutions: influences of the solvent composition and the pump pulse intensity, 193
- TiO_2
Photocatalytic oxidative degradation of 2-methylthiophene in suspensions of TiO_2 : identification of intermediates and degradation pathways, 63
Photomineralisation kinetics of aqueous chlorophenols at a supported TiO_2 surface studied by the channel-flow method with electrochemical detection, 69
- Overall water splitting by sonophotocatalytic reaction: the role of powdered photocatalyst and an attempt to decompose water using a visible-light sensitive photocatalyst, 219
- Protective effect of TiO_2 particles on UV light induced pyrimidine dimer formation, 225
- $\text{TiO}_2/\text{UV-A}$ treatment
Photochemical and heterogeneous photocatalytic degradation of waste vinylsulphone dyes: a case study with hydrolysed Reactive Black 5, 247
- Titanium dioxide
Photocatalysed degradation of cyromazine in aqueous titanium dioxide suspensions: comparison with photolysis, 79
Photodegradation mechanism of heterocyclic two-nitrogen containing compounds in aqueous TiO_2 dispersions by computer simulation, 201
Photocatalytic activity of $\text{WO}_x\text{-TiO}_2$ under visible light irradiation, 209
- Trans*-1-cyclohexenyl aryl ketone
The photochemistry of 1-cyclohexenyl-2,4,6-trimethylphenyl-methanone (1-mesityl-cyclohexene), 133
- Triplet state
Photoinduced electron transfer between fullerenes ($\text{C}_{60}/\text{C}_{70}$) and disubstituted naphthalenes using laser flash photolysis, 1
Photosensitized processes in dicarbocyanine dyes induced by energy transfer: delayed fluorescence, *trans* \rightarrow *cis* isomerization and electron transfer, 39
Yield of intersystem (singlet-triplet) crossing in phthalocyanines evaluated on the basis of a time in resolved photothermal method, 101
- Tungsten oxide
Photocatalytic activity of $\text{WO}_x\text{-TiO}_2$ under visible light irradiation, 209
- Ultrasound
Overall water splitting by sonophotocatalytic reaction: the role of powdered photocatalyst and an attempt to decompose water using a visible-light sensitive photocatalyst, 219
- UV light
Protective effect of TiO_2 particles on UV light induced pyrimidine dimer formation, 225
- UV/ H_2O_2 process
Photochemical and photocatalytic degradation of an indigoid dye: a case study of acid blue 74 (AB74), 47
- UV-VIS spectroscopy
One-electron transfer product of quinone addition to carotenoids. EPR and optical absorption studies, 117
- Water decomposition
Overall water splitting by sonophotocatalytic reaction: the role of powdered photocatalyst and an attempt to decompose water using a visible-light sensitive photocatalyst, 219
- Zinc phthalocyanine
Formation and quenching of the photoexcited triplet state of tetrasulfonated zinc phthalocyanine, ZnPcS_4^{4-} by azaferrocene and ferrocene, 169
