### Short Course Opens July 25

THE 1960 SHORT COURSE on edible fats, conducted at the University of Illinois, Urbana, by the American Oil Chemists' Society opens July 25 and runs through July 27, with L. R. Dugan Jr. of the American Meat Institute Foundation, Chicago, as program chairman. In charge of local arrangements will be R. T. Milner of the food technology department of the university and R. K. Newton of the Extension Division.

The program was announced in the May and June issues of the Journal. Registrations for the course, since the June issue, are as follows:

Chris Chozianin, National Dairy Products Corporation, Glenview, Ill.

George Davidson, Canada Packers Ltd., St. Boniface, Manitoba  
Arthur E. Engelbrecht, Wesson Oil and Snowdrift Company Inc., Chicago, Ill.

Alan S. Geisler, Atlas Powder Company, Wilmington, Del.

David P. Kidger, National Biscuit Company, Fair Lawn, N. J.  
Walter C. Kular, Canada Packers Ltd., Montreal, Que.

Paul D. C. Osborne, Sharples Process Engineers Ltd., London, England

William D. Parton, Wilson and Company, Chattanooga, Tenn.

E. M. Perrin, Procter and Gamble Company, Hamilton, Ont.

Darwin B. Schlesing, Armour and Company, Chicago, Ill.

P. B. Simpson, Procter and Gamble Company, Hamilton, Ont.

Fee for the course will be \$65, payable in advance to the American Oil Chemists' Society, 35 E. Wacker drive, Chicago 1, Ill. Housing and meals will be payable to the university on arrival. Lectures, housing, and meals will all be in Garner hall, in a new complex of buildings at the university. Married couples will have a section in the hall.

## • New Members

### Active

Findlay M. Bonnor, executive vice president, Perco Industries Inc., Vancouver, B. C., Canada

Earl L. Brown, senior research technician, Monsanto Chemical Company, Dayton, O.

Edwin J. Drobka, vice president, production and chief chemist, Filler Products Inc., Atlanta, Ga.

Richard Lee Evers, research technician, Monsanto Chemical Company, Dayton, O.

Francis B. Kinney, research technician, Monsanto Chemical Company, Dayton, O.

Helmut Korp, research chemist, AB Karlshamns Oljefabriker, Karlshamn, Sweden

Gerhard Maerker, research chemist, U. S. Department of Agriculture, Eastern Utilization Research and Development Division, Philadelphia, Pa.

Gilberto Roa Meneses, director tecnico, Fabrica de Grasas Vegetales de Bolivar Ltda., Bolivar, Colombia

Joseph Sataneck Jr., laboratory technician, Monsanto Chemical Company, Dayton, O.

### Active Junior

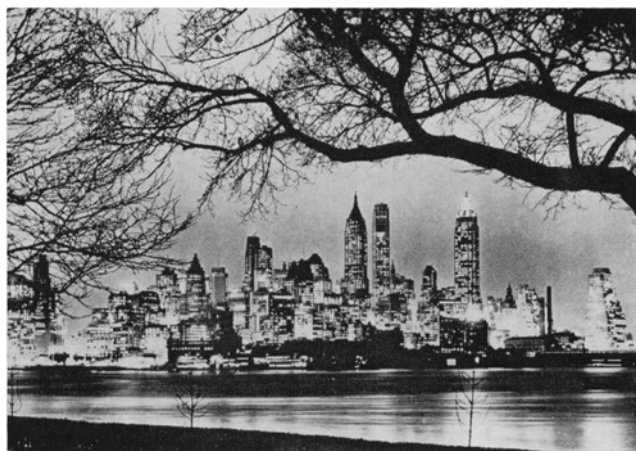

Indrajit D. Desai, research assistant and graduate student, Food Science and Technology Department, University of California, Davis Calif.

### Individual Associate

Robert Germain Houghtlin, president, National Soybean Processors Association, Chicago, Ill.

William R. Lloyd (1947), formerly associate professor, College of Pharmacy, University of Texas, Austin, is now with the Texas Pharmacal Company in San Antonio, as director of product development.

Charles J. McClaughry (1942), formerly president of Commercial Internacional S. A. in San Salvador, now represents Exportadora de Sal S. A. of Mexico, in California, with San Ysidro as his address.

New York Convention and Visitors Bureau

**DOWNTOWN SKYLINE**—This night view from Governor's Island shows the blazing lights in the skyscrapers of lower Manhattan as jewels suspended in the air. New York will be the scene of the 34th fall meeting of the American Oil Chemists' Society at the Hotel New Yorker, October 17-19, 1960. (For more information, see page 4.)

## Final Call for Abstracts

THE TECHNICAL PROGRAM COMMITTEE is hereby making its final call for papers for the Fall Meeting of the American Oil Chemists' Society, to be held in New York City, October 17-19, 1960. Deadline for receipt of the abstracts of papers to be presented has been set for July 25, 1960. Although this date may appear to be unnecessarily early to some, it is only in this way that the desire of many of our members to have a preview of the technical program published prior to the meeting can be met.

Earlier plans to require submission of papers for review prior to the meeting having been abandoned because of the undue hardship likely to be imposed in a few cases, it is hoped that most speakers will be ready to submit their papers prior to or at the meeting. Abstracts of papers submitted for inclusion in the program may be submitted to any committee member but preferably to the chairman, Dr. Waldo C. Ault, U. S. Department of Agriculture, Philadelphia 18, Pa.

W. C. AULT

## Honor W. S. Belden

A CERTIFICATE of emeritus membership in the American Oil Chemists' Society was given to W. Samuel Belden (1921), chief chemist and refinery superintendent for the Producers Cotton Oil Company in Fresno, Calif., at the spring meeting of the Northern California Section on May 13 at the Engineers club in San Francisco. The emeritus classification was granted by the Governing Board of the Society. Mr. Belden was to retire on July 1.

He spoke on "The Development of the Cottonseed Oil Industry in California" from its infancy at the turn of the century to the present, citing first-hand experiences over the past 35-40 years for the entertainment of members and their ladies. After his talk F. L. Avera, chairman of the Section, and R. H. Purdy reported on highlights of the Society meeting in Dallas in April.

The next meeting of the Section will be held in the East Bay sometime in September.

FREDERIC PALMER 3rd, secretary and vice chairman

P. P. Sarma (1954) has moved from Davangere, Mysore State, where he was chief chemist and works manager for the Ravi Vegetable Oil Industries, to Bombay to become technical manager for De Smet Extractions (India) Private Ltd.
