
19th INTERNATIONAL CONFERENCE ON THE BIOCHEMISTRY OF LIPIDS

Paris, France, September 6-8, 1976

Présidents: Prs P. Desnuelle and F. Chevallier

Secrétariat: J. Polonovski, Faculté de Médecine Saint-Antoine

27, rue Chaligny, F 75571 PARIS CEDEX 12 - Tél. (1) 344.33.33 (P. 22.09)

PROGRAM

Sunday, September 5, 1976*

1600-2000	Registration and welcome cocktail, in Faculté de Médecine Saint-Antoine.
2130	Illuminated Paris Tour.

Monday, September 6, 1976

Lectures	0900	<i>J. Avigan</i>	Studies on the effects of hormones on cholesterol synthesis in mammalian cells in culture.
	0945	<i>S.M. Brown</i>	The receptor-mediated regulation of cholesterol metabolism.
Poster Session; Lunch			
	1030-1500		
Lectures	1500	<i>N.B. Myant</i>	The metabolism of cholesterol and lipoproteins in familial hypercholesterolemia.
	1545	<i>E.H. Mosbach</i>	Catabolism of cholesterol.
	1630	<i>A.F. Hofmann</i>	Enterohepatic circulation of bile acids in man.

Tuesday, September 7, 1976

Lectures	0900	<i>E.H. Ahrens</i>	Human aspects of cholesterol metabolism.
	0945	<i>F. Chevallier</i>	Rat cholesterol as a dynamic system.
Poster Session; Lunch			
	1030-1500		
Lectures	1500	<i>G.S. Boyd</i>	Intracellular movement and fate of cholesterol.
	1545	<i>Y. Stein</i>	The role of lipoproteins, apoproteins, and phospholipids in the ingress and egress of cellular cholesterol.
	1630	<i>J.A. Glomset</i>	Role of LCAT in cholesterol metabolism.

Wednesday, September 8, 1976

Lectures	0900	<i>R.O. Scow</i>	Role of lipoprotein-lipase in the clearance of chylomicrons from blood: a model for lipid transport by lateral diffusion in cell membranes.
	0945	<i>C.J. Fielding</i>	Functions of specific polypeptides in the substrate properties of synthetic and natural plasma lipoproteins.
Poster Session; Lunch			
	1030-1500		
Lectures	1500	<i>B. Borgstrom</i>	Physico-chemical characteristics of the lipase-colipase-bile salt system.
	1545	<i>P. Desnuelle</i>	Interactions of pancreatic lipase and colipase with model interfaces.
	1630	<i>D.H. de Haas</i>	The interactions of phospholipase A with lipid-water interfaces.
Evening			Conference dinner.

*Schedules of planes or trains (to be booked in advance) will enable the Congressists of the 13th ISF Congress in Marseille, August 30-September 4, to participate in the above program.
